Flowers have fascinated artists and the lay community alike for generations. Although they're most fully appreciated visually, there's a particular internal quality present in them that is difficult to overlook.

At overstockArt, our floral paintings collection examines the flower through a number of different lenses throughout time.

In the art world, females are easily the most used subjects and muses of great painters. At overstockArt we offer a wide selection of paintings of women. These pieces are carefully replicated by professional artists to look exactly like the originals.

Our selection includes portraits with women and children, nude woman paintings and styles of other female paintings from different eras.

Check out masterpieces from artists like John Singer Sargent, Edgar Degas, Henri Matisse, Claude Monet, Leonardo da Vinci, Gustav Klimt, and so many more!

## ROMANTIC OIL PAINTINGS

When it comes to the expression of beauty and romance, no one does it better than the historic master artists. At overstockArt, we have a wide selection of romantic oil paintings, from Renoir's softly colored impressionist masterpieces to the wild passion of Van Gogh's landscapes.

A simple poster or even a quality art print cannot convey the depth of emotion present in a powerful expression of oils on canvas.

1. **The Promenade Near Argenteuil** by Claude Monet  
30 X 40 inch canvas; MON1864 \$279.00  
Excalibur Frame; FR-620BP30X40 \$299.00

All great artists begin their careers with learning how to paint the “still life”, a painting of an inanimate object whose shading and detail must be captured after hours of laborious practice. Even after conquering this challenge, many accomplished artists continue to paint still-life because they offer the artist much more creative leeway than a landscape or portrait can. overstockArt has a large collection of still-life paintings that are much more than just practice sketches by unknown artists, but rather unique takes on inanimate objects done by already-masterful painters. Browse these still-life oil painting reproductions of the classic floral arrangements, fruit bowls and kitchen items seen from the point of views of art history’s most creative, thoughtful minds.
