CHIPPENDALE®

Your Guarantee

Our kitchens are made for life. Not just that they last a lifetime, although our 20 year guarantee will assure you of that, but they're made to be lived in.

We guarantee that your kitchen cabinets will be free from defects in materials and workmanship, or else we'll repair or replace free of charge, for a full 20 years.

Plus we also cover your doors and selected accessories for 15 years, so you can enjoy your new kitchen knowing you're taken care of by our guarantee.

WELCOME TO

Chippendale kitchens

Prestigious British design and quality

04

Here's everything you need to make your kitchen dreams a reality. A space that is truly yours, that makes living and entertaining an effortless joy. A space where your loved ones want to be. If you're looking for something exceptional, designed and made just for you, then welcome. You're right where you should be.

We design kitchens for life. Not just that they last, although our superb British build quality assures that they do, but spaces where real life happens. From mornings of quiet reflection to evenings of roaring

laughter – every knock, burn and spillage that happens in your kitchen is anticipated by its design. Easy to live in, easy to love. Our range of premium quality kitchens are built using the finest materials from around the world, manufactured right here in our purpose-built factory in the heart of Yorkshire.

Our factory is home to a state-of-the-art production facility where we use the finest materials and components to make the best kitchens we possibly can.

THE HEART OF THE HOME

A pinch of magic

Your new kitchen is going to be the heart of your home, so it really should be something special. That's why all of our kitchens are made with love, skill and attention. But for that extra special something, that's up to you. A splash of colour here, an accessory there. All it takes is a few personal touches to bring that all-important pinch of magic.

TIPS AND ADVICE

Kitchen colour

When planning a new kitchen, your colour palette should be one of your first considerations. Effective use of colour can be the difference between a kitchen you like and a kitchen you love. We give you the choice of door colour, worktops, walls, cabinets and flooring.

If your dream kitchen is a minimalist space then white is hard to beat, otherwise a subdued pastel will make a great foundation against which you can accent a bolder feature wall or worktop. When it comes to paint finishes, matt is better used for large areas but considered use of gloss can bring real elegance.

TIPS AND ADVICE

Embracing colour

Experimenting with colour is one of the most fun parts of the process. It's where you can really express yourself, play around with different ideas and discover what works for you. Here's some things to think about when picking your palette...

Lighting can drastically change the mood of a room. Well-lit colours appear brighter and more intense, where shade can be used to control contrast.

Accessories are the simplest means of bringing colour to your space, and you can always swap them out when you fancy a change.

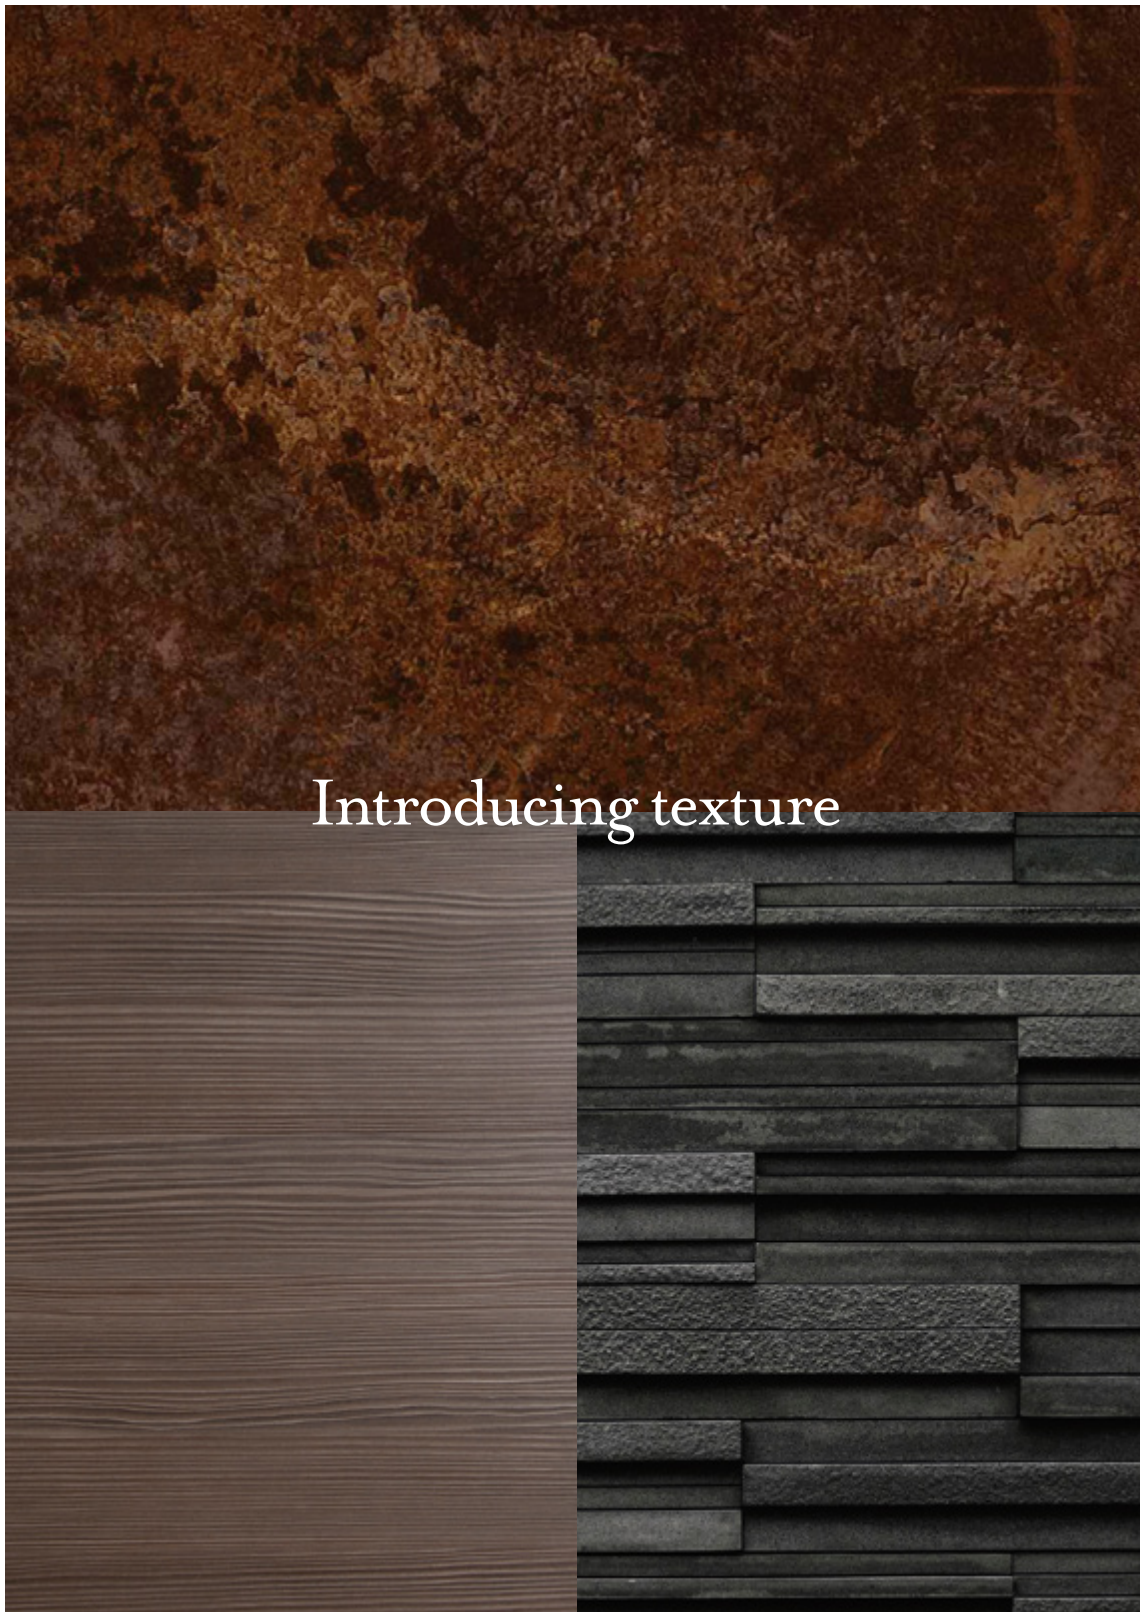

Texture adds depth to colour. Changing the way light hits a surface adds a whole new range of colours to your palette.

Less is more. Having just one or two accent pieces can really bring the element of surprise to your kitchen.

TIPS AND ADVICE

Tips:

Textures deepen and define a space. Natural woodgrains and fabrics will bring homeliness, metals and marble a contemporary feel. Make a feature of a tiled splashback or contrast a glossy finish with soft furnishings.

As pattern seeking creatures we take joy in finding and contrasting them. But only so far. As with patterns in music, there needs to be harmony for the effect to be pleasing. Use pattern sparingly in your kitchen with a few subtle contrasts, and they will sing.

Tips:

Shaker

Simplicity. That's what defines our Shaker range. We've drawn inspiration from the Shakers of New England, who made a virtue of minimalist living.

They believed that unnecessary decoration was dishonest. Instead, they focused on the quality and utility of an object – seeing making things this way as a form of prayer.

That's why our Shaker range puts functionality at its core, with clean simple lines that allow for infinite customisation and guarantee timeless style.

Traditional

Inspired by the asceticism of a Georgian servant's kitchen, our traditional range comes from humble origins through generations of design innovation right up to the modern day.

The result is a range of spaces with all the warmth and character of a classic country kitchen, and the hidden gadgetry of a Bond villain's lair.

Using the latest production techniques enables us to guarantee a level of quality that even the bourgeois of the Georgian era couldn't have imagined, whilst retaining a timeless style that is endlessly customisable.

20 YEAR GUARANTEE

40 & 22mm

12mm Compact Worktops

* Available in 20mm Quadra profile.

Laminate Upstands & Splashbacks

A practical feature provides an opportunity to express your style.

An alternative to tiling can be extending the attractive worktop surface onto the back wall to protect from splashback and staining.

Available in all colours.

For more inspiration visit
chippendalekitchens.co.uk

40 & 22mm

Quadra Worktops

So, you've chosen your Chippendale Kitchen, now you need to select the right worktop to complete your design. To help you, we've chosen a comprehensive range of colours to complement the Chippendale range from the Duropal Quadra Worktop collection.

Duropal are a leading supplier of quality laminate worktops throughout Europe, and the Quadra range of worktops is an ideal alternative to solid surface, granite or timber worktops. The Quadra profile is designed to provide the appearance of solid surface worktops and the unique 'seal groove' ensures a lifetime of protection against moisture and steam.

These high quality, fashionable and durable worktops are resistant to: sunlight, scratching, abrasion, stains (such as coffee, tea, red wine, ink), fruit juice spills, steam and cigarette burns, and have achieved the FIRA Gold Award for product excellence.

To view displays of Duropal worktops, please visit your local Chippendale retailer.

Curved Worktops

A range of Duropal worktops have been designed specifically to suit our curved base end and curved corner units perfectly. These worktops have a totally flat-faced profile and are a practical and cost-effective solution to solid surfaces and granite worktops. Curved worktops are available in both 40mm and 22mm thicknesses in all colours.

Gable Ends

Available in all colours, in 40mm and 22mm thicknesses (where available), gable ends are an ideal way to create a peninsular island unit effect, or can be used as a stylish way to end a run of base units.

Backboards & Upstands

Available in all colours, splashbacks and upstands are an ideal alternative to tiling, protecting walls from splashes behind hobs and sinks.

Sinks & Taps

It's where potatoes are peeled for a hearty Sunday roast. It's where little hands are rinsed after dipping into the cake mix. And it's where your best plates – the ones too delicate for the dishwasher – are washed up ready to entertain guests another time.

That's why we take our sinks seriously. Chippendale's sleek stainless steel products are made from the highest grade steel available, which is resistant to staining, rusting and corrosion.

Our HYDRA ceramic sinks come in different colours, from black to white, for a striking impression or a classic style. But looks aren't everything: the 80% quartz granite also has anti-bacterial properties, as well as being resistant to heat, burns and stains.

Handleless Kitchens

The culmination of years of reductive design has led to our ultra-modern handleless range.

Discover Touch, the latest storage innovations cleverly hidden within elegant, flowing forms.

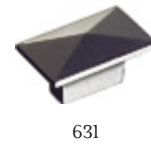

Touch

If even the subtlest of concealed handles isn't minimal enough for you, there's always touch-open drawers. As well as upholding your seamless design, they have the added benefit of being a joy to use.

One or two units, like appliances and pull-out larders, do still require handles. But don't worry – we have a discreet solution for all of them, so your minimal design will always have full effect.

Traditional handles

Please note, not all handles are suitable for each kitchen. Your Chippendale retailer will happily advise you on suitability and cost. All handles are fitted vertically unless specifically stated.

Handle Styles

As well as changing how you interact with your kitchen, your choice of handles will make a big impression on the overall visual effect of your space. Take your time and choose carefully.

Drawers

GRASS® Scala Stone & Nova Pro

Chippendale kitchens proudly use drawer boxes by GRASS®, a world-class supplier of quality drawer systems. With perfect alignment and soft-close technology, they're as enjoyable to use as they are practical.

The choice is yours between three different drawer options. Scala Stone, Nova Pro and Luxury Oak.

Luxury Oak Drawer Boxes

Superior solid oak drawer boxes will add luxury to any kitchen. These are available in both drawer boxes and pan drawers, held together with the traditional dovetail joint, and fitted with GRASS® soft-close runners. Oak is particularly well paired with painted ranges.

11 Cabinet Finishes - a flash of personality

Inside your cabinets is the perfect place to add a flash of personality to your new kitchen.

We have a selection of 11 cabinet finishes to choose from. Don't be afraid to consider different looks and shades. Together with the 21 door colours, you can mix to your heart's content, creating your perfect combination for no extra cost.

Graphite (fully co-ordinated)

Graphite cabinets can be matched with graphite frontals, drawers and wirework for a fully co-ordinated look.

Go to page 128 to view our clever storage solutions in graphite.

Cabinets

All our cabinet components are made to the highest standards of British manufacturing. Not only are they easy to store and assemble, but they're flexible enough to work around any issues that could conceivably arise during installation. Uneven floors, slanted walls and awkward staircases are no problem. With Chippendale you'll always get the perfect fit.

All this simply means that your only worry when choosing your cabinets is what they bring to the style of your kitchen. Do you want the warmth of a natural wood effect or a gloss finish?

Extra features like adjustable shelving, soft-closing hinges and anti-tip fittings make your cabinets unique.

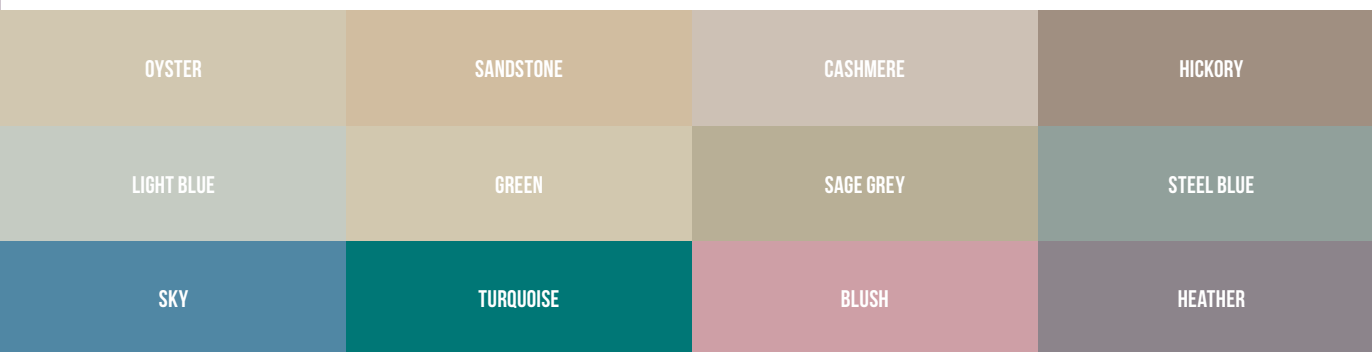

Choose from a number of customisable options:

- Adjustable shelf positions
- Front-frame fixings vertically and horizontally adjustable
- Adjustable legs for fitting base units on uneven floors
- Glass shelves as standard for glazed units
- 50mm service void for ease of maintenance

13 Painted door styles - new designs and classic finishes

Personalise your kitchen cabinets by opting for the perfect door style, with different approaches to shaping, decoration, cut and texture producing distinctive character.

Now there are even more styles to choose from, as we've introduced three brand-new looks to the selection, making a total of 13. From the ultimate minimalism of the Verve to the traditional elegance of the Georgian, our range allows you to browse a creative collection of different looks before deciding on your perfect style.

Colour Combinations

With such a range of colours to choose from, it can be hard to settle on a scheme – so for inspiration below we've provided a few examples of core colours and complementary accents. Whether you opt to accent your base or wall units is up to you, but even subtle accenting can bring real drama to your space.

COLOUR PALETTE

21 Paint colours - bolder, brighter, better choice

Let your personality shine and make your new kitchen truly your own, with a newly expanded range of exciting door colours to choose from.

We've released seven new on-trend colours to brighten things up: Blush, Turquoise, Slate, Sky, Indigo Blue, Graphite and Heather. That means you can now choose from a spectrum of 21 inspiring hues. From elegant Ivory to deep Oxford Blue to bold Anthracite, there's a colour to suit every taste.

102

The colours shown in this brochure are as accurate as the printing process allows and therefore we strongly recommend that you contact your Chippendale retailer to view a display or door sample before placing your order.

Step I: Layout

Take a look at your existing kitchen. How could the space be better used? Do any walls need to be knocked through? Take measurements wall-to-wall and come up with as accurate a floor plan as possible. Think about the appliances and features you'd like to include and how to arrange them, then bring your plans to one of our expert retailers.

Step II: Expertise

A specialist will go through your plans with you and make sure you haven't overlooked anything. The last thing you want is doors knocking into each other, or areas of restricted movement. Less is more – prioritise space over features.

Step III: Doors & Worktops

Here's where the fun starts. Take a look at our extensive range of door styles, worktops and paint options. Experiment with texture and pattern, perhaps even contrast door colours between base and wall cabinets. Just remember to enjoy the process – play around and find what works for you.

Step IV: Storage Solutions

We do storage differently. From our world of customisable organisation options to cutting-edge innovations from Kesseböhmer, including the award winning LeMans corner system – we make sure that even the most limited storage space is used optimally. Meaning your sides are always clear, and everything is where you want it to be.

Step V: Finishing Touches

Time to choose your door handles (unless you've gone handleless), sink and taps, lighting, drawers and design features. You can even start getting inspired about accessories – see our Instagram – but once you're happy with all of your choices, let our retailer know and we can start the ball rolling.

PLANNING

The right way to buy a kitchen

As exciting as designing your kitchen can be, it's still an investment that needs care and consideration. Proper planning can result in a more functional, enjoyable space that stands the test of time.

Our trusted retailers are on hand to guide you through the process, but here's five things to think about before you begin.

FINISHING TOUCHES

Make it to your taste...

Your new kitchen is the room you'll spend most of your time in, so it needs to be as much a joyful extension of yourself as it is a working space. We'll provide the units, fixtures and fittings to your specification. But only you can bring a splash of personality.

Be playful and experiment. Every detail you choose will bring a new flavour to your kitchen. But don't go stir-crazy, a dash of originality goes a long way.

Motorised Pop up Socket with 2 USB pins and wireless charger. Available in Black or Silver. Code: LTQISK BL or SL

Pop up Socket with 2 USB pins. Available in Black or Silver. Code: LTSKT BL or SL

Design Features

Nothing could be more enjoyable than selecting the individual features that help set your new kitchen apart from the rest. Chippendale serves up a whole menu of different design options to choose from. Combine stylish touches and practical innovations to achieve the customised result you deserve.

Walk-in corner larder storage

Corner cupboards are tricky things. While there's plenty of storage space, the depth means that all too often items get hidden, lost and forgotten. With that in mind, we designed our walk-In Corner Larder unit, with fully accessible storage and even a full-height wine rack.

L-shape corner units

Specially designed to get the most out of these hard-to-reach spaces, our L-shape corner units are available in different sizes and are ideal for everyday accessible storage.

Using units differently

It's time to take a fresh look at kitchen units. There's no need for them to be standard or boring. With Chippendale you can create your very own unique design. For example, you could take a humble bridging unit and combine it with open plan shelving, creating a whole new design feature that's practical as well as attractive.

Glazed unit

It's time to turn your wall units into eye-catching features. With one of our aluminium frames and glazing designs, you can turn a cupboard door into a cupboard window. Not only does this add a touch of chic, it also saves you opening every cupboard to check what's inside.

Chunky pilaster

Add elements of traditional flair such as pilasters, small pillars that work perfectly with a Chippendale kitchen. The design means you can take complete control of building the right look and feel for your space.

Larder units with oak drawers

Few things beat the dignified beauty of real oak wood. That's why, for our larder and pantry unit options, exquisitely crafted oak drawers are available in a variety of heights and styles. Experience the satisfaction of good taste each time you reach for a jar or a ramekin.

Lift up wall units

Sometimes you need access to a storage space for longer, for example while cooking. But leaving cupboard doors open is unsightly and unsafe. Enter the lift-up wall unit. This flap door opens upwards and remains open until you're ready to close it. Built-in soft-close technology means you'll never have to hear it slam.

Working mantel

Give your kitchen the solid respectability of a Victorian kitchen with an attractive mantel. Select from an array of veneered and painted finishes, then enjoy the extra storage as well as the vintage vibes.

Curved corner unit

This sophisticated approach removes the angles from corners and adds a sweeping line instead, with a curved door that will suit both contemporary and traditional interiors. Pairing perfectly with curved laminate worktops, curved corner units are available with these kitchens:

Solo* (all colours), Classic (all colours), Hilton (all colours), Heritage (all colours), Stately Painted Shaker, Shaker Wood (all colours).

*Please note that the curved unit used for Solo ranges is supplied with two doors.

Wicker baskets

For a real touch of rustic ambience, we recommend wicker basket storage. As base units they are ideal for larder-style storage, and the soft materials will add a note of warmth and tradition to your new kitchen.

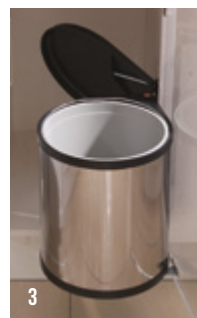

Organisation

A fully functional, highly organised kitchen is also a beautiful one. Especially when it comes with a host of ingenious features and accessories designed to make life easier while looking great as well.

Drawers

Our cutlery drawers and utensil dividers are expertly designed to provide maximum practicality, with a wide range of stylish options to choose from. Whether you opt for plastic or luxurious oak finish, your retailer will help you decide the perfect combination of trays and dividers, to suit the width of your drawers.

Waste

- 1 Pull-out bin units
- 2 Pull-out combi waste bin
- 3 Swing-out cylinder waste bin
- 4 Swing-out removable recycling bins
- 5 Rectangular waste bin

Utensils

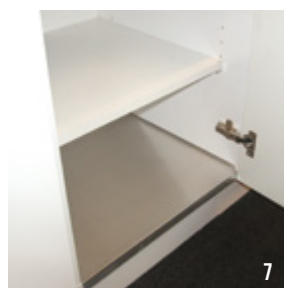

Linero MosaiQ Midway System

Supplied conveniently as one handy pack, this midway rail system delivers beautiful form and practical function. With two 600mm rails, shelf, pot (with quiver), two utensil hooks and a kitchen roll holder, your most useful items will always be close at hand.

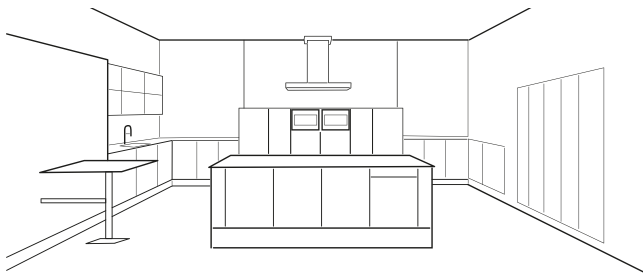

Extras

- 6 Removable oak storage boxes and removable oak pegs to keep crockery secure.
- 7 Drip tray
- 8 Pull-out towel rail and tray space

Clever Storage

Making your new kitchen as functional as it is attractive.

128

During the kitchen planning process it's useful to imagine not just how you'd like the space to look, but just as importantly, how you typically use your space every day; Where are the pots and pans kept? How easy is it to see the contents at the back of my shelves? Can I actually reach every area of my cabinets, or am I planning wasted space?

All of our kitchens come with the optional addition of Clever Storage products from Kesseböhmer; the best of German engineering that means your new kitchen design won't just look great, but will make time spent unpacking shopping, preparing meals, and tidying up both quick and easy.

- 1 DISPENSA – Remarkably tidy storage space. The trays can be individually hung at heights to suit the contents, making DISPENSA a flexible solution providing a lot of storage with a very small footprint.
- 2 DISPENSA SWING – This supply cabinet that’s really got that swing. When it is fully pulled out, it can be rotated 90° on its own axis so that either side can be turned to the front as required.
- 3 DISPENSA JUNIOR – Wave goodbye to waste. Slim base cabinets are notorious places for food which stays hidden until it’s no longer edible. The DISPENSA Junior allows for instant visibility and access to all areas of the unit in one motion.
- 4 CONVOY PREMIO – creates an emotional connection when you open or close it: The contents glide out of the cupboard, moving directly towards you so that you can reach them from three sides. With Convoy Premio stocking up on food becomes a real adventure.

Products are available in both matt silver and anthracite.

- 5 iMOVE – The intelligent pull-down system for wall units. Having wall units in your new design doesn't have to mean balancing on a chair or keeping a step stool handy; the iMove allows for easy accessibility to difficult to reach spaces, meaning wall cabinets can be fully utilised by everyone in the household.
- 6 LEMANS – Easy Accessibility is just around the corner. If you're planning an "L" or "U" shaped kitchen then you will need to tackle the tricky corner space which will otherwise be wasted. With height adjustable trays that each pull completely out of the cabinet individually and boast a market leading weight and size capacity, the Kesseböhmer LeMans is the world's best-selling corner solution.

reddot design award

Experience the design every time you reach for a pot or pan with the LeMans Corner Storage system, awarded the Red Dot Design for outstanding design achievements.

- 7 NO. 15 – Extra storage space and functionality. With the right fitting, narrow gaps can provide a surprising amount of storage space and functionality.
- 8 TANDEM ACCESS ALL AREAS – No other solution gives you the same level of visibility and accessibility of your groceries. The Tandem Larder allows for storage of a whole week's worth of groceries in just one unit; so don't waste time searching through individual drawers, and don't waste money losing food at the back of your shelves until it's past its best!
- 9 TANDEM SOLO – The characteristic opening experience. One gentle pull opens the door and draws the fitting forward so that all the contents are in full view and easy reach.

Products are available in both matt silver and anthracite.

Frequently asked questions

You're bound to have some questions. To help you out, we thought that we'd answer some of the more frequently asked ones. If your specific question isn't covered below, please just contact your approved Chippendale retailer who will be sure to assist.

Where can I see displays of Chippendale kitchens?

Just visit your local Chippendale retailer to see a selection of our displays and a full set of doors. To fully appreciate the quality our kitchens it's always better to see them in person.

Find your nearest Chippendale retailer at chippendalekitchens.co.uk/find-a-retailer

Can I buy direct from Chippendale?

Chippendale kitchens are manufactured by Omega PLC and are only available via specialist retailers. This is to ensure specific knowledge is used to produce your ideal kitchen.

What happens if I pay a deposit to a retailer for an Chippendale kitchen and they cease trading before my kitchen is delivered?

This is unlikely, but we do run a Deposit Guarantee Scheme. This ensures that you'll still get your Chippendale kitchen furniture at the current manufacturer's recommended retail price list, less the deposit paid on furniture. This is under the provision that the amount paid to the dealer doesn't exceed 50% of the manufacturer's recommended retail price.

Do you charge for delivery?

All of our kitchens are delivered FREE* direct to your home and our two-man teams ensure your new kitchen is delivered with care and professionalism.

Do your kitchens carry a guarantee?

All Chippendale kitchens come with a 20 year guarantee on all cabinets, hinges and drawer boxes and a 15 year guarantee on doors and selected accessories. All products manufactured or supplied by Omega PLC will be free from defects in material and workmanship for the full duration of the guarantee, or else be replaced or repaired (at our discretion) free of charge. Subject to terms and conditions.

Please see omegaplc.co.uk for full details

How long will it take me to receive my Chippendale kitchen?

Chippendale kitchens will be delivered within 3 weeks from the order being placed by the retailer. Painted kitchens are available within 4 weeks from order placement.

Are you KBSA accredited and what does that mean for me?

Yes, Chippendale kitchens are KBSA accredited and dedicated to upholding the Association's high standards of design, supply, installation and customer service. All members follow an approved Code of Conduct and are subject to strict monitoring to make sure you get the best professional service available. For further information please visit kbsa.org.uk.
