*Note: Add space between items if choosing multiple search items.

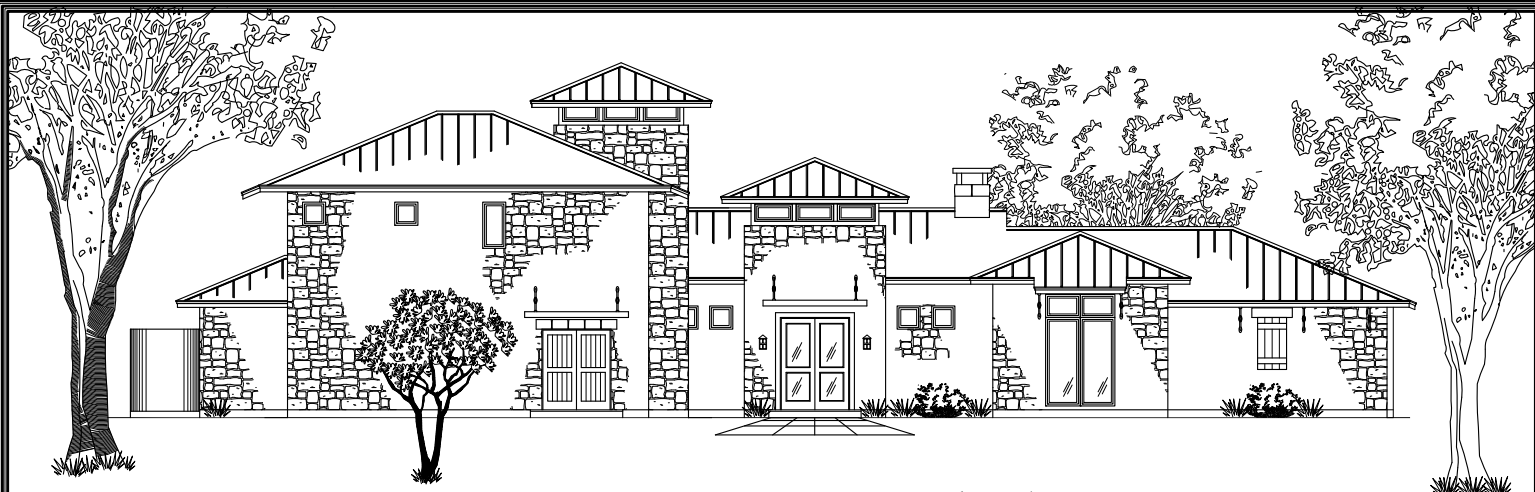

TEXAS CONTEMPORARY

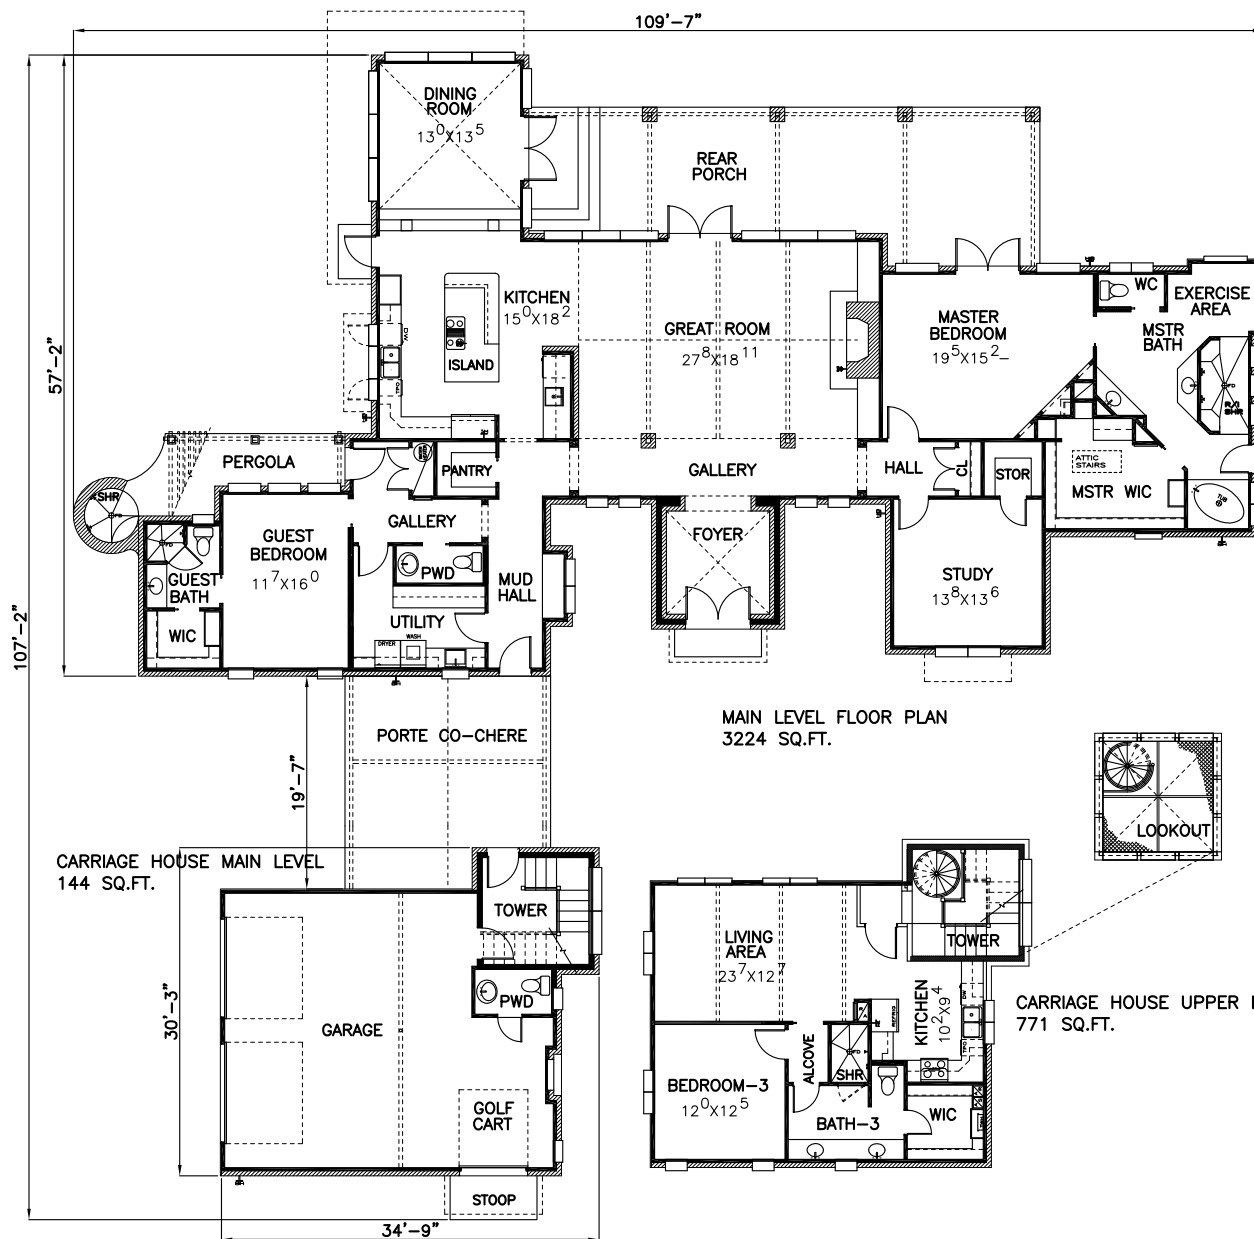

The Texas Contemporary combines clean, flowing lines and massing, often with the appearance of a flat roof structure or slow pitched roofs. Resisting symmetry, the contemporary style will incorporate balance. We like to incorporate rustic elements with the uncluttered design for added warmth. Often this style will include steel window walls inset in stucco or stone massing. We will often include stone and stucco with hints of wood to achieve aesthetic balance.

TYPICAL FEATURES

- Appearance of Flat Roofs or Slow Pitched Roofs
- Shear Walls
- Bold Glass (a lot of Fixed Glazing)
- Strong Vertical and/or Horizontal Lines
- Asymmetrical but Balanced
- Open Floor Plan
- Spaciousness
