PADRÃO BS DE QUALIDADE

5

Entenda o Padrão BS de Qualidade.

Na hora de comprar realize a escolha certa dos produtos para aplicar em sua confecção, artesanato ou decorações.

Com a necessidade de atender a todos os nichos de mercado e devido a inúmeros produtos fabricados por terceiros a Baby Sonic Aviamentos é a primeira e única empresa a criar o Padrão BS de Qualidade para apresentar as diversas e múltiplas soluções nas opções de produtos a fim de atender todas as classes de mercado conforme a sua necessidade e exigência de acabamento nos artigos onde serão aplicados os Bordados Sonic.

Pensando no mais amplo aspecto da necessidade de cada confeccionista e artesão a Baby Sonic disponibiliza produtos que vão desde o mais alto nível de durabilidade a agressividade contra abrasões e lavagens em máquinas até a aplicação nos produtos de decorações e enfeites onde não exijam as mais altas resistência a danos, oferecendo menores custos nas aplicações dos Bordados Sonic em seu produto final (artigo acabado).

Empresas no mercado não informam em seus produtos as indicações adequadas de forma a orientar os consumidores o tipo de produto que está adquirindo onde ocorre muitas vezes a aplicação inadequada prejudicando a qualidade final e a garantia da mercadoria confeccionada causando prejuízos e danos ao produto, lojista, confecção e consumidor.

CLASSIFICAÇÃO INDICATIVA BS

- 5** - Máxima resistência a agressividade abrasiva, lavagens e ferro de passar.
- Indicado para Artigos Finos que exigem o máximo da qualidade e alta durabilidade.
- 4** - Média alta resistência a agressividade abrasiva, lavagens e ferro de passar.
- indicado para Artigos de Classe Geral com médio risco de exposição a danos e com cuidados de nível médio.
- 3** - Média resistência a agressividade abrasiva, lavagens e ferro de passar.
- Indicado para Artigos de Classe Geral com baixo risco de exposição a danos e com cuidados de nível médio.
- 2** - Baixa média resistência a agressividade abrasiva, lavagens e ferro de passar.
- Indicado para Artigos de Enfeites e Decorações com baixo risco de exposição a danos e com cuidados de nível alto.
- 1** - Baixa resistência a agressividade abrasiva, lavagens e ferro de passar.
- Indicado para Artigos de Enfeites e Decorações sem exposição a danos e com máximo nível de cuidados gerais.
