PACEMAKER
PERFORMANCE

Pacemaker performance exhausts are exceptionally tough and durable with heavy duty flanges and mounting brackets, Constructed in top-grade **409 stainless steel** they are designed to handle heat stress and engine vibration on and off the road. **Mandrel bend** pipes, free flowing mufflers, The renowned Pacemaker build quality provides that superior performance for years to come.

Disclaimer- Some systems alter or remove components of the vehicle's emission control system. Autobend Ltd do not accept any liability as to the vehicles performance or NZ legal requirements if such systems are installed. Autobend Ltd does not accept liability of any errors or eventuality arising from the vehicle models listed. Please check the parts suit the application carefully before installation.
