About Us

Since 2013, our award winning programmes have empowered young people to seize the future.

We have welcomed bright students from around the globe for more than a decade, giving them the edge to help them succeed, find their purpose and make a difference in the world.

We're proud to be accredited by the British Accreditation Council for our high educational and pastoral standards, to have received the first King's Award from King Charles III at Buckingham Palace and to be rated the number one academic summer school in Europe.

Our immersive programmes give young people with big dreams the clarity and confidence to thrive in an ever-changing world.

All our programmes are rooted in our Worldview (see right): the vision and philosophy that underpins our approach.

Worldview

The world has never been so alive with possibility. Opportunities we once thought inconceivable are now right in front of us. We see this every day in medicine, technology, science, law, engineering and other rapidly emerging fields.

Our students are excited for the future - yet face uncertainty in a world of exam pressures, social media comparison, climate change, misinformation and political upheaval.

We help students see the path ahead with resolve and optimism, giving them the tools to thrive in this ever-changing environment.

We teach young people how to think actively, critically and for the long-term. Here, they'll develop a strong sense of independence and learn how to write their own story, while also learning the value of collaboration and community. All while pushing the boundaries of their academic potential.

Welcome to Oxford Scholastica

A Message from Our Founders

As founders of the Oxford Scholastica Academy, we wanted to write a personal note to warmly welcome you and your child to the Oxford Scholastica family.

As parents ourselves, we understand the leap of faith it takes to send your child on a summer programme. Our team are always just a call away, and as founders we take real pride in ensuring that each student is known, valued and cared for by our team.

Like you, we recognise that the world our children are growing up in is very different from the one we faced. Every year brings a revolution, and with rapid change comes both uncertainty and opportunity. As your child begins considering university and a future career, developing the right mindset will be key.

Our mission is to help teenagers like yours to seize the future by creating extraordinary learning experiences that combine a vibrant teaching environment with real-world challenges.

You and your child should set your expectations high - Oxford Scholastica is far more than just a summer programme. For over a decade, we've helped more than 10,000 students to build skills, friendships and experiences that last long beyond the summer.

Many thanks for reading. We look forward to welcoming your child to the Oxford Scholastica family.

JAMIE & DR SOPHIE DEAR, Founders

Oxford Scholastica ACADEMY

Summer School in Oxford

Held in the historic city of Oxford, our summer school offers exceptional learning experiences which combine immersive academic programmes with practical, real-world challenges.

Students from around the world can explore their chosen subjects in small, interactive classes delivered by inspirational tutors.

Our programmes take place in Oxford, but are independently run and not affiliated with the University of Oxford or other universities.

Meet the Tutors

Abhishek Ranjan Datta

BA Hons, MA, MSc (Oxon), DPhil Candidate (Oxon)

Debate & Public Speaking

Abhishek is a Clarendon and Kingsgate Scholar at Lincoln College, Oxford University, reading for a DPhil in International Development. He holds a BA and MA in English Literature from the University of Delhi (First-Class Honours) and an MSc in Modern South Asian Studies (Distinction) from Oxford University.

Dr Kathryn Woodward

BMedSci, MD, MSc (Oxon), DPhil Candidate (Oxon)

Medicine

Dr Kathryn Woodward is a Rhodes Scholar and DPhil candidate in Primary Healthcare at the University of Oxford. She earned her BMedSci and MD (Distinction, University Medal) from Griffith University and an MSc in Applied Digital Health (Distinction) from Oxford University. Kathryn also lectures at Griffith University and serves as Deputy Chair of a youth cancer charity.

Dr Alexandra Hibble

BA Hons, MSc, DPhil (Oxon)

Psychology & Neuroscience

Alix holds a BA in Experimental Psychology (First-Class Honours), an MSc in Psychological Research and a DPhil in Experimental Psychology, all from the University of Oxford. Her research centres on perception and consciousness. Alix is now a lecturer at Oxford University, specialising in psychology and study skills. She loves board games and interesting science podcasts.

Dr Rory Maples

BA Hons, MBBS, Msc (Oxon)

Medicine

Dr Rory Marples is a practising doctor and general surgery specialist at the John Radcliffe Hospital, currently completing a Master's in Digital Health at Lincoln College, Oxford University. Originally from Sydney, he has taught medical students in Australia and Oxford. Rory's interests lie in medicine, technology and humanitarianism, complementing his clinical and academic pursuits.

Dr Arushi Sharan

BA Hons, Master's Diploma, MA, DPhil (Oxon)

IR, Politics & Leadership

Arushi holds a DPhil in International Development from the University of Oxford, completed with the support of the Abdul Rauphu Mustafa Scholarship. She holds an MA in Political Science (Distinction) from Jawaharlal Nehru University and a Master's in Conflict Transformation. She has taught Comparative Politics at Ashoka University and published research on policy and governance.

Dr Sarah Marshall

BA Hons, MSt (Oxon), DPhil (Oxon)

Creative Writing

Sarah was awarded an MSt with Distinction in Classical Languages and Literature by the University of Oxford in 2021. She subsequently taught English and Classics at Wycombe Abbey School, and returned to Oxford in 2023 to pursue a DPhil, which she completed in 2025. She won the Avril Gilchrist Bruten Award for Creative Writing in 2024 recognition of her work.

Please note, this timetable is subject to change.

Academic Cultural Social

A Typical Day

07:30 **Breakfast**
Your day starts with a continental breakfast on campus. Our team will check you're awake and ready for the day by 8am, so set your alarm!

09:00 **Class & Study Time**
It's about a 10-minute walk to class. Classes are engaging and interactive, so be ready to ask questions, collaborate with peers and share your ideas.

11:00 **Class & Study Time**
Prepare for tomorrow's class: your tutor will ask you to read an article, prepare a presentation or write an essay. Work on this in the accommodation.

13:00 **Lunch & Free Time**
Explore Oxford with your friends to get some lunch and relax for an hour or two. Explore the shops, visit a museum or play sport with friends.

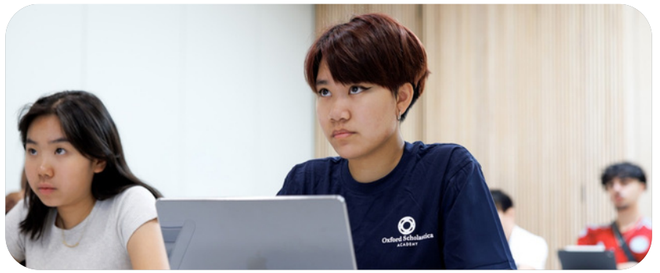

15:00 **Punting**
Punting is a classic Oxford tradition. It's a boating activity on the river (pictured right) - challenging, but lots of fun! Bond with friends and practise your skills.

18:00 **Dinner**
We'll go out together for dinner as a group. Whatever your dietary requirements or preferences, there will always be plenty of choice.

19:30 **Shakespeare Play**
Watch a Shakespeare play in the beautiful grounds of the Oxford Castle to absorb the best of British culture. Or, if you prefer, play football in the park.

22:30 **Goodnight check-in**
Our team will brief you on what to expect tomorrow, check you're in your room and say goodnight. Sleep well!

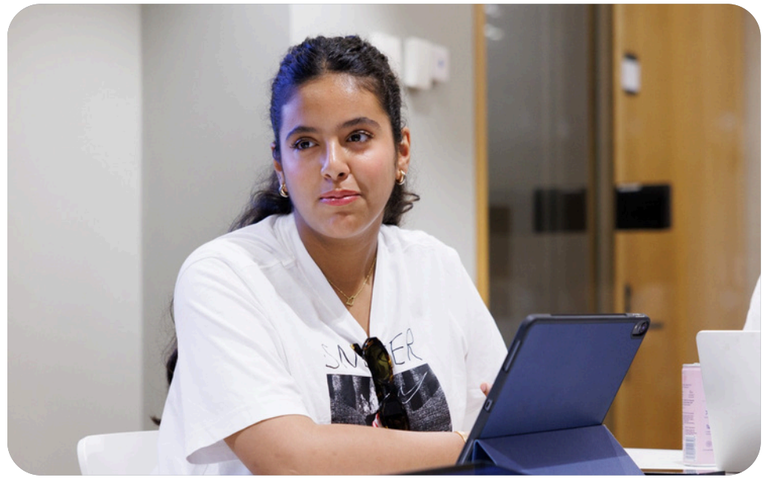

"Oxford Scholastica was the BEST experience of my entire life. Outside of the classroom we had the most amazing excursions and social opportunities. It is such a positive environment with so many opportunities."

Rachel
United Kingdom, Medicine

Challenges, Masterclasses, Hero Sessions

Challenges

All students take part in an exciting academic Challenge - an opportunity to stretch themselves, collaborate with their classmates and put the theory they've learnt into practice.

Medicine students visit a local hospital to meet and diagnose real patients; Law students take part in a practical mock trial; Business students build and pitch an idea for an app-based business.

Whichever programme students choose, the Challenge is a powerful and memorable opportunity to bring the theory to life.

Masterclasses

Alongside class, Oxford Scholastica students join a variety of inspirational Masterclasses, which are designed to nurture practical life skills that will be useful in any career.

From debating to critical thinking, from leadership to the impact of AI on creativity, our Masterclasses will prepare students to seize the future, no matter which subject they pursue. These are part of the programme - no sign-up required.

Hero Sessions

As part of the course, students will meet an inspirational Hero, a young professional who studied their subject and has gone on to achieve impressive feats in their early career.

The Hero will share their experiences at university and in their career, explain what a day in their life looks like, and leave plenty of time for questions. It's a chance for students to go beyond the curriculum and get real industry insight.

Trips & Activities

Social Activities

Beyond the classroom, students engage in vibrant social activities designed to create lasting memories and friendships, fostering a sense of community and shared experiences.

The International Boat Ball is a highlight of the programme - an unforgettable evening aboard a boat on the River Thames. Students also take part in a talent show, and plenty of movie nights, quiz nights and games nights with new friends.

Cultural Events

During your time at Oxford Scholastica, you'll get a real sense of what life in Oxford is like.

On your first full day, you'll go on a tour of Oxford to see all the sights of the city and to get your bearings. You'll also go punting (a classic Oxford tradition), explore Oxford's many museums, see a Shakespeare play, and experience all the cultural riches that Oxford has to offer.

Trips

You'll get to know Oxford very well during your time here, but we'll also go on a couple of trips. We'll visit Windsor Castle - the home of His Majesty the King - where you'll see the impressive State Rooms and St George's Chapel (where Queen Elizabeth II is buried, and where Harry and Meghan got married!).

We'll also go to Blenheim Palace, a beautiful baroque palace in Oxfordshire that was the birthplace of Winston Churchill.

Accommodation

Please note, the Oxford Scholastica Academy contracts with St Peter's, Corpus Christi, St Anne's and Hertford Colleges for the use of their facilities but we have no formal connection with the University of Oxford.

You'll be living and studying in an Oxford University college, your home for the summer. Please note that, while we use Oxford University facilities, we are separate from the University.

Our accommodation is in the heart of Oxford, close to all the coffee shops, restaurants and supermarkets that Oxford has to offer and just a short 10-minute walk to your classes.

You'll get a choice of an en-suite room (a private bedroom with your own bathroom) or a standard room with a shared bathroom.

Rooms are allocated based on age and sex, so you'll live on a corridor with other boys or girls your age.

We have a limited number of twin rooms available - if you'd like one, please let us know and we'll do our best to accommodate it.

Who Are Our Students?

The friendships students build at Oxford Scholastica are truly transformative.

Every summer, students arrive excited to meet new people, but leave with something far more powerful: confidence, belonging and friendships that last a lifetime.

Oxford Scholastica students are bright, ambitious and curious. They arrive ready to learn and leave changed by the people they have met.

Coming to Oxford from around the world, they bring diverse experiences and a truly global outlook.

As an Oxford Scholastica student, you'll meet people you might never have otherwise encountered and discover you have more in common than you think. You will learn, explore and grow together in one of the most inspiring cities in the world.

Meet the Tutors

Daniel Timms
BA Hons (Cantab)

Computer Science, Coding & AI

Daniel is a software developer and STEM tutor who studied Mathematics at the University of Cambridge. He began programming in MATLAB and later worked at Hewlett Packard Enterprise, developing large-scale C++ applications and natural language processing systems. Outside of his work, Daniel represents the UK in mental calculation and memory competitions!

Dr Jaskiran Kaur Bhogal
BSc, MSc, MSc, MRes, FHEA, PhD

Business

Jaskiran studied Anthropology at the London School of Economics, receiving the prestigious Alfred Gell Scholarship for her doctorate. She holds an undergraduate degree in Economics and has been recognised for her excellence in teaching, including being named Class Teacher of the Year. She collaborates with the Sikh Education Council and is developing her own business.

Anna Bartlett
BA Hons (Oxon)

Politics & Debate

Anna is a tutor in Politics & Debate. She studied Politics, Philosophy and Economics at the University of Oxford, where she developed a deep passion for both the subject and the city. Anna's teaching experience includes working in primary schools in Kenya.

Liam Obuobie
MEng Hons, EngTech MIMechE MIET

Engineering

Liam holds an MEng with Honours in Mechanical Engineering from Newcastle University and is now a Mechanical Engineering (Building Services) Graduate at Arup. He became EngTech registered during his university industrial placement, a rare achievement among UK students.

Faissal Sharif
BSc, MSc, DPhil Candidate (Oxon)

Psychology & Neuroscience

Faissal holds a BSc in Biomedical Sciences from Maastricht University, including a semester at the Chinese University of Hong Kong, and an MSc in Translational Neuroscience from Imperial College London. Currently pursuing a DPhil in Clinical Neurosciences at Oxford University, he focuses on neurotechnology for mental disorders.

Tarjani Samani
BSc, MSc

Architecture & Design

Tarjani is an architect and writer from Mumbai who completed a Master's in Design Research at Anhalt University of Applied Sciences in collaboration with the Bauhaus Dessau Foundation and Humboldt University Berlin. Her thesis explored how emerging architectural practices create inclusive spatial dialogues.

Academic Masterclass Social

Online Programme

Masterclasses

Masterclasses are skills-based workshops students attend alongside their course of choice.

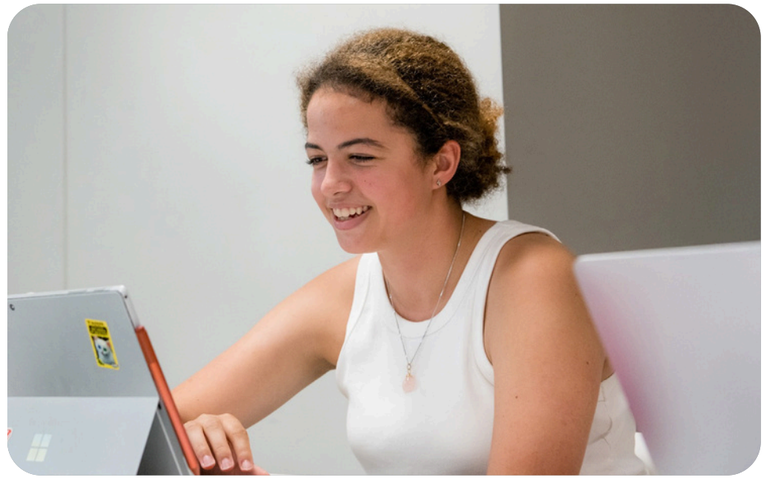

Led by tutors (or external speakers) with expertise on a specific topic, these workshops are designed to bring out the best in each student, present diverse perspectives and help students seize the future. Topics include critical thinking, career planning and public speaking.

Socials

Students on the same course get to know each other well through group activities, breakout rooms and teamwork, but also get to meet students from other programmes during our weekly socials.

The online socials are a chance for students to get to know each other over a game, a quiz or a group activity run by our team. These events are informal, relaxed and friendly, so come along to take a break from academic study and make friends from around the world.

Graduation

After the course, students and their families are invited to attend an online Graduation ceremony to celebrate students' achievements.

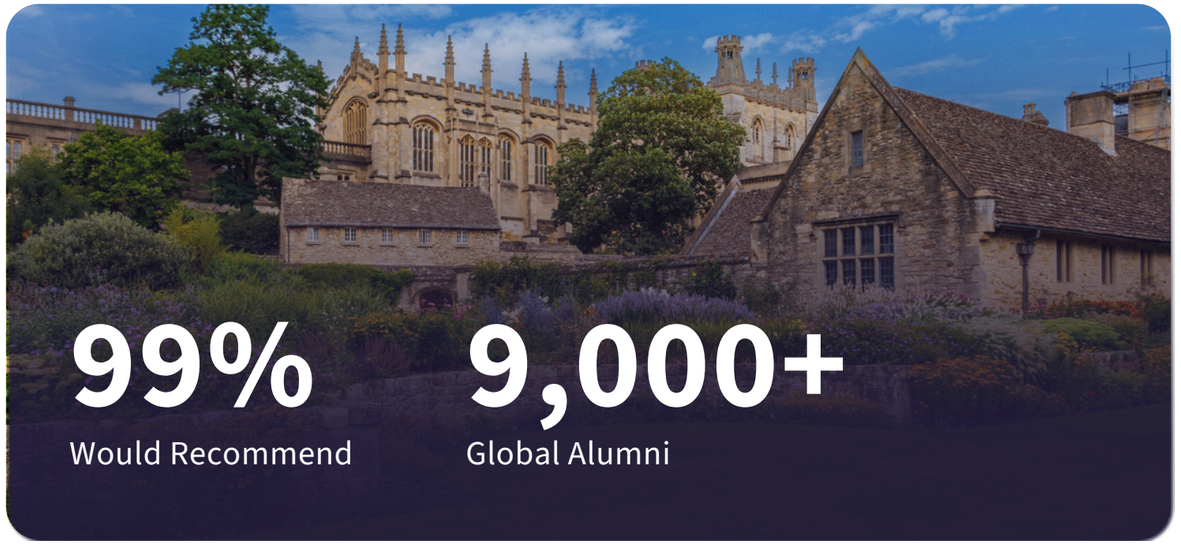

Students receive a Certificate of Achievement and a personalised Letter of Recommendation from their tutor.

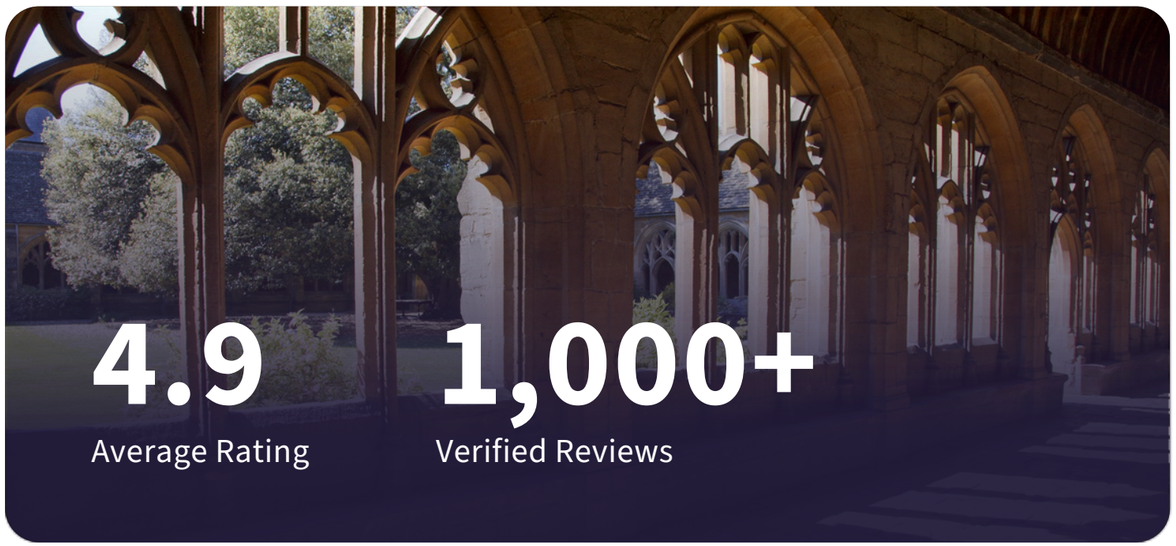

Testimonials & Ratings

"The online Medicine course at Oxford Scholastica helped me learn more about the field that I am passionate about. It was incredibly informative and such an exciting opportunity. My favourite part was evaluating a real patient!"

Alisa Bhojani
Online Medicine Course

"The tutor was brilliant and my classmates were amazing. The courses really enlightened my mind. And now, because of them, I know what career I want to pursue in life. Trust me, you will not regret it!"

Mario Baluta
Online Creative Writing Course

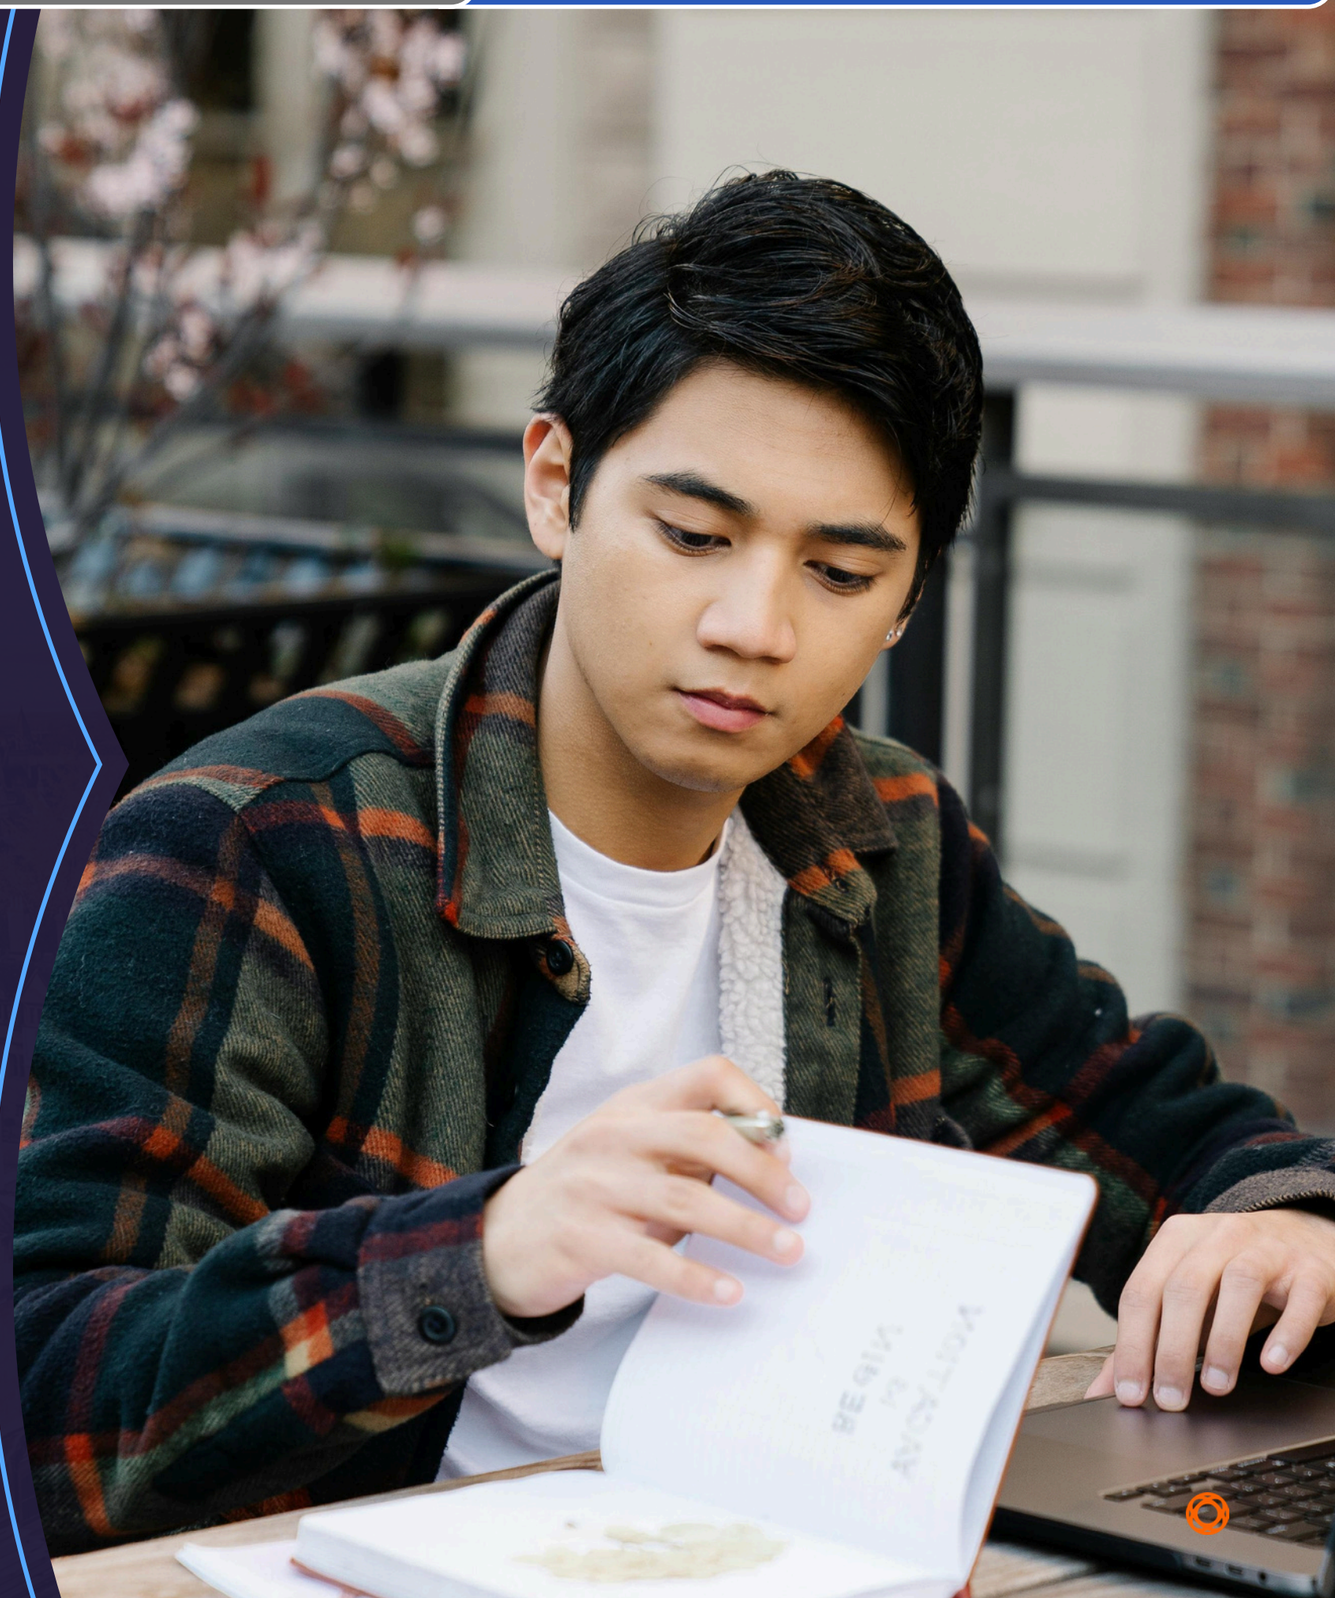

Online Internships

A research internship with Oxford Scholastica is a unique opportunity for students to work closely with an expert mentor, to research a cutting-edge topic in their subject and to co-author a research paper on the topic for publication in an academic journal.

Meet the Mentors

Faissal Sharif
BSc, MSc, DPhil Candidate (Oxon)

Psychology & Neuroscience

Faissal holds a BSc in Biomedical Sciences from Maastricht University, including a semester at the Chinese University of Hong Kong, and an MSc in Translational Neuroscience from Imperial College London. Currently pursuing a DPhil in Clinical Neurosciences at Oxford University, he focuses on neurotechnology for mental disorders.

Liam Obuobie
MEng Hons, EngTech MIMechE MIET

Engineering

Liam holds an MEng with Honours in Mechanical Engineering from Newcastle University and is now a Mechanical Engineering (Building Services) Graduate at Arup. He became EngTech registered during his university industrial placement, a rare achievement among UK students.

Dr Arushi Sharan
BA Hons, Master's Diploma, MA, DPhil (Oxon)

IR, Politics & Leadership

Arushi holds a DPhil in International Development at the University of Oxford, which she completed with the Abdul Rauphu Mustafa Scholarship. She holds an MA in Political Science (Distinction) from Jawaharlal Nehru University and a Master's in Conflict Transformation. She has taught Comparative Politics at Ashoka University and published research on policy and governance.

Merissa Hickman
MPhil (Hons) (Cantab), PhD (Candidate)

Medicine

Merissa is a PhD candidate in Genomic Epidemiology and Public Health Genomics, supported by the prestigious Wellcome Trust Doctoral Training Programme. She holds a Master of Philosophy in Genomic Medicine from the University of Cambridge, where she received an academic merit scholarship.

Yash Salunkhe
BSc Hons, MPhil (Cantab), CFA

Business, Economics & Finance

Yash holds a Master of Philosophy in Economic Research from the University of Cambridge. He was also awarded a Bachelor of Science with First-Class Honours in Econometrics and Mathematical Economics from the London School of Economics, where he received the J R Gould Prize for academic excellence.

Dr Athanasios Peftinas
LLB, LLM, MSc, MJur (Oxon), DPhil (Oxon)

Law

Athanasios completed his DPhil in Law at the University of Oxford. He holds three Master's degrees and graduated first in his cohort during his undergraduate degree. In 2015 he founded the law journal Ypagogi, serving as editor-in-chief, publisher and director. He is now a Lecturer in Law at Oxford.

OxJournal Research Papers

During an Oxford Scholastica Online Research internship, interns will collaborate to co-author a research paper on their chosen topic. Research papers that meet our publication criteria are published in **OxJournal**, an online academic journal for teenagers. Explore examples of previously published papers by Oxford Scholastica interns (right).

Publishing a research paper in your own name is a uniquely impressive piece of experience applications, and will ensure you stand out from the crowd.

What You'll Gain from an Oxford Scholastica Programme

Academic Success

Explore your subject in detail with an engaging mix of theory and practice in small-group classes led by inspiring tutors.

Begin to build expertise and confidence in your field, and earn a graduation certificate and a personalised Letter of Recommendation from your tutor.

Personal Growth

Our programmes will help you push your limits, evolve and - when you graduate - emerge with a stronger mindset.

This growth comes not only from what you learn in the classroom, but also from the experiences you gain outside of it – exploring historic sites, immersing yourself in new cultures and forming lasting friendships.

Career Clarity

Your career starts here. Learn from the very best as you work with accomplished mentors in your field.

Dive deep into your chosen subject with top-tier tutors and watch your future start to unfold. Even after you leave, our alumni community remains a valuable resource, offering support and a network of people ready to help.

Global Friendships

With students from more than 85 countries, you will be part of a community that is as diverse as it is welcoming.

You will share ideas and experiences across cultures, learning to connect with people from every background. Those connections help you see the world through new eyes and build confidence that stays with you long after summer.

Future Optimism

All Oxford Scholastica programmes are rooted in our worldview - the philosophy that underpins our approach.

We teach young people how to think actively, critically and for the long-term. You'll leave your programme with the clarity, confidence and optimism you need to take the next steps towards your future.

Oxford Scholastica Videos

Alumni Stories

“Participating in the Experience Business & Enterprise Academy has benefitted me in several ways, including academic enrichment and networking opportunities. I now have the confidence to go out into the world and create a successful life.”

Amaliya Makashova
Alumna, UAE, Studied Business

“The Experience Medicine Academy was so insightful and interesting. I have learnt more about the body than I ever have in school and explored aspects of medical ethics I have never considered. I already feel more confident in my own abilities.”

Pippa Manning
Alumna, United Kingdom, Studied Medicine

“Oxford Scholastica was a really great experience and I have benefitted in many ways. The Masterclasses have helped me develop my skills and gain new knowledge, and the activities have helped me talk to other people and make new friends.”

Kristina Sereda
Alumna, Germany, Studied Technology & AI

“I have made life-long friends at Oxford Scholastica. I typically consider myself an introverted person, but over the course of the two weeks I have made friends as close as brothers. I’m sure our friendship will last a lifetime.”

Alfonso Feris
Alumnus, Portugal, Studied Engineering
