PRECIOUS BODY OIL

Besides the three oils in the line, the heart of this precious firming multi-purpose and multi-functional massage specialty – designed to be used for body massages but that can be used both for face and the hair – contains antioxidant, reinvigorating and calming saffron, firming and toning ginger, and a special vanilla extract that gives a delightful feeling of warmth, making the application and the massage even more pleasant.

The product is as rich and pleasant to the touch as a cosmetic oil, but with an unprecedented lightness. All that's required is a light massage with broad circular movements for the skin to absorb the precious active ingredients.
