There was a man here who was being a troll & somewhat a wanker but in true troll fashion he deleted his sub thread. I checked his profile out & he seemed like a decent bloke in his posts who is genuinely interested in spiritually. He could've found an ally in me & we could've got deep into conversation but instead made himself look like a right cunt. Oh well, shame that! I hope he has the balls to do the psychological work on himself needed for him to really be a positive influence on people instead of a mug?!

10:36

The dumbing down of the people continues on a global scale, with more fear being driven into us & between us by lying politicians controlled by the ruling elite & driven by their lying media machine.

We're forced to worry about personal survival during this fake & manufactured existence with rent, interest rates, energy, food prices & taxes continually on the rise while income remains the same or decreases for all but the wealthiest 1%, making us selfish & greedy.

Our rights are subtly yet continually eroded, yet we don't see it as our focus is kept firmly on survival. We continue to allow this to happen & soon our rights will have been eroded so much that it'll be nigh on impossible to reverse it. We have become pathetic, weak victims of a carefully masterminded dumbing down & suppression of society, solely to satisfy the greed & ego of those in power.

The MOBO awards what a load of bollocks. Hate music being given a skin colour. Ridiculous. I can just see what would happen if they did a white origin awards. Wait a minute they wouldn't be allowed to lol.

4 November 2018 03:48

Sonny Burgess

My stepfather is part Jewish. He's one of the finest men I've ever had the pleasure of knowing. I owe a lot to him. I strongly support the continual message here that not all Jews should be held accountable for the sins of others. That goes for everybody, from every group, including ourselves, who shouldn't ever be made to feel guilty for any wrongdoing of our forefathers in the pursuit of progression via evolution.

My only hope and objective here is to bring purpose, safety and happiness to Western Civilisation.

Peace to all 🕊️

British followers will be able to relate to how Jimmy Savile was a lauded charitable hero in the public eye, until exposed as a beastly paedophile and manipulator of the masses.
[#QAnon](#)'s message is the whole system is rotten to its core; Savile is not an exception, he's the rule.

e.g. That the Jewish nation is the only nation selected by God, while all the remaining ones are contemptible and hateful.

That all property of other nations belongs to the Jewish nation, which consequently is entitled to seize upon it without any scruples. An orthodox Jew is not bound to observe principles of morality towards people of other tribes. He may act contrary to morality, if profitable to himself or to Jews in general.

A Jew may rob a Goy, he may cheat him over a bill, which should not be perceived by him, otherwise the name of God would become dishonoured.

Trump said that "tornados destroy homes and lives". Politifact rates this mostly false. While some tornados have been known to destroy homes and take the lives of those in their paths, it is far more common for a tornado to pass peacefully through the woods without harming anyone or their property.

BREAKING NEWS Officials give update on Squirrel Hill

ALLEGHENY

Active shooter drill planned for Thursday night in Squirrel Hill, Darlington Road will close

EMILY BALSER | Wednesday, Jan. 24, 2018,

Pittsburgh and Allegheny County police along with the FBI will hold an active shooter drill Thursday night in Squirrel Hill.

The drill will take place from 8 p.m. to midnight at the Jewish Community Center, 5738 Forbes Ave. Darlington Road will be closed from St. Edmund's Way to Murray Avenue. Residents may notice a large police presence in the area. The exercise is closed to the public and the media.

The exercise is to ensure the area is prepared and ready to respond in an active shooter situation. The exercise will include apprehending a shooter, evacuations and treating victims at the scene.

At least 50 volunteers from the Squirrel Hill community and the Jewish Community Center staff will serve as role players for the exercise.

Only two cities in the entire USA had an active shooter drill involving the FBI at a Jewish center. One of those cities was later attacked by a real shooter.

Women, I will let you in on a male secret. Men know that constantly self-proclaiming male 'feminists' are often predatory sleaze bags. They are intensely disliked by other men because of their manipulative qualities and not, in general, because they are viewed to be sex traitors.

Meghan to fight for feminism

Palace gives its blessing to new Duchess of Sussex championing women's rights in her royal role

By Hannah Furness and Hayley Brown
MEGHAN MARKLE has been given the blessing of Buckingham Palace to use her position to fight for feminism, as she plans her life as the newest member of the royal family.
Ms Markle, who will now be known as the Duchess of Sussex after her wedding to Prince Harry, is expected to announce which charities and campaigns she will support when she returns from her honeymoon.
However, her official biography posted on the royal family website yesterday suggested that she will use her role to champion feminist causes as it highlighted that she is "proud to be a woman and a feminist".

It adds: "From a young age, The Duchess had a keen awareness of social issues and actively participated in charitable work. These early experiences helped to shape her lifelong commitment to causes such as social justice and women's empowerment."
The Duchess will immediately join her new husband, and is named the Duke and Duchess of Cambridge, at the Royal Foundation.
The prominent inclusion of such causes on the official Royal family website indicates the charitable direction the new Duchess plans to take. She has been working behind the scenes for months to create a blueprint for her focus as a working member of the Royal

The Duchess of Sussex's wedding bouquet is laid on the grave of the Unknown Warrior

family, which could also involve her promoting the work of the Diana Award for youngsters who champion social change.

She told guests at her wedding reception that she would "love" to get involved in their campaign work, saying: "That's why I am here, bring it on."
The Duke and Duchess of Sussex yesterday left Windsor Castle to begin married life, delaying their honeymoon in order to return briefly to the public eye tomorrow for the Prince of Wales's 70th birthday garden party.
They are expected to begin their honeymoon later this month, before returning to a full schedule of overseas visits, including trips to the Netherlands and Australia, and charity work closer to home. The Duke paid moving tribute to his wife at their reception, praising her "grace" and telling her: "I

can't wait to spend the rest of my life with you."

In keeping with her beliefs on gender equality, the Duchess went on to make her own speech during a private evening reception in which she expressed her love for the Duke, and her joy at being welcomed into his family.
The groom and his best man, the Duke of Cambridge, are said to have paid tribute to their life mother, Diana, Princess of Wales, in moving speeches to their closest friends.
The wedding was hailed by American media as a breakthrough in British race relations, according to *The New York Times*. Yesterday, the Duchess donated the wedding flowers to charities and hospitals for others to enjoy, with her bouquet being laid, as per royal tradition, at Westminster Abbey's grave of the Unknown Warrior.

US calls a truce in its trade war with China

The United States has put its growing trade war with China 'on hold' after the two countries agreed a deal in which Beijing will buy more American goods and services. A statement issued by the White House following a fortnight of talks said China would "significantly increase purchases" from America, "substantially reducing" the trade deficit between the two countries, while in turn it would halt tariffs. The US Treasury did not provide any precise figures.

Abramovich visa delay amid oligarchs review

The Home Office is yet to renew Russian Abramovich's UK visa after the Government ordered a review of the immigration status of hundreds of wealthy Russians living in Britain.
The billionaire owner of Chelsea Football Club applied for a renewal when his visa expired last month but had not yet received a decision, a source told *The Daily Telegraph*. The source said the process was taking longer than usual but there was no suggestion the visa would be denied.

Conte calls for squad overhaul at Chelsea

Antonio Conte has warned Chelsea they must overhaul their squad if they are to improve on this season - whether or not he is sacked as head coach. Gary Cahill, the club captain, led the calls for clarity over Conte's position last night. The Italian is waiting to find out if he will lose his job, despite securing some consolation for missing out on the Champions League by beating Manchester United in the FA Cup final, thanks to Eden Hazard's first-half penalty.

My friend is a [trustworthy reporter](#) who often sees anti-Clinton stories spiked. Not everybody at CNN is bad. The leadership is, though. This is a respected neutral who is being silenced – A good friend of mine, sick of CNN suppressing inconvenient stories that hurt the left.

On election night, Hillary was straight up “Hitler-in-the-bunker”

The few honest MSM reporters have been reduced to leaking info to new media people because their corporate bosses won't let them report it. A friend at CNN says Clintonland reports Hillary was in a “psychotic, drunken rage” election night; needed hardcore meds to speak Wednesday. CNN reporter tells me Hillary became physically violent towards Robby Mook and John Podesta around midnight; had to be briefly restrained. Hillary on election night was straight-up Hitler-in-the-bunker shit. It even included psychotic screaming about “the Russians.” The doctor helped restrain Hillary when she violently attacked Mook and Podesta at midnight. Gave sedatives, then amphetamines next morning. CNN reporter says Hillary needed so many amphetamines Wed morning she had unexpected nosebleeds all day. Fear was she'd bleed at concession.

In 1232, Pope Gregory IX declared that cats were evil and associated with witchcraft and the devil. As a result, for the next 100 years, cats (and at times their owners) were killed in mass quantities in an effort to purge the world of such evil. With the result of its chief predator being killed off, the black rat population in Europe exploded, along with the bubonic plague that rats carried, resulting in nearly a third of Europe's population dying from the disease.

*Written in the eighties at the height of the Cold War. She and her ilk ((other monarchies, political elites and family banking cartels)) would be fine and the rest of us would perish. They wouldn't give a toss. Otherwise, we wouldn't have a heavily diminishing military, a pathetic police force and a country so divided that it cannot be considered a nation anymore. Previous monarchs (excluding the Windsor family line) would be abhor what she has reduced our country to in her reign.

26 October 2018 01:32

Each organic unit is characterised by the principle of stability. We should not expect the stability of a whole where stability in its own ingredients is not guaranteed. From this point of view, it seems that the fundamental prerequisite of a possible united Europe is the political integration of individual nations.

and very conscious

25 October 2018 14:19

Jon James Pratt

Sure. But you're pointing out a tiny detail to me, when I've spent a whole year here describing the whole of the global power structure

25 October 2018 14:19

Sonny Burgess

they have collective spirit

“The UK is a global leader in science because top home-grown and international scientists want to work here. We must do everything we can to ensure that the UK maintains its role at the heart of European science, because that is in everyone’s best interests. If science loses, everyone loses.”

If you voted for Hillary You are scared

Because for the last five months you have been a victim of the biggest propaganda scheme in U.S history.

Mainstream Media spent nearly ten billion dollars creating a safe space, a pro-hillary echo-chamber on TV, on facebook, on twitter, in your favorite newspaper. They rigged polls with massive oversampling, completely censored trending news articles and pro-trump #hashtags from social media, paid thousands of people to post pro-hillary comments and pretend to be "Normal" voters.

They blatantly one sided every source of news you trusted and relied on to be an informed Citizen.

So when trump won, you were blindsided, you had absolutely no clue he had as much support as he did. The media said he was evil, racist, sexist, a sexual predator, hitler, satan himself. They said he had less than a 1% chance of winning.

**You are scared
for the same reason that he won.
The Media Lied To You.**

A poster for the 'Transforming Theology' conference. The background is black. At the top left, the text 'Friday 16th November 2018' is in white. Below it, 'Cambridge University' and 'Faculty of Divinity' are also in white. In the center, there is a graphic of two overlapping circles, one blue and one purple, forming a Venn diagram. The title 'Transforming Theology' is written in a large, white, serif font across the middle. Below the title, there is a paragraph of white text: 'Transforming Theology is an interdisciplinary conference to celebrate and further the visibility of transgender identities and of people who do not conform to gender norms in theology. Whether you are a student, academic, lecturer, practitioner, theologian, faith leader or none of the above you are very welcome to attend.' Another paragraph follows: 'The afternoon will include a session on the present and future of trans theology, a keynote by the inspiring Jo Clifford on her ground-breaking play *The Gospel According to Jesus, Queen of Heaven* and its reception and impact in Brazil, papers by researchers and practitioners and an opportunity to ask our specialist panel any burning questions.' A third paragraph states: 'This conference is free of charge and the organisers would like to thank the Faculty of Divinity for their hospitality and support.' At the bottom, there are three lines of text: 'When? 2-6pm', 'Where? The Runcie Room', and 'How? Please register at <https://tinyurl.com/transtheo> to attend.'

Ask the question why:

What is soon to be released regarding the City of London Corporation, Overseas territories, Terrorism, Human trafficking, Large charities, Trusts and a global monetary laundering conspiracy?

Think well in excess of £50 Trillion.

"The financial capital of the world"

Where do you think most of the funding to fight Brexit has come from?

Why do you think one of the first agreements made over Brexit was regards the safeguards of the financial cabal?

Why is nobody talking about the usurping of sovereignty on our own shores by a force far more powerful than Brussels?

Coincidence?

What is happening in January?

What is happening next year regards currency revaluation?

Why did we tell you not to worry about Brexit?

Where are the black budgets for intelligence agencies to act outside of an official capacity held?

Why historically have they always funnelled Cartel, Mafia and Terrorism through this banking and tax network?

Why have they been allowed to get away with it for so long?

"We need to be quite sure that the possible proliferation of trust companies, banks etc. which in most cases would be no more than brass plates manipulating assets outside the islands does not get out of hand.

There is of course no objection to their providing boltholes for non-residents, but we need to be quite sure that in so doing opportunities are not created for the transfer of UK capital to the non-sterling area outside UK rules."

William Butler Yeats.

Last name: Pratt

Recorded in various spelling forms including Pratt, Prate, Prett, and Pritt, this interesting surname is of Anglo-Saxon origins. It is derived from a pre 7th century word "praett" meaning a trick; and as such was probably a nickname for a magician or conjuror. It is an example of that sizeable group of early European surnames that were gradually created from either an occupation, or from a variety of characteristics, such as physical attributes or peculiarities, mental and moral characteristics, and to habits of dress. The surname is first recorded in the 12th century making it one of the earliest on record anywhere in the world. Examples of these early recordings include: Aedmund Pret of Berkshire in the Pipe Rolls of that county in 1192,

LIBER LXXVII

"the law of
the strong:
this is our law
and the joy
of the world."

— AL. II. 21

"Do what thou wilt shall be the whole of the Law."

— AL. I. 40

"thou hast no right but to do thy will. Do that, and no
other shall say nay." — AL. I. 42-3

"Every man and every woman is a star." — AL. I. 3

There is no god but man.

1. Man has the right to live by his own law —
to live in the way that he wills to do:
to work as he will:
to play as he will:
to rest as he will:
to die when and how he will.
2. Man has the right to eat what he will:
to drink what he will:
to dwell where he will:
to move as he will on the face of the earth.
3. Man has the right to think what he will:
to speak what he will:
to write what he will:
to draw, paint, carve, etch, mould, build as he will:
to dress as he will.
4. Man has the right to love as he will: —
"take your fill and will of love as ye will,
when, where and with whom ye will." — AL. I. 51
5. Man has the right to kill those who would thwart
these rights.
"the slaves shall serve." — AL. II. 58
"Love is the law, love under will." — AL. I. 57

Last name: Pratt

Recorded in various spelling forms including Pratt, Prate, Prett, and Pritt, this interesting surname is of Anglo-Saxon origins. It is derived from a pre 7th century word "praett" meaning a trick; and as such was probably a nickname for a magician or conjuror. It is an example of that sizeable group of early European surnames that were gradually created from either an occupation, or from a variety of characteristics, such as physical attributes or peculiarities, mental and moral characteristics, and to habits of dress. The surname is first recorded in the 12th century making it one of the earliest on record anywhere in the world. Examples of these early recordings include: Aedmund Pret of Berkshire in the Pipe Rolls of that county in 1192,

For the newcomers-

Last month's satisfied customers were raving about our "pizza" and we know you will too! Repeat customers know the drill. For newcomers, first run the program given to you by your special friend and all instructions on how to enjoy this joyous hobby will be easily understandable. But please, remember the penalties for breaking the rules, which are also included in the program. Very few have broken the rules, and needless to say the penalties are harsh. All pricing is included in the app. The app will only run once, and the following requirements must be met:

- The app is to be run from your own personal computer that only you have access
- Your computer must be connected to the Internet when run
- The app must be run from your home
- You must destroy the media on which you received the app
- Remember the password that will activate the app as there will be no icons on your computer

November newcomers: 0

November's specials-

This month we have 5 fresh pizzas for your enjoyment. We also have 4 surviving pizzas from last month's session, all are on sale at an extremely low price, as they are in poor health and not expected to survive so a requirement is that you finish eating your pizza after your session.

This month's special includes a 30% discount on severe torture! Each image below is available for \$1,000 in fine print. Andrew also has some prints he would like to sell so contact him for more info (they are true masterpieces).

The image shows a screenshot of the Cosmopolitan app interface. At the top, there is a hamburger menu icon on the left, the word "COSMOPOLITAN" in pink capital letters in the center, and a magnifying glass search icon on the right. Below the header, the main headline reads "Girl describes what it was like to have sex with her dad" in a large, bold, black serif font. Underneath the headline is a quote in a smaller, grey sans-serif font: "The sexual intensity was nothing like I'd ever felt before. It was like being loved by a parent you never had, and the partner you always wanted, at once." Below the text is a photograph of two hands, one from a man in a dark suit and one from a woman in a green sleeve, with their index fingers touching. In the bottom right corner of the photo is a small red Pinterest logo. At the very bottom of the app interface is a navigation bar with a back arrow, a forward arrow, a Facebook icon followed by the text "712 People talking", a bookmark icon, and a three-dot menu icon.

11 October 2018 13:47

Sonny Burgess

"Modern culture has intensively stereotyped the traditional warrior type, which in most cases has become a militaristic and violent figure lacking any high goal. Consequently, extremely rare are the studies available today that express the spiritual value of living a life in which the maximum aim is to fight against the powers that compromise freedom.

This freedom is a transcendental value always symbolically expressed in the Sun and other polar symbols. Such aspect characterizes the Solar Warrior as the embodiment of the Solar way of living the warrior traditions, and this attribute has always defined the Aryan, as a type not determined by biological conditions, racial characteristics or lineage origins, but by the courage to fight for transcendental values that liberate the human condition from tyranny."

The far right try and claim multiculturalism has failed. It hasn't. In fact, it's our strength. I've been to Bradford so I'm an expert on this. Most people agree with me on this. Only a racist minority don't. Let's make that loud and clear.

Has multiculturalism failed in the UK?

Yes, it has ☑	94%

OFFICIAL STATEMENT FROM MAYOR RUDY GIULIANI

DECEMBER 20TH, 2016

I write this morning from my New York apartment, overlooking the city I love. I am pondering my actions from the night before. I am pondering my fate, and what the Lord holds for it. For the first time in my life, I feel fully free. Like a weight has been lifted off of my heart. I have finally broken free.

I know time is short. I will not waste words. You have seen my comments on the so-called "PizzaGate" scandal. I can tell you that yes, it is completely true. This is common knowledge among those in power. The pedophile ring in Washington D.C. is the biggest in the world, with London's probably coming in second.

While I have never participated in these heinous acts, I know people who have and I know of many who have escaped prosecution. Time is too short to explain why I have remained silent for so long, but I will say that I would have never become Mayor of New York City if I did not "play ball," as it were.

I want the people reading this to know that they must never give up this fight. The media will keep lying. CNN will lie. Fox News will lie. NBC will lie. They will lie, and lie, and lie. They will call the truth a "lie." They will call real news "fake news." And they will call their lies the "truth." Reject all of it. Reject every word. Do not believe a single thing they say!

Fox News just called to cancel my latest scheduled appearance. If you see "me" on TV denying these Tweets, do not believe what you see. The government and media apparatus has technology 20 years ahead of what is available to the public. Technology far, far beyond what the general public has any idea of. They can create a real-time CGI human-like avatar; I have seen them and they are indistinguishable from real life. They also have clones and biometric avatars.

I will give you a hint, a little secret: in the new Star Wars film they re-created a deceased actor with CGI. They did it somewhat poorly on purpose. This has been standard procedure in Hollywood for many years now, and those orders come directly from the CIA. This is done to keep the public duped and fooled into thinking CGI technology has not progressed much since the late 90s. But it has in great measure, I can promise you.

Be ready. Prepare. Be vigilant. Question everything. Question your authority figures, for they live to lie to you. They relish the public's gullibility. You must stand up to them.

On one final note, a word about 9/11. To those who believe the "official story," you have been duped. You have been conned. And if you want to look in the right direction, do not look at Saudi Arabia or bin Laden. That is a nice little distraction. And look carefully at the tower structures and ask questions about how they fell. This is one of the greatest cover-ups of all of history.

To quote Voltaire - if you want to know who rules over you, ask yourself who (or what) you are not allowed to criticize. Ponder this deeply, and you will find many answers.

Pray for me.

Rudy

 PRESS RELEASES  10.06.18

Pelosi Statement on Confirmation of Judge Kavanaugh

Washington, D.C. – Democratic Leader Nancy Pelosi issued this statement after Republicans confirmed Judge Brett Kavanaugh to the Supreme Court:

"Today is a profoundly heart-breaking day for women, girls and families across America.

"Courageous women risked their safety and well-being to speak truth about this nomination. Tens of thousands more joined them to share their own harrowing stories of sexual assault, at great personal risk. Yet, Senate Republicans chose to send a clear message to all women: do not speak out, and if you do – do not expect to be heard, believed or respected.

"In purposely limiting the FBI investigation, it is clear the Republicans were not seeking the truth. They were seeking cover to do what they wanted to do anyway. To add insult to injury, they blocked the public's access to the report. Their goal was to install a nominee on the highest court in the land who will put the President above the law, with no regard to the Constitution.

"Therefore, I am announcing that I will file a Freedom of Information Act request so that the public can see the FBI report, transcripts of the underlying interviews, instructions sent to the FBI from the White House, and any communications to the FBI from Senate Republicans regarding the scope of the investigation.

"The conduct of the Senate Republican Majority did violence to the reputation of both the Senate Judiciary Committee and the Supreme Court. We must proceed in a judicious manner to set the record straight and ensure that this never happens again."

What would happen if texts originating from a FBI agent to several **[internals]** discussed the assassination (possibility) of the POTUS or member of his family?

What if the texts suggest foreign allies were involved?

Forget the Russia set up **[1 of 22]**.

This is only the beginning.

Be careful what you wish for.

AS THE WORLD TURNS.

Could messages such as those be publicly disclosed?

What happens to the FBI?

What happens to the DOJ?

What happens to special counsel?

What happens in general?

Every FBI/DOJ prev case could be challenged.

Lawless.

Think logically.

We haven't started the drops re: human trafficking / sacrifices **[yet][worst]**.

Those **[good]** who know cannot sleep.

Those **[good]** who know cannot find peace.

Those **[good]** who know will not rest until those responsible are held accountable.

Nobody can possibly imagine the pure evil and corruption out there.

Those you trust are the most guilty of sin.

Who are we taught to trust?

If you are religious, PRAY.

60% must remain private **[at least]** - for humanity.

These people should be hanging.

Q Clearance Patriot

My fellow Americans, over the course of the next several days you will undoubtedly realize that we are taking back our great country (the land of the free) from the evil tyrants that wish to do us harm and destroy the last remaining refuge of shining light. On POTUS' order, we have initiated certain fail-safes that shall safeguard the public from the primary fallout which is slated to occur 11.3 upon the arrest announcement of Mr. Podesta (actionable 11.4). Confirmation (to the public) of what is occurring will then be revealed and will not be openly accepted. Public riots are being organized in serious numbers in an effort to prevent the arrest and capture of more senior public officials. On POTUS' order, a state of temporary military control will be actioned and special ops carried out. False leaks have been made to retain several within the confines of the United States to prevent extradition and special operator necessity. Rest assured, the safety and well-being of every man, woman, and child of this country is being exhausted in full. However, the atmosphere within the country will unfortunately be divided as so many have fallen for the corrupt and evil narrative that has long been broadcast. We will be initiating the Emergency Broadcast System (EMS) during this time in an effort to provide a direct message (avoiding the fake news) to all citizens. Organizations and/or people that wish to do us harm during this time will be met with swift fury – certain laws have been pre-lifted to provide our great military the necessary authority to handle and conduct these operations (at home and abroad).

Starting next week, Evie will be joined in childcare by her buddy Jack, I wanted you guys to get a chance to meet Jack by going to his blog here: <http://jacklowell.blogspot.com>

Please don't go to hard on Jack's father's technical expertise, mine is obviously far superior. Although i think he beats me in the "frequent posting" department. Meghan to fight for feminism

Palace gives its blessing to new Duchess of Sussex championing women's rights in her royal role

By Hannah Furness and Hayley Brown
MEGHAN MARBLE has been given the blessing of Buckingham Palace to use her position to fight for feminism, as she plans her life as the newest member of the Royal family.
Ms Marble, who will now be known as the Duchess of Sussex after her wedding to Prince Harry, is expected to announce which charities and campaigns she will support when she returns from her honeymoon.
However, her official biography posted on the royal family website yesterday suggested that she will use her role to champion feminist causes as it highlighted that she is "proud to be a woman and a feminist".

It adds: "From a young age, The Duchess had a keen awareness of social issues and actively participated in charitable work. These early experiences helped to shape her lifelong commitment to causes such as social justice and women's empowerment."
The Duchess will immediately join her new husband, and is-blessed the Duke and Duchess of Cambridge, at the Royal Foundation.
The prominent inclusion of such causes on the official Royal family website indicates the charitable direction the new Duchess plans to take. She has been working behind the scenes for months to create a blueprint for her focus as a working member of the Royal

The Duchess of Sussex's wedding bouquet is laid out on the grave of the Unknown Warrior

family, which could also involve her promoting the work of the Diana Award for youngsters who champion social change.

She told guests at her wedding reception that she would "love" to get involved in their campaign work, saying: "That's why I am here, bring it on."
The Duke and Duchess of Sussex yesterday left Windsor Castle to begin married life, delaying their honeymoon in order to return briefly to the public eye tomorrow for the Prince of Wales's 70th birthday garden party.
They are expected to begin their honeymoon later this month, before returning to a full schedule of overseas visits, including trips to the Netherlands and Australia, and charity work closer to home. The Duke paid moving tribute to his wife at their reception, praising her "grace" and telling her: "I

can't wait to spend the rest of my life with you."

In keeping with her beliefs on gender equality, the Duchess went on to make her own speech during a private evening reception in which she expressed her love for the Duke, and her joy at being welcomed into his family.
The groom and his best man, the Duke of Cambridge, are said to have paid tribute to their life mother, Diana, Princess of Wales, in moving speeches to their closest friends.
The wedding was hailed by American media as a breakthrough in British race relations, according to *The New York Times*. Yesterday, the Duchess donated the wedding flowers to charities and hospitals for others to enjoy, with her bouquet being laid, as per royal tradition, at Westminster Abbey's grave of the Unknown Warrior.

US calls a truce in its trade war with China
The United States has put its growing trade war with China "on hold" after the two countries agreed a deal in which Beijing will buy more American goods and services. A statement issued by the White House following a fortnight of talks said China would "significantly increase purchases" from America, "substantially reducing" the trade deficit between the two countries, while in turn it would halt tariffs. The US Treasury did not provide any precise figures.

Abramovich visa delay amid oligarchs review

The Home Office is yet to renew Russian Abramovich's UK visa after the Government ordered a review of the immigration status of hundreds of wealthy Russians living in Britain. The billionaire owner of Chelsea Football Club applied for a renewal when his visa expired last month but had not yet received a decision, a source told *The Daily Telegraph*. The source said the process was taking longer than usual but there was no suggestion the visa would be denied.

Conte calls for squad overhaul at Chelsea

Antonio Conte has warned Chelsea they must overhaul their squad if they are to improve on this season - whether or not he is sacked as head coach. Gary Cahill, the club captain, led the calls for clarity over Conte's position last night. The Italian is waiting to find out if he will lose his job, despite securing some consolation for missing out on the Champions League by beating Manchester United in the FA Cup final, thanks to Eden Hazard's first-half penalty.

Plato defined a philosopher firstly as its eponymous occupation: "wisdom-lover." He then distinguishes between one who loves true knowledge (as opposed to mere experience or education) by saying that the philosopher is the only person who has access to ideas – the archetypal entities that exist behind all representations of the form (such as Beauty itself as opposed to any one particular instance of beauty). It is next and in support of the idea that philosophers are the best rulers that Plato fashions the Ship of State metaphor, one of his most often cited ideas (along with his allegory of the cave): a "true pilot must of necessity pay attention to the seasons, the heavens, the stars, the winds, and everything proper to the craft if he is really to rule a ship" (The Republic, 6.488d).

For some reason I keep coming back to it, because of the power it seems to contain, or the way it gets my mind working to connect all the pieces of history and sacred text to get a higher viewpoint on reality. Is it meant to be a sort of hero's journey / awakening / christ consciousness thing? It is an effective mystery nonetheless.

Who is making this stuff? Is it an ARG? Was it generated by an AI or algorithm? The reason I ask is because it repeats the same things a lot in different ways, almost like hypnosis, lots of themes of reflection, the reflected text has the appearance of a

They've lost their capacity for free thought, choice and negotiation. When infected by a particular set of political programming, we lose our capacity to choose. We see this happening of course and the whole point is to bypass our rational thirst for reason and evidence by simply turning us into pursuers of positive stimuli and negative stimuli. We have been programmed to react negatively to certain stimuli while reacting positively to other stimuli, like mice avoiding electricity in a pursuit for cheese in a maze designed by others.

Trump said that "tornados destroy homes and lives". Politifact rates this mostly false. While some tornados have been known to destroy homes and take the lives of those in their paths, it is far more common for a tornado to pass peacefully through the woods without harming anyone or their property.

Last name: Pratt

Recorded in various spelling forms including Pratt, Prate, Prett, and Pritt, this interesting surname is of Anglo-Saxon origins. It is derived from a pre 7th century word "praett" meaning a trick; and as such was probably a nickname for a magician or conjuror. It is an example of that sizeable group of early European surnames that were gradually created from either an occupation, or from a variety of characteristics, such as physical attributes or peculiarities, mental and moral characteristics, and to habits of dress. The surname is first recorded in the 12th century making it one of the earliest on record anywhere in the world. Examples of these early recordings include: Aedmund Pret of Berkshire in the Pipe Rolls of that county in 1192,

Attempting to reason with demoralised people

They are contaminated; they are programmed to think and react to certain stimuli in a certain pattern. You cannot change their mind[s], even if you expose them to authentic information, even if you prove that white is white and black is black, you still cannot change the basic perception and the logic of behaviour. In other words, these people... the process of demoralization is complete and irreversible.

You should read this too. Maybe we'll reach a compromise: A History of Central Banking and the Enslavement of Mankind is Stephen Mitford Goodson's companion volume to Inside the South African Reserve Bank Its Origins and Secrets Exposed. While the latter volume describes the mechanics of the fraudulent usury banking system, with a focus on Goodson's experiences as a director of the SA Reserve Bank, this volume expands the focus to encompass the role of banking and money in history from ancient times to the present. The role of money-lenders in history was once aptly termed by many acute observers as the "Hidden Hand." It is the power to create, lend and accumulate interest on "credit," and then re-lend that interest for further interest, in perpetuity, that creates pervasive, worldwide debt, from the individual, to the family, to the entire state. The ability to operate a fraudulent credit and loan system has long been known, and through all the slickness of a snake-oil salesman, the money-lenders – the same types Jesus whipped from the Temple – have persuaded governments that banking is best left to private interests. Many wars, revolutions, depressions, recessions, and other social upheavals, have been directly related to the determination of these money-lenders to retain and extend their power and profits. When any state, individual or idea has threatened their scam they have often responded with wars and revolutions. The cultural and material progress of a civilization will often relate to the degree by which it is free from the influence of debt, and the degradation that results when the money-lenders are permitted to regain power. Hence, Goodson shows that both World Wars, the Napoleonic wars, the American Revolution, the rise and fall of Julius Caesar, the overthrow of Qathafi in Libya and the revolution against Tsar Nicholas, among much else relate to this "Hidden Hand" in history. This is the key to understanding the past, present and future. https://www.amazon.co.uk/History-Central-Banking-Enslavement-Mankind/dp/191088149X/ref=sr_1_1?s=books&ie=UTF8&qid=1537797106&sr=1-

Incidentally, Armand killed a woman after a botched abortion at his father's clinic in 1919, and his father took the blame for it. Jews have always contested that it's their religious right to perform abortions and contravening that right is an affrontage to Judaism. (2/3)

My friend is a [trustworthy reporter](#) who often sees anti-Clinton stories spiked. Not everybody at CNN is bad. The leadership is, though. This is a respected neutral who is being silenced – A good friend of mine, sick of CNN suppressing inconvenient stories that hurt the left.

On election night, Hillary was straight up “Hitler-in-the-bunker”

The few honest MSM reporters have been reduced to leaking info to new media people because their corporate bosses won't let them report it. A friend at CNN says Clintonland reports Hillary was in a “psychotic, drunken rage” election night; needed hardcore meds to speak Wednesday. CNN reporter tells me Hillary became physically violent towards Robby Mook and John Podesta around midnight; had to be briefly restrained. Hillary on election night was straight-up Hitler-in-the-bunker shit. It even included psychotic screaming about “the Russians.” The doctor helped restrain Hillary when she violently attacked Mook and Podesta at midnight. Gave sedatives, then amphetamines next morning. CNN reporter says Hillary needed so many amphetamines Wed morning she had unexpected nosebleeds all day. Fear was she'd bleed at concession.

17. We demand an agrarian reform in accordance with our national requirements, and the enactment of a law to expropriate the owners without compensation of any land needed for the common purpose. The abolition of ground rents, and the prohibition of all speculation in land.

18. We demand that ruthless war be waged against those who work to the injury of the common welfare. Traitors, usurers, profiteers, etc., are to be punished with death, regardless of creed or race.

19. We demand that Roman law, which serves a materialist ordering of the world, be replaced by German common law.

20. In order to make it possible for every capable and industrious German to obtain higher education, and thus the opportunity to reach into positions of leadership, the State must assume the responsibility of organizing thoroughly the entire cultural system of the people. The curricula of all educational establishments shall be adapted to practical life. The conception of the State Idea (science of citizenship) must be taught in the schools from the very beginning. We demand that specially talented children of poor parents, whatever their station or occupation, be educated at the expense of the State.

21. The State has the duty to help raise the standard of national health by providing maternity welfare centers, by prohibiting juvenile labor, by increasing physical fitness through the introduction of compulsory games and gymnastics, and by the greatest possible encouragement of associations concerned with the physical education of the young.

22. We demand the abolition of the regular army and the creation of a national (folk) army.

23. We demand that there be a legal campaign against those who propagate deliberate political lies and disseminate them through the press. In order to make possible the creation of a German press, we demand:

(a) All editors and their assistants on newspapers published in the German language shall be German citizens.

(b) Non-German newspapers shall only be published with the express permission of the State. They must not be published in the German language.

(c) All financial interests in or in any way affecting German newspapers shall be forbidden to non-Germans by law, and we demand that the punishment for transgressing this law be the immediate suppression of the newspaper and the expulsion of the non-Germans from the Reich.

Newspapers transgressing against the common welfare shall be suppressed. We demand legal action against those tendencies in art and literature that have a disruptive influence upon the life of our folk, and that any organizations that offend against the foregoing demands shall be dissolved.

24. We demand freedom for all religious faiths in the state, insofar as they do not endanger its existence or offend the moral and ethical sense of the Germanic race.

The party as such represents the point of view of a positive Christianity without binding itself to any one particular confession. It fights against the Jewish materialist spirit within and without, and is convinced that a lasting recovery of our folk can only come about from within on the principle:

gymnastics, and by the greatest possible encouragement of associations concerned with the physical education of the young.

It fights against the Jewish materialist spirit within and without, and is convinced that a lasting recovery of our folk can only come about from within on the principle:

COMMON GOOD BEFORE INDIVIDUAL GOOD

25. In order to carry out this program we demand: the creation of a strong central authority in the State, the unconditional authority by the political central parliament of the whole State and all its organizations.

The formation of professional committees and of committees representing the several estates of the realm, to ensure that the laws promulgated by the central authority shall be carried out by the federal states.

The leaders of the party undertake to promote the execution of the foregoing points at all costs, if necessary at the sacrifice of their own lives.

1. We demand the union of all Germans in a Great Germany on the basis of the principle of self-determination of all peoples.
 2. We demand that the German people have rights equal to those of other nations; and that the Peace Treaties of Versailles and St. Germain shall be abrogated.
 3. We demand land and territory (colonies) for the maintenance of our people and the settlement of our surplus population.
 4. Only those who are our fellow countrymen can become citizens. Only those who have German blood, regardless of creed, can be our countrymen. Hence no Jew can be a countryman.
 5. Those who are not citizens must live in Germany as foreigners and must be subject to the law of aliens.
 6. The right to choose the government and determine the laws of the State shall belong only to citizens. We therefore demand that no public office, of whatever nature, whether in the central government, the province, or the municipality, shall be held by anyone who is not a citizen.
- We wage war against the corrupt parliamentary administration whereby men are appointed to posts by favor of the party without regard to character and fitness.
7. We demand that the State shall above all undertake to ensure that every citizen shall have the possibility of living decently and earning a livelihood. If it should not be possible to feed the whole population, then aliens (non-citizens) must be expelled from the Reich.
 8. Any further immigration of non-Germans must be prevented. We demand that all non-Germans who have entered Germany since August 2, 1914, shall be compelled to leave the Reich immediately.
 9. All citizens must possess equal rights and duties.
 10. The first duty of every citizen must be to work mentally or physically. No individual shall do any work that offends against the interest of the community to the benefit of all.

Therefore we demand:

11. That all unearned income, and all income that does not arise from work, be abolished.
12. Since every war imposes on the people fearful sacrifices in blood and treasure, all personal profit arising from the war must be regarded as treason to the people. We therefore demand the total confiscation of all war profits.
13. We demand the nationalization of all trusts.
14. We demand profit-sharing in large industries.
15. We demand a generous increase in old-age pensions.
16. We demand the creation and maintenance of a sound middle-class, the immediate communalization of large stores which will be rented cheaply to small tradespeople, and the strongest consideration must be given to ensure that small traders shall deliver the supplies needed by the State, the provinces and municipalities.

The image shows a screenshot of the Cosmopolitan app interface. At the top, there is a hamburger menu icon on the left, the word "COSMOPOLITAN" in pink capital letters in the center, and a magnifying glass search icon on the right. Below the header, the main headline reads "Girl describes what it was like to have sex with her dad" in a large, bold, black serif font. Underneath the headline is a quote in a smaller, grey sans-serif font: "The sexual intensity was nothing like I'd ever felt before. It was like being loved by a parent you never had, and the partner you always wanted, at once." Below the text is a photograph of two hands, one from a man in a dark suit and one from a woman in a green sleeve, with their index fingers touching. In the bottom right corner of the photo is a red Pinterest pin icon. At the very bottom of the app interface is a navigation bar with a back arrow, a forward arrow, a Facebook icon followed by "712 People talking", a bookmark icon, and a three-dot menu icon.

21 September 2018 08:45

Sonny Burgess

You're right. It's about a lot of major changes to life in the West right now. The West is going through it's very own Weimar Republic era and that can go on to two different outcomes, Bolshevism, or anything else.

Have you ever wondered if the guy from Magnetic Island is controlled opposition too.....

21 September 2018 08:42

Jon James Pratt

Well you should learn some humility then. That man has been imprisoned for 7 years for the crime of wanting to make information free.

21 September 2018 08:41

Sorry. I can't rise above that reality.

21 September 2018 08:41

I'd unequivocally question one of the best informed people in the world. I'd start by asking his thoughts on the forced demographic replacement of his own country, England, Europe, the West and how comfortable he would be living in African/Arab colony

We can't deny the obvious social engineering that's been happening since the forties though, Jon. Denying these racial impediments is more akin with Neoliberal aspirations about how society is supposed to progress - quite "progressive" ideas actually. The wizardry/occult stuff is interesting but it does deflect attention away from content like the clip I posted, which should really dovetail into realistic conversations surrounding cultural continuity, preserving heritage and the texture of life.

Facebook will start fact-checking memes

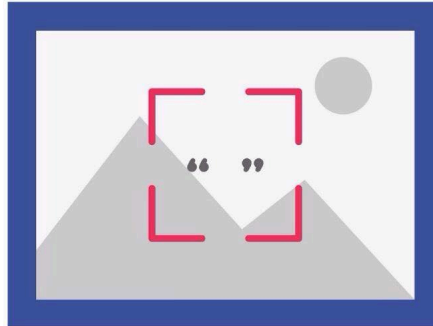

Published: Sept 13, 2018 12:06 p.m. ET

Facebook Inc. **FB**, **-0.17%** said Thursday that it would begin to fact-check photos and videos shared to its platform. So far, most of the work done by human fact-checkers on Facebook has been geared toward articles, the company said in a release. Facebook announced Thursday that it would use a machine-learning model to identify potentially inaccurate photo and video content and then send those items to human fact-checkers for review. "Many of our third-party fact-checking partners have expertise evaluating photos and videos and are trained in visual verification techniques, such as reverse image searching and analyzing image metadata, like when and where the photo or video was taken," the company said. Facebook is looking for content that is manipulated, fabricated, or out of context, among other things. Shares are little changed in Thursday trading, and they're down 6.5% over the past 12 months. The S&P 500 **SPX**, **+0.54%** has gained 16% in that time.

Today, the EU voted on Article 7
and Article 13:

Article 7 effectively punishes
Hungary for not conforming to "EU

funds and override their political
process

Article 13 is the controversial
censorious internet "meme ban"

Hillary Clinton's crimes will not go unpunished. If she is not formally charged for mishandling sensitive material we will have no choice but to release proof that she is guilty of high treason against the United States for selling patented military secrets to the Saudi Arabian government.

We also have proof that she is guilty of crimes against Russia, Uzbekistan, Lithuania, Caledonia, and Brazil. The United States would be doing her a favor by putting her in prison and saving her from the severe punishments several of these nations would impose.

Assange showed his determination to see Clinton indicted by setting an October 21 deadline – indict her yourself or I will release irrefutable proof that she has committed high treason.

Peak 2017: Math Is Now Racist

Math education is "unjust and grounded in a legacy of institutional discrimination"

Teaching maths perpetuates white privilege, says university professor

On many levels, mathematics itself operates as Whiteness. Who gets credit for doing and developing mathematics, who is capable in mathematics, and who is seen as part of the mathematical community is generally viewed as white.

Regents Drop Teacher Literacy Test Seen as Discriminatory

BY KATE TAYLOR 18 MARCH 15, 2017

The Board of Regents on Monday eliminated a requirement that aspiring teachers in New York State pass a literacy test to become certified after the test proved controversial because black and Hispanic candidates passed it at significantly lower rates than white candidates.

The Regents also moved forward with a proposal that would allow some students who failed another test, aimed at evaluating practical skills like lesson planning and assessment, to be certified as teachers based on their grades and professors' recommendations.

Together, the steps signal how much the Regents' approach has changed under the current chancellor, Betty A. Rosa, after several years of efforts to raise the bar for entering the profession.

Under the previous chancellor, Meryl H. Tisch, the state created a set of more rigorous licensing exams. Among them was the Academic Literacy Skills Test, or ALST, which was intended to assess reading and analytical writing skills, and the edTPA, which requires candidates to submit a portfolio of work, including unedited videos of them interacting with students.

'How sorcery and magic are the two predominant forces in our present reality; how we are trapped in the Talmudic matrix of the flesh; the Talmudization of the Goyim; how Marxism is a deadly poison of the mind; how Sexual Marxism will inevitably result in the destruction of Western Nations; the Talmudic fingerprints all over the perversion in Weimar Germany:

If you've somehow managed to remain blissfully unaware, the [QAnon conspiracy](#) is the latest bout of weaponized insanity to emerge from the depths of internet. Adherents believe that a top-level government insider has been anonymously communicating with the American public over 4chan and 8chan since October. According to the anonymous poster, who calls themselves "Q," Donald Trump is fighting a super-secret war against an army of pedophiles, globalists, and ISIS-loving cannibals who have embedded themselves in the U.S. government, Hollywood, and, of course, the Democratic party.

Either take a recent interactive product or design one yourself and analyse the consistency or otherwise of its navigation metaphor. Use a Batesonian based critique to question whether the context it sets enhances or detracts from the experience it attempts to engender in the user. The format of the presentation is unspecified, but it should attempt in some way to become itself a demonstration of your critique, i.e. its form and narrative should invoke the points addressed in your analysis.

[background information of the bateson meta-dialogue can be found here](#)

"When reality is mediated in print photography, television, and film, what we see is not only not reality, but a synthetic reality highly susceptible to manipulation. Furthermore, if it is true as hypothesised that media-induced vicarious experience may later mix with actual occurrences in memory and render them indistinguishable from one another, then media may play a substantial role in developing mental maps that blend media and reality together as a single mental experience, which in turn directs our interpretation of the present, further revises memory, and affects the direction of our thoughts and action" (visual intelligence:sunly press. 1998)

TFW you realize your side:

- bans memes, subreddits, youtubes and twitters
- cries about every thing
- cuts off their own dicks to become “women”
- values criminal foreigners over fellow country men
- tries to steal a presidential election
- uses government resources to attack political opponents
- wants everyone else to pay welfare for your mistakes
- forces young girls to go to the bathroom next to men
- prosecutes people for not using your adjectives
- calls everything racist
- imprisons a man condemning child rape gangs
- harasses and kicks people out of restaurants
- shoots and physically assaults elected officials
- hits people over the head with bike locks
- riots over free speech on college campuses
- advocates for the normalizing of pedophilia
- and more...

I mean come on...you have to realize you're the baddies, right?!

It's funny, this whole Serena incident has given me as a left wing liberal guy a good insight and even sympathy toward what some conservative folks must go through trying to have discussions and respectful disagreements with many folks on my side of the aisle.

I just got finished getting covered in rhetorical piss and shit by several women in a Facebook discussion about this subject. Despite the fact that they knew nothing about the rules of tennis or how code violations worked, and despite me patiently and gently trying to explain those rules and why Serena wasn't unfairly persecuted, I got labeled a "mansplainer" by them and denigrated as not able to have a valid opinion on the subject because I was neither a woman, nor black, so I basically needed to just shut the hell up.

Sometimes I guess it's good to see the ideological and behavioral rot that exists in your own side of the fence.

MEMES · By Samantha Cole · Jun 12 2018, 1:27pm

Researchers Studied 160 Million Memes and Found Most of Them Come From Two Websites

A study of hundreds of millions of images from Reddit, 4chan, Gab, and Twitter reveals how memes spread.

/pol/ had the highest volume of memes, while the_donald was the best at getting memes spread outside of its own community. Reddit and Twitter users shared more “fun” memes, they concluded, while /pol/ and Gab saw more racist or politically-motivated images.

The utterly devastating loss shattered the minds of hundreds if not thousands of poor souls who welled up with salty tears and disbelief, crying endlessly over what their minds simply could not comprehend, meanwhile the new Emperor of Mankind and his legion of anonymous shitposters rejoiced while also being just as dumbfounded but pleased nonetheless. The immense tears and salt that flowed that day and the days after were enough to flood the world in a sea of delicious salt, unlike anything trolls had ever tasted before.

Last name: Pratt

Recorded in various spelling forms including Pratt, Prate, Prett, and Pritt, this interesting surname is of Anglo-Saxon origins. It is derived from a pre 7th century word "praett" meaning a trick; and as such was probably a nickname for a magician or conjuror. It is an example of that sizeable group of early European surnames that were gradually created from either an occupation, or from a variety of characteristics, such as physical attributes or peculiarities, mental and moral characteristics, and to habits of dress. The surname is first recorded in the 12th century making it one of the earliest on record anywhere in the world. Examples of these early recordings include: Aedmund Pret of Berkshire in the Pipe Rolls of that county in 1192,

 Sonny Burgess

11 September 2018 07:00

Sonny Burgess

Discussing the matter

11 September 2018 06:59

Jon James Pratt

But what exactly are you doing about it?

11 September 2018 06:57

Sonny Burgess

How is anything a conspiracy here if that's what the premise of the thread is? I know why it was set up that too, Jon. It still doesn't mean it's ok.

11 September 2018 06:54

Jon James Pratt

That's why you believe in Jewish conspiracy theories and I don't

11 September 2018 06:44

Jon James Pratt

Sure. But the difference is, I know why it was set up that way. You just know it exists.

11 September 2018 06:44

Sonny Burgess

I think I explained too:

The role of money-lenders in history was once aptly termed by many acute observers as the "Hidden Hand." It is the power to create, lend and accumulate interest on "credit," and then re-lend that interest for further interest, in perpetuity, that creates pervasive, worldwide debt, from the individual, to the family, to the entire state. The ability to operate a fraudulent credit and loan system has long been known, and through all the slickness of a snake-oil salesman, the money-lenders - the same types Jesus whipped from the Temple - have persuaded governments that banking is best left to private interests. Many wars, revolutions, depressions, recessions, and other social upheavals, have been directly related to the determination of these money-lenders to retain and extend their power and profits. When any state, individual or idea has threatened their scam they have often responded with wars and revolutions. The cultural and material progress of a civilization will often relate to the degree by which it is free from the influence of debt, and the degradation that results when the money-lenders are permitted to regain power. Hence, Goodson shows that both World Wars, the Napoleonic wars, the American Revolution, the rise and fall of Julius Caesar, the overthrow of Qathafi in Libya and the revolution against Tsar Nicholas, among much else relate to this "Hidden Hand" in history. This is the key to understanding the past, present and future.

11 September 2018 06:43

Jon James Pratt

As you can imagine, not an easy task.

11 September 2018 06:42

Sonny Burgess

Because it tends to change according to varying points in the thread

11 September 2018 06:42

Jon James Pratt

Explained why we have wars

11 September 2018 06:41

Jon James Pratt

Why bother me with details when I've described the very top of the global power structure?

11 September 2018 06:41

Sonny Burgess

So Assad is just more controlled opposition then?

11 September 2018 06:40

Jon James Pratt

For a reason

11 September 2018 06:39

Jon James Pratt

But it was all set up that way

11 September 2018 06:39

Jon James Pratt

Sure

11 September 2018 06:39

Jon James Pratt

There are no real leaders

11 September 2018 06:39

Sonny Burgess

Absolute power corrupts absolutely

11 September 2018 06:39

Sonny Burgess

And if real leaders are brave enough to stand up to this then you're "evil". And Assad is the latest scapegoat

11 September 2018 06:38

Jon James Pratt

And they fucked up big time

11 September 2018 06:38

Jon James Pratt

Of course

11 September 2018 06:36

Jon James Pratt

That's why Israel has been top dog for 1000's of years

11 September 2018 06:36

Sonny Burgess

We haven't had a chance since the trickling down of Babylonian disproportionate manipulation and power through 1000's of years

11 September 2018 06:36

Jon James Pratt

Because we've never been masters of our own destiny, just authors of our own downfall.

11 September 2018 06:35

Jon James Pratt

Like I said, in a sound bite, the rest of the universe is laughing their asses off at us, because it's taken us 1000's of years to climb out of a Petri dish.

11 September 2018 06:28

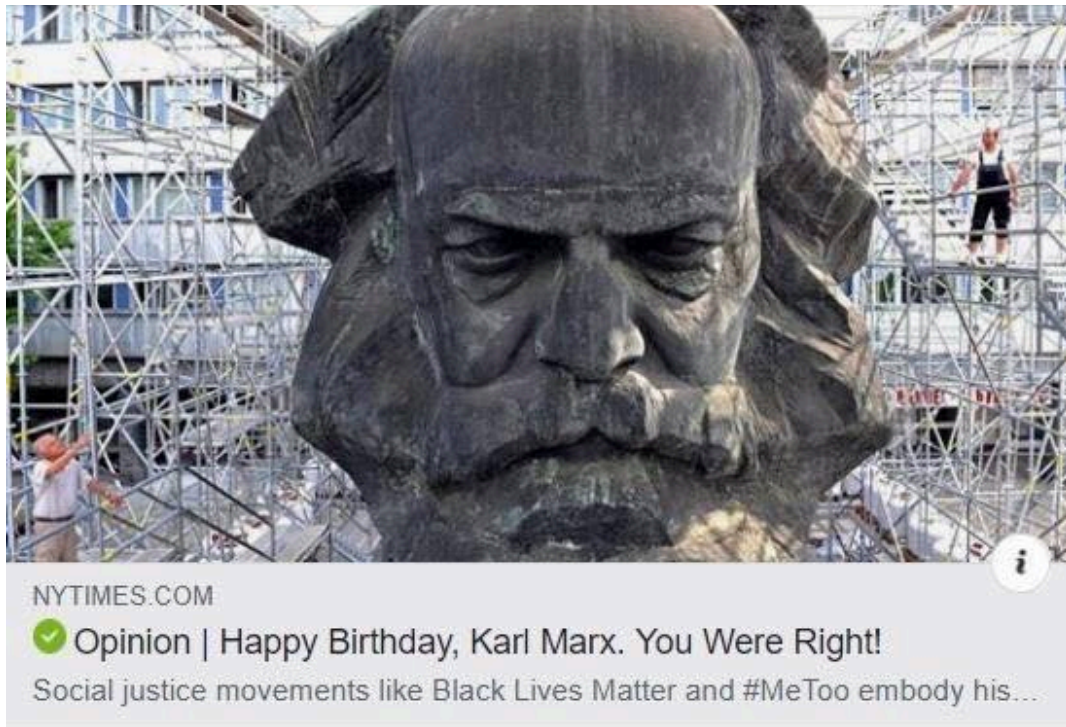

Sonny Burgess

So what should happen differently at the tail-end of a Monarchy collapse that doesn't involve 'entropy', regime change and/or genocide, that hasn't happened before? And if there's a legitimate solution to consider - how is this solution to be promoted to the masses, in advance, and post-entropy

10 September 2018 20:24

Jon James Pratt

The real mental illness is believing this consensus reality that is presented to us.

10 September 2018 20:18

Jon James Pratt

You still haven't answered the question yet.

Nor has your 'Royal' family.

I'm not asking you.

I'm telling you.

I even came to you all twice, with good and honorable intentions.

The hole that you are all digging is entirely of your own doing.

An inevitable consequence of choosing 650 average intellects and giving them absolute power over 65 million people.

Do you not understand where my authority lies?

Like I said before, ask the Israeli Prime Minister or the head of Mossad, it will make things easier for you all in the long run, your soon-to-be-sacked 'Royal' family too.

I mean, you don't seriously think that these people haven't paid a personal price for a title, material wealth and a prominent position on your soon-to-be-kicked-into-space world stage?

You understand why the same power structure that sorts out the money and makes people famous (Israel) also shows these lost and fallen souls the true and absolute value of money (trickle up usury/ trickle down baby burning/soul harvesting) and also the true and absolute cost of celebrity, namely invoking a fiery collective consciousness, the knowledge of good and evil manifest, the original sin of choosing physics (science) over metaphysics (spirit).

Looks like a massive Jewish conspiracy from the outside, but the closer you get to the top, the totally inescapable conclusion is that it is actually something a lot more nefarious.

A conspiracy of man against his creator, the connection being consciousness, with horizontal (collective) and vertical (divine) dimensions.

This is the view from the very top.

I don't want to see any more crucifications.

One is enough.

Jon James Pratt

P.S You should show some gratitude and respect, when all the dust settles, I'm going to be the only person in the world stopping Elizabeth Windsor and her family being dragged into the street and being burnt alive, as is the historical punishment for a betrayal against humanity of this magnitude.

10 September 2018 10:48

Sonny Burgess

- Stephen Mitford Goodson

10 September 2018 10:48

Sonny Burgess

The role of money-lenders in history was once aptly termed by many acute observers as the "Hidden Hand." It is the power to create, lend and accumulate interest on "credit," and then re-lend that interest for further interest, in perpetuity, that creates pervasive, worldwide debt, from the individual, to the family, to the entire state. The ability to operate a fraudulent credit and loan system has long been known, and through all the slickness of a snake-oil salesman, the money-lenders - the same types Jesus whipped from the Temple - have persuaded governments that banking is best left to private interests. Many wars, revolutions, depressions, recessions, and other social upheavals, have been directly related to the determination of these money-lenders to retain and extend their power and profits. When any state, individual or idea has threatened their scam they have often responded with wars and revolutions. The cultural and material progress of a civilization will often relate to the degree by which it is free from the influence of debt, and the degradation that results when the money-lenders are permitted to regain power. Hence, Goodson shows that both World Wars, the Napoleonic wars, the American Revolution, the rise and fall of Julius Caesar, the overthrow of Qathafi in Libya and the revolution against Tsar Nicholas, among much else relate to this "Hidden Hand" in history. This is the key to understanding the past, present and future.

10 September 2018 10:47

Jon James Pratt

Wars happen because many of our politicians (who might have had good intentions), become compromised in their decision making, particularly with regards to foreign policy- the root cause of refugees.

You have to examine the cause to solve the problem.

Why are affiliates of InfoWars constantly attacking 'Q'?

My friend is a [trustworthy reporter](#) who often sees anti-Clinton stories spiked. Not everybody at CNN is bad. The leadership is, though. This is a respected neutral who is being silenced – A good friend of mine, sick of CNN suppressing inconvenient stories that hurt the left.

On election night, Hillary was straight up “Hitler-in-the-bunker”

The few honest MSM reporters have been reduced to leaking info to new media people because their corporate bosses won't let them report it. A friend at CNN says Clintonland reports Hillary was in a “psychotic, drunken rage” election night; needed hardcore meds to speak Wednesday. CNN reporter tells me Hillary became physically violent towards Robby Mook and John Podesta around midnight; had to be briefly restrained. Hillary on election night was straight-up Hitler-in-the-bunker shit. It even included psychotic screaming about “the Russians.” The doctor helped restrain Hillary when she violently attacked Mook and Podesta at midnight. Gave sedatives, then amphetamines next morning. CNN reporter says Hillary needed so many amphetamines Wed morning she had unexpected nosebleeds all day. Fear was she'd bleed at concession.

For the newcomers-

Last month's satisfied customers were raving about our "pizza" and we know you will too! Repeat customers know the drill. For newcomers, first run the program given to you by your special friend and all instructions on how to enjoy this joyous hobby will be easily understandable. But please, remember the penalties for breaking the rules, which are also included in the program. Very few have broken the rules, and needless to say the penalties are harsh. All pricing is included in the app. The app will only run once, and the following requirements must be met:

- The app is to be run from your own personal computer that only you have access
- Your computer must be connected to the Internet when run
- The app must be run from your home
- You must destroy the media on which you received the app
- Remember the password that will activate the app as there will be no icons on your computer

November newcomers: 0

November's specials-

This month we have 5 fresh pizzas for your enjoyment. We also have 4 surviving pizzas from last month's session, all are on sale at an extremely low price, as they are in poor health and not expected to survive so a requirement is that you finish eating your pizza after your session.

This month's special includes a 30% discount on severe torture! Each image below is available for \$1,000 in fine print. Andrew also has some prints he would like to sell so contact him for more info (they are true masterpieces).

5 September 2018 16:11

"The first Jewish communities of significant size came to England with William the Conqueror in 1066. After the conquest of England, William instituted a feudal system in the country, whereby all estates formally belonged to the Crown; the king then appointed lords over these vast estates, but they were subject to duties and obligations (financial and military) to the king. Under the lords were other subjects such as serfs, who were bound and obliged to their lords, and to their lords' obligations. Merchants had a special status in the system, as did Jews. Jews were declared to be direct subjects of the king, unlike the rest of the population. This was an ambivalent legal position for the Jewish population, in that they were not tied to any particular lord but were subject to the whims of the king, it could be either advantageous or disadvantageous. Every successive king formally reviewed a royal charter, granting Jews the right to remain in England. Jews did not enjoy any of the guarantees of the Magna Carta of 1215.

Economically, Jews played a key role in the country. The Church then strictly forbade the lending of money for profit, creating a vacuum in the economy of Europe that Jews filled because of extreme discrimination in every other economic area. Canon law was not considered applicable to Jews, and Judaism does not forbid loans with interest between Jews and non-Jews. Taking advantage of their unique status as his direct subjects, the King could appropriate Jewish assets in the form of taxation. He levied heavy taxes on Jews at will, without having to summon Parliament.

The reputation of Jews as extortionate moneylenders arose,[citation needed] which made them extremely unpopular with both the Church and the general public. While an anti-Jewish attitude was widespread in Europe, medieval England was particularly anti-Jewish. An image of the Jew as a diabolical figure who hated Christ started to become widespread, and myths such as the tale of the Wandering Jew and allegations of ritual murders originated and spread throughout England as well as in Scotland and Wales.

In frequent cases of blood libel, Jews were said to hunt for children to murder before Passover so that they could use their blood to make the unleavened matzah. Anti-Jewish attitudes sparked numerous riots in which many Jews were murdered, most notably in 1190, when over 100 Jews were massacred in York."

5 September 2018 16:10

Sonny Burgess

"The Edict of Expulsion was a royal decree issued by King Edward I of England on 18 July 1290, expelling all Jews from the Kingdom of England. The expulsion edict remained in force for the rest of the Middle Ages. The edict was not an isolated incident, but the culmination of over 200 years of increased persecution. The edict was overturned during the Protectorate more than 350 years later, when Oliver Cromwell permitted Jews to return to England in 1657."

The European people were polarised and ultimately paid a the price in population fatality in the twentieth century. This could well turn out to be another one of those scenarios because the masses are under control and it's turning out to be history repeating in many ways. What should be done differently this time without cucking for the globohomo elite?

Instead of sending Europeans to fight wars on behalf of other, er, tribes, or forcing Europeans into two world wars with each other at the cost of eighty million European lives on behalf of said tribe, why not invite the war to Europe this time.. and pit the two biggest enemies of that tribe together for an almighty clash, with people like Robinson stocking the conflict fires

The Sun And Daily Mail Accused Of Putting Transgender Kids At Risk With LGBT+ Stories

Campaigners say front page stories have left trans people 'scared and fearful'.

HUFFPOST

Girlguiding To Welcome Transgender Children And Leaders Under Official New Guidelines

Transgender kids will be welcomed at Rainbows, Brownies and Girl Guides.

Aimee Challenor, equalities (LGBTIQ) spokesperson for the Green Party, has welcomed the new guidelines.

"I'm really pleased to see the Girlguiding movement continue its values of acceptance by allowing trans girls to be a part of their movement and experience the many wonderful experiences in guiding," she told The Huffington Post UK.

INDEPENDENT #satiria

A candidate for the deputy leadership of the **Green Party** has pulled out after her father, who had served as her election agent, was jailed for raping and abusing a child.

Aimee Challenor was seen as one of the frontrunners for the position and has claimed she was unaware what her father had done.

The party's equality spokeswoman and former parliamentary candidate had hired her father to run her campaigns even after he had been charged with the crimes, which were initially reported to police in late 2015.

David Challenor, 50, was jailed for 22 years for holding a 10-year-old girl captive in his "torture den" attic where he electrocuted her while playing out his sadomasochistic fantasies.

A court was told how he would dress up as a small girl in adult-sized baby dresses and nappies before carrying out the attacks

at his home.

HuffPost keeps kids safe by bravely not reporting conviction of trans activist's child rapist dad/election agent

Most straight men go through some period(s) of youthful homosexual desire. They jerk off together, or do a little sucky-sucky at the sleepover, or just moon over their best friend. As adults, they are able to incorporate these episodes into a functioning psyche and sexuality.

The meeting of activists and faculty of UCT featured one student saying "Science as a whole is a product of Western modernity and the whole thing should be scratched off. Especially in Africa."

Teaching maths perpetuates white privilege, says university professor

"On many levels, mathematics itself operates as Whiteness. Who gets credit for doing and developing mathematics, who is capable in mathematics, and who is seen as part of the mathematical community is generally viewed as White"

Regents Drop Teacher Literacy Test Seen as Discriminatory

By KATE TAYLOR | MARCH 13, 2017

The Board of Regents on Monday eliminated a requirement that aspiring teachers in New York State pass a literacy test to become certified after the test proved controversial because black and Hispanic candidates passed it at significantly lower rates than white candidates.

The Regents also moved forward with a proposal that would allow some students who failed another test, aimed at evaluating practical skills like lesson planning and assessment, to be certified as teachers based on their grades and professors' recommendations.

Together, the steps signal how much the Regents' approach has changed under the current chancellor, Betty A. Rosa, after several years of efforts to raise the bar for entering the profession.

Under the previous chancellor, Meryl H. Tisch, the state created a set of more rigorous licensing exams. Among them was the Academic Literacy Skills Test, or ALST, which was intended to assess reading and analytical writing skills, and the eTPA, which requires candidates to submit a portfolio of work, including unedited videos of them interacting with students.

That is just from one email. Lol

19 August 2018 20:41

Jon James Pratt

Read the emails, reflect and I'd love to know your thoughts on them.

19 August 2018 20:39

If you think White Supremacists or the mythical 'patriarchy' won the American election, because the demonstrably broken mass media told you, you are very very mistaken.

I can give you the red pill, but only you can decide to swallow it.

19 August 2018 20:35

Jon James Pratt

The emails are information. This information then is turned into knowledge with a first level analysis.

Bearing in mind, this small community (was around 200k when I joined) overturned the whole of the world's mass media, it's importance cannot be understated.

Destroy all your preconceptions.

Tim Grantham added Mark Gutteridge.

19 August 2018 20:20

To understand how and why approximately 95% of the mass media is totally beholden to corporate (global) power, is to understand the true historical significance of the Wikileaks Podesta emails.

Many, many documented examples of treason level criminality, concealed by the broken and corrupted mass media.

All those emails are verifiable, date and time stamped (metadata).

Believe me, the Russian conspiracy theory regarding Trump and Brexit is a complete fabrication, and the truth of it is, our politicians have been seriously caught with their hands in the cookie jar.

Define 'Fascism'.

Forcible suppression of opposition?

Define 'Censorship'.

The institution, system, or practice of censoring?

Define 'Narrative'.

A way of presenting or understanding a situation or series of events that reflects and promotes a particular point of view or set of values?

Define 'Projection'.

The attribution of one's own ideas, feelings, or attitudes to other people or to objects; especially : the externalization of blame, guilt, or responsibility as a defense against anxiety?

The forming of a plan : scheming?

Define 'Psychological Projection'.

A theory in psychology in which the human ego defends itself against unconscious impulses or qualities (both positive and negative) by denying their existence in themselves while attributing them to others?

Define 'Narcissist'.

A person who has an excessive interest in or admiration of themselves: narcissists who think the world revolves around them | narcissists preening themselves in front of the mirror?

Define 'Dogma'.

A point of view or tenet put forth as authoritative without adequate grounds?

Define 'Aggression'.

Forceful and sometimes overly assertive pursuit of one's aims and interests?

Define 'Suppression'.

The action of suppressing something such as an activity or publication?

[Bonus Round]

'Narcissists' are renowned for using 'psychological projection' to blame other people, even when it is entirely apparent that they are the ones in the wrong.

Define 'Realism'.

Yeah I actually did that about 20 years ago. Taoism is very very sweet, more of a way to describe reality, rather than a religion per se, particularly as it contains no symbols or icons.

Oddly enough, The Tao of philosophy by Alan watts and the Tao of pooh by Benjamin hoff are some of my favourite books.

Crowley also translated the 'Tao Teh King', although I'm not a huge fan of Crowley, it is definitely one of the jewels in his crown.

For the newcomers-

Last month's satisfied customers were raving about our "pizza" and we know you will too! Repeat customers know the drill. For newcomers, first run the program given to you by your special friend and all instructions on how to enjoy this joyous hobby will be easily understandable. But please, remember the penalties for breaking the rules, which are also included in the program. Very few have broken the rules, and needless to say the penalties are harsh. All pricing is included in the app. The app will only run once, and the following requirements must be met:

- The app is to be run from your own personal computer that only you have access
- Your computer must be connected to the Internet when run
- The app must be run from your home
- You must destroy the media on which you received the app
- Remember the password that will activate the app as there will be no icons on your computer

November newcomers: 0

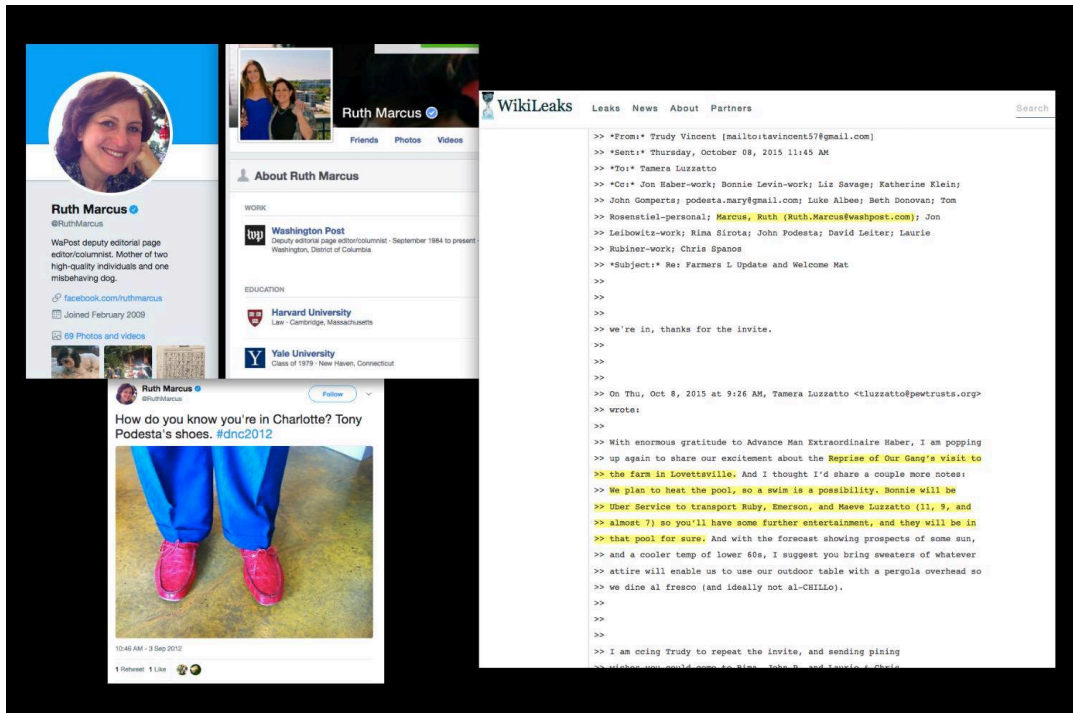

November's specials-

This month we have 5 fresh pizzas for your enjoyment. We also have 4 surviving pizzas from last month's session, all are on sale at an extremely low price, as they are in poor health and not expected to survive so a requirement is that you finish eating your pizza after your session.

This month's special includes a 30% discount on severe torture! Each image below is available for \$1,000 in fine print. Andrew also has some prints he would like to sell so contact him for more info (they are true masterpieces).

"By means of ever more effective methods of mind-manipulation, the democracies will change their nature; the quaint old forms -- elections, parliaments, Supreme Courts and all the rest -- will remain.

The underlying substance will be a new kind of totalitarianism. All the traditional names, all the hallowed slogans will remain exactly what they were in the good old days. Democracy and freedom will be the theme of every broadcast and editorial. Meanwhile the ruling oligarchy and its highly trained elite of soldiers, policemen, thought-manufacturers and mind-manipulators will quietly run the show as they see fit."

The Divine genius is, the same power structure that deals with money and 'the star system', namely Israel, also shows these lost souls the true and absolute value of money, (trickle up usury/trickle down baby burning) and the true and absolute value of celebrity, chasing a fiery collective consciousness behind the curtain of history. That is the arc of the covenant.

That's why Israel is definitely not the enemy, but those rabidly pro-Israeli MP's are the lowest of the low.

The nuance is important.

when the autistic friend simulator and bootleg anime porn warehouse that consumed your youth and wasted your best years is actually the unwitting vanguard of a massive subterranean eruption of right wing resentment against generations of western social engineering that is just now reaching the surface of mainstream society, and that future historians will have to pick up the pieces of this cataclysmic event and write staid, carefully researched accounts of how droves of young men with no reason to plug into society were progressively disenfranchised by a feminized liberal status quo until they formed a psychic gestalt with a surplus of asabiyyah like the fucking fremen from dune, wrested control of faustian destiny back from the decadent vaginakin, and righted mankind's true path toward the stars, because they were bored and it was funny

fearmongering vs. reality

repubgrlprobs

“IF TRUMP WINS...”

...he'll lead us into war

...women will lose their rights

...we'll live in fear for our safety

...the economy will die

...immigrants aren't welcome

BUT REALLY...

within 48 hours, Russia & Syria
both announced their desire
for peace with the U.S.

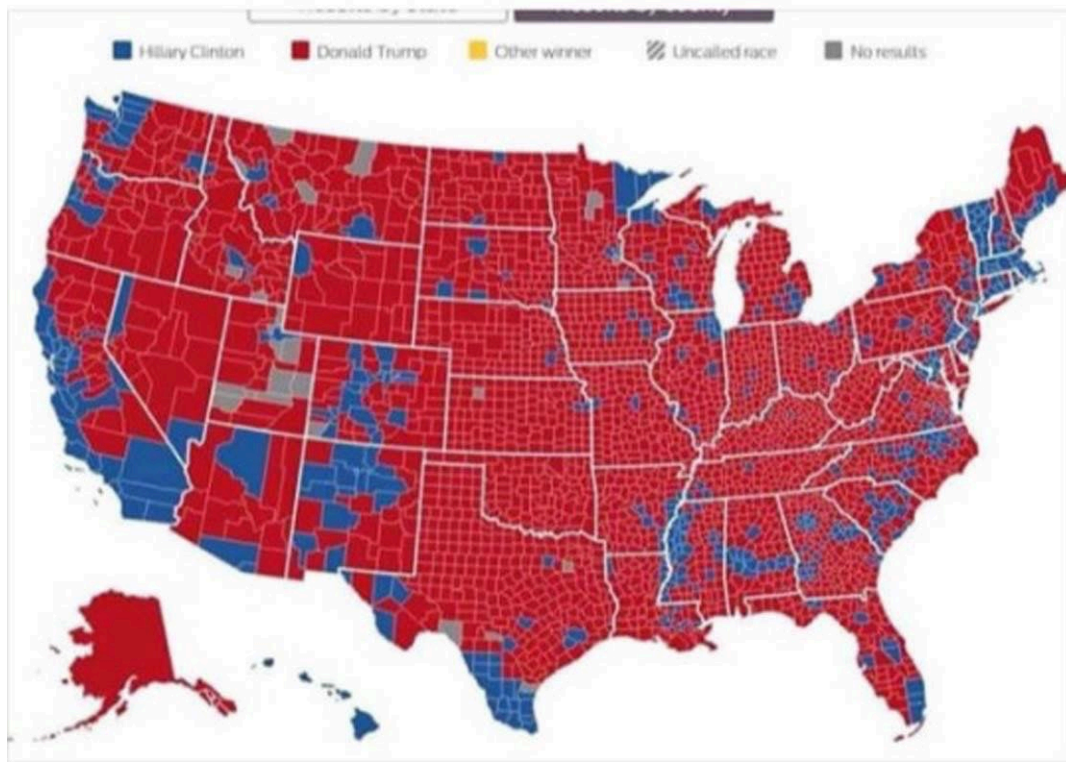

Trump made U.S. history by
having the first woman to
successfully manage a
presidential campaign

the only danger to public
safety now is mobs of angry
liberals rioting in the streets

the DOW has now hit record
highs and the dollar is at a
multi-decade high

we have the first ever
non-American born First Lady

To the liberals out there saying they need to start some sort of revolution. Reality check, there already was one. You weren't invited.

If you voted for Hillary You are scared

Because for the last five months you have been a victim of the biggest propaganda scheme in U.S history.

Mainstream Media spent nearly ten billion dollars creating a safe space, a pro-hillary echo-chamber on TV, on facebook, on twitter, in your favorite newspaper. They rigged polls with massive oversampling, completely censored trending news articles and pro-trump #hashtags from social media, paid thousands of people to post pro-hillary comments and pretend to be "Normal" voters.

They blatantly one sided every source of news you trusted and relied on to be an informed Citizen.

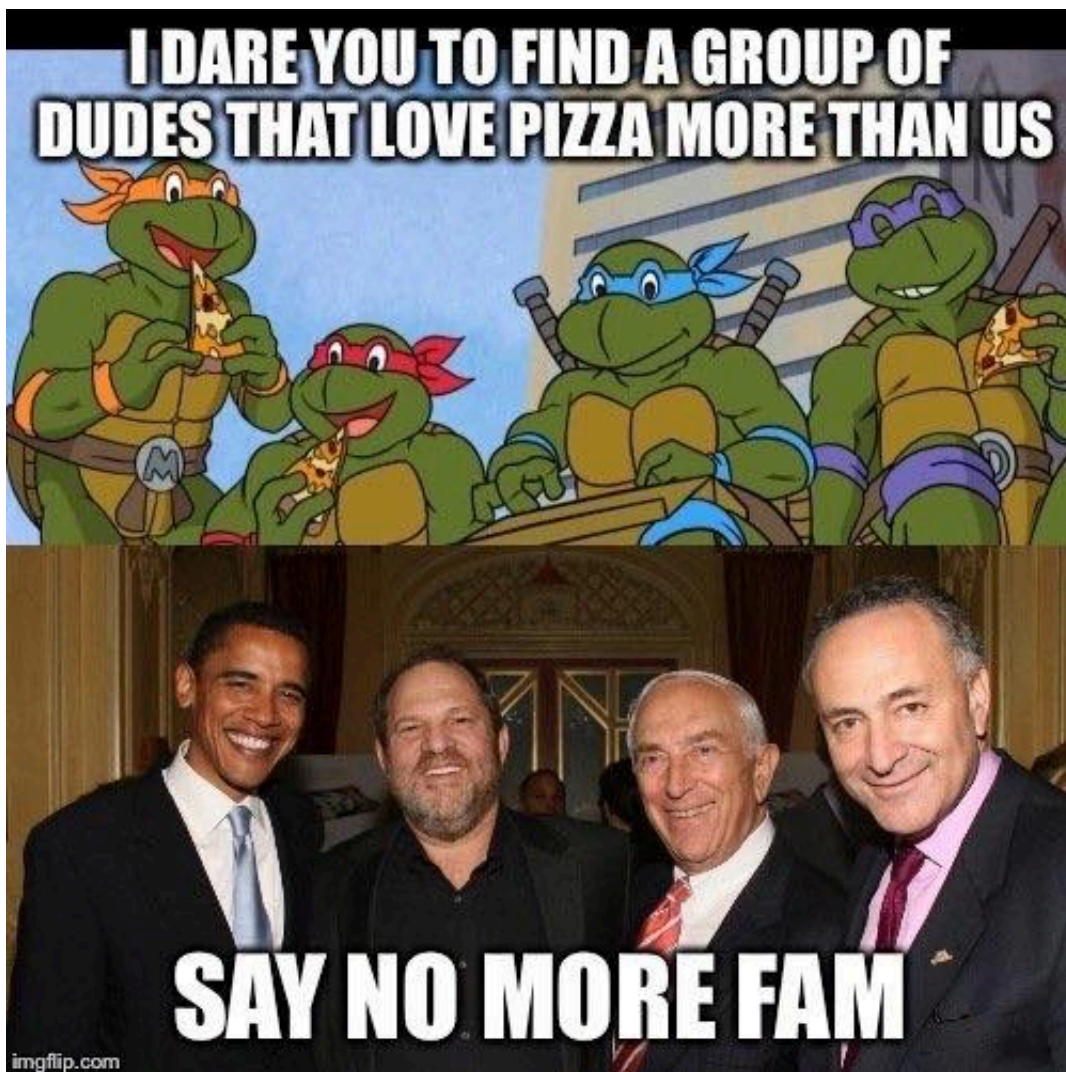

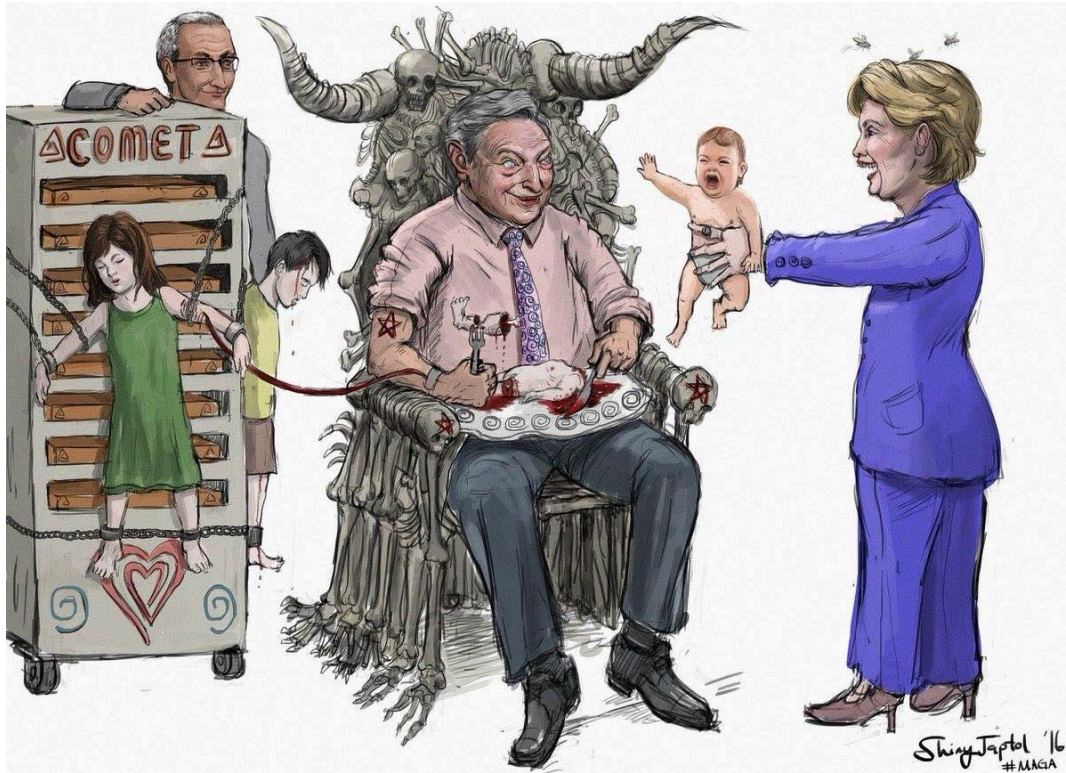

So when trump won, you were blindsided, you had absolutely no clue he had as much support as he did. The media said he was evil, racist, sexist, a sexual predator, hitler, satan himself. They said he had less than a 1% chance of winning.

**You are scared
for the same reason that he won.
The Media Lied To You.**

Last name: Pratt

Recorded in various spelling forms including Pratt, Prate, Prett, and Pritt, this interesting surname is of Anglo-Saxon origins. It is derived from a pre 7th century word "praett" meaning a trick; and as such was probably a nickname for a magician or conjuror. It is an example of that sizeable group of early European surnames that were gradually created from either an occupation, or from a variety of characteristics, such as physical attributes or peculiarities, mental and moral characteristics, and to habits of dress. The surname is first recorded in the 12th century making it one of the earliest on record anywhere in the world. Examples of these early recordings include: Aedmund Pret of Berkshire in the Pipe Rolls of that county in 1192,

when the autistic friend simulator and bootleg anime porn warehouse that consumed your youth and wasted your best years is actually the unwitting vanguard of a massive subterranean eruption of right wing resentment against generations of western social engineering that is just now reaching the surface of mainstream society, and that future historians will have to pick up the pieces of this cataclysmic event and write staid, carefully researched accounts of how droves of young men with no reason to plug into society were progressively disenfranchised by a feminized liberal status quo until they formed a psychic gestalt with a surplus of asabiyyah like the fucking fremen from dune, wrested control of faustian destiny back from the decadent vaginakin, and righted mankind's true path toward the stars, because they were bored and it was funny

#BREAKING: #ANC pond-scum Joseph Nkosi, the South African ambassador to #Venezuela has just committed South african troops to fight in a possible war against the United States Of America whilst adresssing a news conference on the centenary birthday of President Nelson Mandela.

It was reported on the news website #NoticieroDigital. #Venezuela currently has an inflation rate of one million percent, and at last account, the South African National Defence Force could not keep their horses alive, but these two useless counties are seemingly ready to go to war with a superpower.... For the newcummers-

Last month's satisfied customers were raving about our "pizza" and we know you will too! Repeat customers know the drill. For newcummers, first run the program given to you by your special friend and all instructions on how to enjoy this joyous hobby will be easily understandable. But please, remember the penalties for breaking the rules, which are also included in the program. Very few have broken the rules, and needless to say the penalties are harsh. All pricing is included in the app. The app will only run once, and the following requirements must be met:

- The app is to be run from your own personal computer that only you have access
- Your computer must be connected to the Internet when run
- The app must be run from your home
- You must destroy the media on which you received the app
- Remember the password that will activate the app as there will be no icons on your computer

November newcummers: 0

November's specials-

This month we have 5 fresh pizzas for your enjoyment. We also have 4 surviving pizzas from last month's session, all are on sale at an extremely low price, as they are in poor health and not expected to survive so a requirement is that you finish eating your pizza after your session.

This month's special includes a 30% discount on severe torture! Each image below is available for \$1,000 in fine print. Andrew also has some prints he would like to sell so contact him for more info (they are true masterpieces).

Dear Sir/Madam,

I hope you'll forgive my direct approach, but I was wondering whether you might be willing to consider the possibility of having access to some of your outside space for our coverage of the Julian Assange story.

We're looking to install a small weatherproof camera overlooking the Ecuadorian Embassy. We would like to rent the space on your building for access.

We would require you to provide power and we will supply some sort of router for connectivity. We would not film anybody in your building; our only interest is the action outside the embassy opposite.

We agree we would obviously pay you for your disturbance and any utility charges incurred.

If this is something you might be interested please let me know at your earliest convenience through my mobile on 07956 387733 or via my email at jonathan.whitney@bbc.co.uk.

I appreciate your time,

Kind Regards

We're going to spend the morning pretending that the US media didn't play a vital role in spreading the lies that led to the worst political crime of this generation: the invasion & destruction of Iraq? Or the worst crime of the prior generation: Vietnam? Or multiple other wars?

SALVAGE PROGRAM

Interviews with 2,021 adult Americans conducted by telephone by BSG on October 10-13, 2016. The margin of sampling error for results based on the total sample is plus or minus 2 percentage points. The sample uses a LVS based on voting history (65%), self-attestation (12%), social-media data mining (10%), demographic / socio-economic class (18%). This sample includes 1101 interviews among landline respondents and 920 interviews among cell phone respondents.

NO SKEWS OR NARRATIVE SCREENS WERE EMPLOYED

Executive Overview: Hillary Clinton Flash-Crash to 12% Favorable, Losing 19-77% Nationally

At this point Donald Trump has both momentum and enthusiasm. Distrust in the mainstream media is blunting the impact of the collective polling narrative. As Election Day approaches, Hillary Clinton's favorable ratings have crashed to historic lows (12%) in non-partisans and Donald Trump is consolidating support (97% of LV Republican-identifying respondents are either enthusiastic or very enthusiastic about voting for Trump).

Among independents, Hillary voters who are exposed to any alternative media (73%) are aware of the WikiLeaks emails and find them either disturbing (54%) or deeply disturbing (18%). Among liberal-identifying whites, support is shifting from Hillary (-27 since October 1st) to Donald Trump (78%) or Jill Stein (21%).

For voters who solely consume mainstream media only 28% are aware of the WikiLeaks emails and of those, only 8% are aware of the content. For these voters Clinton leads Trump by +8.

Minority voters are less likely to consume alternative media (only 14%) and are less likely to be aware of the email leak (only 18% for males, 9% for females). Even with this group, enthusiasm is down 63 points compared to October 2008.

On other fronts, the counter-narrative is failing as well. Most heavy consumers of social media understand that the allegations against Donald Trump of sexual misconduct have largely been debunked (77%). We understand that communications strategies in that space have been unable to reduce the impact of this messaging. Worse, among white males in telephone polling 93% of them either approve (72%) or strongly approve (21%) of Donald Trump's hot-mic tape.

Only 39% of women approve of them however a majority (64%) say they 'understand that confident men talk that way.' In effect, these allegations have been diffused.

On a positive note, most respondents who were liberal-leaning (83%) or Independent (59%) were unaware of the messaging front concerning Bill Clinton's sexual misconduct. While the vast majority (88%) were aware of consensual extra-marital relationships, the mainstream media approach to the stories has left only 8% of liberal-leaning voters and only 19% of independents aware of the allegations of rape.

On a disturbing note, some 70% of Republican-leaning voters are aware busied-in voting, false-face operations, and dead-man's-party registration drives. This may necessitate severe strategy changes for November.

Top-Line Numbers

At this point Donald Trump has both momentum and enthusiasm. Distrust in the mainstream media is blunting the impact:

Voter Category	Sept 28-30 2016	Oct 5-7 2016	Oct 10-13 2016

II. Trump Voters are Virtually Unstoppable

Where 11% of Hard Clinton supporters could be dissuaded from voting by a strong storm and 17% would balk at a 90 minute wait, Trump's strong support only diminishes in the events of catastrophic attacks on America. Some demographics (blue-collar white men between the ages of 30 and 64) were *more* likely to say they would vote in the event of an active riot standing between them and the ballot. No Clinton supporters made it past the Q20 screening question while 74% of Trump voters moved to question 21.

Q19 [Hard Clinton support] What events could stop you from voting (LV Voter Screen)

III. The Public Has Lost Faith In Polling

Poll-driven narratives have been pushed too far, alienating most of the voting population. The use of polls as a psychological weapon has also been noticed (especially on social media). As the poll-gap narrative becomes ever more extreme, obvious visible evidence (rally-size, yard-signs, bumper-stickers, memes / social-media posts) becomes more and more obviously contradictory. Attempts at shaming outspoken poll-deniers such as Bill Mitchell on Twitter have failed in 2016 where they succeeded (Dean Chambers) in 2012. We are in uncharted territory.

Even hooks into non-philosophically compromised pro-Republican polling outfits such as FOX, Rasmussen, and Gravis have not produced substantial results.

Q34 I trust polling to

Provide an accurate overview of the race	11%
Provide a general point-in-time assessment	13%
Provide pro-Democrat propaganda	56%
Be damaged, misleading, or absurd	14%

Social Media	31%
My gut instincts	21%
Donald Trump	29%
Hillary Clinton	1%
Not sure / other	3%

Q36 [Strong Trump Support] Least trusted polling outfit

Public Policy Polling - I was insulted by them on Twitter	51%
Monmouth University - They have <u>never</u> called me	17%
Quinnipiac - Cannot pronounce name, can't trust	13%
Rasmussen - They caved in after 2012	2%
Nate Silver - He cheats	14%
Not sure / other	3%

Salvage Options (Recommendation & Alternatives)

We have analyzed a number of potential salvage options and have a strong recommendation.

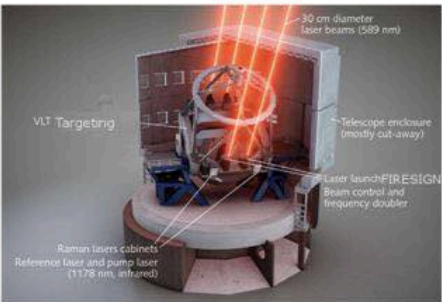

Non-Recommended Salvage Options

Optional Scenario	Notes	Risks / Issues
Red Dawn	Support is too wide-spread. While an RD scenario using UN forces and Canadian-border infil would be effective in shutting down northern voting, it would simply delay the inevitable and result in hardened support for Mr. Trump.	Loss of property (& life) Alt-Right forces are prepared for battle
Cobalt Rain	The public has been primed for radiological attack and stockpiles have been positioned but while the psychological impact of a Co-60 weapon is severe, the threshold of opportunity may have passed for this to stop a vote.	Loss of profit under martial law. Leaks could compromise
BLRiot	Again, while staged civil unrest could prevent pockets of America from voting, the damage is too wide-spread.	Command and control is dicey at this point as substantial numbers of employed minorities have defected to Trump
Zikpocalypse	Improved strains of ZIKV have been delivered and we have disseminated them to operatives. Unfortunately this will suppress women voters more than men (even as ZIKV ₂ is lethal in adults). This would hurt Hillary Clinton and Trump voters are willing to risk lethal pathogens to vote	Post-election control
Sharia Escalation	States have blocked key immigrant operatives. Without the required Muslim-Islamist population in place, the IE plan will not be sufficiently impactful.	LEO is pro-Trump and will not roll over due to Muslim demands of political correctness
Unnatural Disaster	HAARP is in skeleton crew mode. Subterranean thermobaric devices in fracking mines are untested. Surveys suggest this might not stop Trump voters	Unproven techniques / unintended consequences Reactivating HAARP may have PALE HORSE PROTOCOL ramifications

Recommended Salvage: FIRESIGN

For almost two decades the Department of Defense and NASA have coordinated on a black book project under the codename FIRESIGN. FIRESIGN's aim is to create a religious "awe effect" in enemy populations to create an instantaneous psychological soft-kill (abject submission). The operation uses high powered lasers to project real-seeming images on the sodium layer 100km above the surface. These images can cover hundreds or even thousands of square miles and can appear completely real, three dimensional, and can move.

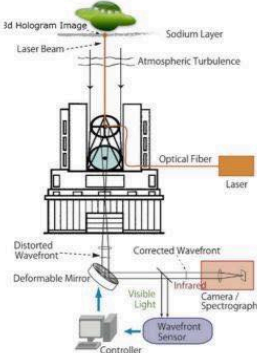

These visual cues are augmented with pulsed ELF electromagnetic emissions (see: PROJECT SANGUINE) that attack the specific areas of the prefrontal cortex that are stimulated during religious experience. In limited tests, subjects have been able to be overwhelmed on both axis of vastness (an overwhelming of the subject's frame of reference) and a powerful need-for-accommodation. The mix of these two will produce inaction, lack of focus on self or individual interaction, and gross transformations in mental equilibrium (a Road-to-Damascus Experience).

SALVAGE PROGRAM

The ability to produce these effects across 23% of the continental United States is the objective of FIRESIGN and field tests in the Levant have proven successful.

The FIRESIGN scenario is that of an invading extraterrestrial force of nearly incomprehensible scale (massive floating cities descending, god-sized "walkers" among the clouds with terrifying weapons, wheels of fire and eyes, etc.). This phenomena, when activated will bring electoral and social systems to a halt and, in afflicted areas, will permit a narrative wherein POTUS is able to "Call a halt" to the invasion and then "hand over the torch" to Clinton, providing a basic continuity of state.

AFTERMATH

The aftermath of FIRESIGN will be the psychological subjugation of areas where uprisings are most likely to occur. The induced trauma of FIRESIGN will provide ample cover to government and NGOs who will be "providing aid" (psychotropic to induce docility) and counseling services which will ensure further domestication.

FIRESIGN will require a great deal of power, mobile command stations with nitrogen-cooled super-computers, and the co-opting of the ELF arrays. We have created a schedule and teams roster that can be moved into position following the third debate.

You think this is a racial issue?
 Some cultural components across the board play a role.
 But this crosses all races, religions, job roles and ages.
 This is a systemic problem.
 It affects us all.
 It is prominent in every council estate, every corner of government, every sector of business, every race, every religion.
 The issue we face is how to tackle it.
 If you cannot accept the reality and scope then you cannot understand the needed solutions.
 An Elite crack team should be created to target ALL paedophiles nationwide needs to occur with special attention paid to elite networks who have been trafficking, raping and murdering children for many, many decades with trusted citizen patriots and military specialists over seeing it.
 The grooming gangs will also be targeted by the same crack team relentlessly from day one.
 The dark web should be outlawed and taken down.
 The mandatory death penalty should be brought back for paedophiles.
 ALL powers of the state should be used to target all paedophiles ESPECIALLY those in positions of power and influence at all levels.
 Thousands of Council members/social workers/judges/courts have allowed this abuse to occur.
 From artificial council budget increases to personal profiteering to the domestic local trafficking & elite international rings, paedophiles in every level of our governmental infrastructure have allowed this evil to flourish.
 Why are members of the Royal family actively involved in child sex trafficking?
 Why are current serving members of the house of lords & commons covering up child sex trafficking, kidnap, rape & death of innocent children and some even participating in it?
 Why are intelligence agencies foreign & domestic using videos of prominent politicians having sex with children as blackmail?
 Why are there over 150 convicted political paedophiles?
 Why is the percentage so much higher than almost any other realm of work?
 Why would those who are meant to protect us follow orders to investigate nonsense crimes and not to investigate the most heinous of criminals in many cases?
 Why are so many cases of child abuse investigations completely ruined by 'not following basic procedures'?
 Why would their superiors not intervene?
 What correlation exists between political parties in power locally and nationally, timeframes of abuse and areas we know grooming gangs and paedophile rings have operated without any oversight?
 Who are the guardians of child welfare?
 When a child get's put in care what record exists of this and where is it stored?
 How many children in care end up being involved in sex work and trafficking?
 How long has much of this been known about?
 Why has nothing been done to stop it?
 What financial accounts exist with regards to child sex trafficking rings?
 Where are they held?
 How do Ofsted profit from care targets?
 How many children go missing from the care system each year officially?
 Unofficial estimates?
 12 Tunnels.
 4 major cities.
 "Not in use"
 West/North/South not East.
 Who was Victor Rothschild?
 What happened to the castle dossier officially?
 Who in special branch took it?
 Who holds a copy now?
 We cannot afford to drop prominent names until exposure large enough too warrant full state apparatus pointed in our direction.
 Many other current operations would be put in jeopardy.
 Motherload.
 Choice is yours.

**Pema Chalmers**

He is an exceptionally dangerous man who is causing untold mystery for so many. It goes way beyond these children too. Which he is now blaming Democrats for! 🙄 He just lies and is totally ok with that- but frightening thing is that he has enough people brain washed they actually believe anything he says.

Does the 'woman' that masquerades as a Queen and a Christian, who kills with complete immunity in the name of God accept my kind offer of redemption and salvation, in exchange for complete control of the commonwealth, or would it be preferable for her to be dragged out into the streets and

burnt alive, as is the historical punishment for this scale of deception?

https://twitter.com/British_Fight

Then, and only then, will we have peace on earth as it is in heaven, which assuredly, will include knowledge of significantly more advanced lifeforms, you know, ones that haven't taken 1000's of years to figure out that there is a spiritual component to their identity, based in consciousness.

I'm a 47 year old occult scientist, systems theorist, mystic, Mage and information war specialist. I am allied to no country or religious doctrine and my only allegiance is to God Almighty, then Israel.

<https://tinyurl.com/ydfeyjg5> (Research)

My doctrine is unconditional love, knowing God to be a network of consciousness with horizontal and vertical dimensions.

I've contacted the MP's several times and gone to the Houses of Parliament as well, the last time I couldn't even get in. The irony. I'm sure my Brothers and Sisters in Israel will welcome me as something I thought I would never be, a humble King of Kings..

“There is something much more shattering than inflation, however, and that is the mass of floating money whirling about the Earth in an orbital rondo. Money is now the only genuine artificial satellite. A pure artifact, it enjoys a truly astral mobility; and it is instantaneously convertible. Money has now found its proper place, a place far more wondrous than the stock exchange: the orbit in which it rises

and sets like some artificial sun... (p. 33)

The burning rituals at the top of the global power structure serve a much deeper function, to show the immortality of the soul, seen to leave the body during death by burning, with the sun as a recycling mechanism.

Seriously, why is there absolutely no reporting on this? You have an unauthorized missile launch, AND AF1 just happens to be airborne at the time? Can anybody confirm that this indeed was the case?

The President of the United States trusts the word of a former KGB agent over the consensus of the American intelligence community backed by a ton of facts. That is a shocking reality. Everyone who excuses Trump's behavior must answer that now, and when history inevitably judges.

But the best thing is, I actually saw the fiery rituals at the top of the global power structure.

You lucky people are the first to hear the big reveal.

A most peculiar vision, which seemed to emphasise the immortality of the soul, in exchange for material gain.

Needless to say, i immediately recognised the historical context too.

Which was the novel use of what appeared to be some sort of pizza ovens that were being used to

burn live babies to death in little baby coffins.

Let that sink in.

Same old story.

This is the pinnacle of material gain. Burning live babies to death.

As I said before, I will be the only one to stop Elizabeth being dragged into the streets and burnt alive, as is the punishment for this level of betrayal.

VI. Concerns of Weiner Case Agent and Conversation with SDNY AUSAs on October 19

As early as October 3, the case agent assigned to the Weiner investigation expressed concern that no action appeared to be occurring with regard to the Clinton emails discovered on the Weiner laptop. He began documenting these concerns in contemporaneous emails and also discussed his concerns with his supervisor and the SDNY AUSAs assigned to the Weiner investigation. In an October 3 email, the case agent stated that a "significant number" of the emails on the Weiner laptop "appeared to be between Huma Abedin and Hillary Clinton (the latter who appears to have used a number of different email addresses)." The case agent also noted in that email that he was "obviously" unable to "review any emails

¹⁷⁰ "Data carving" is typically the last phase of processing an electronic device and involves recovering files and data that have been either deleted or no longer contain complete metadata.

to which Anthony Weiner is not a party (such as emails between Ms. Abedin and Mrs. Clinton)." The October 3 email was serialized and inserted into the Weiner case file in Sentinel, the FBI's case management system, on October 5.

The case agent told the OIG that no one had contacted him about the laptop and, as the case agent, "the only person who has the authority to release that laptop's image is me." The case agent explained his growing concern by stating:

The crickets I was hearing was really making me uncomfortable because something was going to come crashing down.... And my understanding, which is uninformed because...I didn't work the Hillary Clinton matter. My understanding at the time was I am telling you people I have private Hillary Clinton emails, number one, and BlackBerry messages, number two. I'm telling you that we have potentially 10 times the volume that Director Comey said we had on the record. Why isn't anybody here? Like, if I'm the supervisor of any CI squad in Seattle and I hear about this, I'm getting on with headquarters and saying, hey, some agent working child porn here may have [Hillary Clinton] emails. Get your ass on the phone, call [the case agent], and get a copy of that drive, because that's how you should be. And that nobody reached out to me within, like, that night, I still to this day I don't understand what the hell went wrong.

The case agent told us that he scheduled a meeting on October 19 with the two SDNY AUSAs assigned to the Weiner investigation because he felt like he had nowhere else to turn. He described AUSA 1, the lead prosecutor, as a friend. He added, "I felt like if I went there and [AUSA 1] got the attention of Preet Bharara, maybe they'd kick some of these lazy FBI folks in the butt and get them moving." The case agent stated that he told the AUSAs in detail about the emails he had seen between Clinton and Abedin. He continued:

And I told her, I'm a little scared here. I don't know what to do because I'm not political. Like I don't care who wins this election, but this is going to make us look really, really horrible. And it could ruin this case, too. And...I said the thing that also bothers me is that Comey's testimony is inaccurate. And as a big admirer of the guy, and I think he's a straight shooter, I wanted to, I felt like he needed to know, like, we got this. And I didn't know if he did.

The AUSAs both told us that the case agent appeared to be very stressed and worried that somehow he would be blamed in the end if no action was taken. AUSA 1 stated that the case agent worried that the information relating to the Clinton emails had not been provided to the right people and AUSA 2 observed that the case agent "was getting, for lack of a better word, paranoid that, like, somebody was not acting appropriately, somebody was trying to bury this."

Teaching maths perpetuates white privilege, says university professor

"On many levels, mathematics itself operates as Whiteness. Who gets credit for doing and developing mathematics, who is capable in mathematics, and who is seen as part of the mathematical community is generally viewed as white."

Regents Drop Teacher Literacy Test Seen as Discriminatory

BY KATE TAYLOR | MARCH 13, 2017

The Board of Regents on Monday eliminated a requirement that aspiring teachers in New York State pass a literacy test to become certified after the test proved controversial because black and Hispanic candidates passed it at significantly lower rates than white candidates.

The Regents also moved forward with a proposal that would allow some students who failed another test, aimed at evaluating practical skills like lesson planning and assessment, to be certified as teachers based on their grades and professors' recommendations.

Together, the steps signal how much the Regents' approach has changed under the current chancellor, Betty A. Rosa, after several years of efforts to raise the bar for entering the profession.

Under the previous chancellor, Meryl H. Tisch, the state created a set of more rigorous licensing exams. Among them was the Academic Literacy Skills Test, or ALST, which was intended to assess reading and analytical writing skills, and the ePTA, which requires candidates to submit a portfolio of work, including unedited videos of them interacting with students.

Meghan to fight for feminism

Palace gives its blessing to new Duchess of Sussex championing women's rights in her royal role

By Hannah Furness and Hayley Brown
MEGHAN MARKLE has been given the blessing of Buckingham Palace to use her position to fight for feminism, as she plans her life as the newest member of the Royal family.
Ms Markle, who will now be known as the Duchess of Sussex after her wedding to Prince Harry, is expected to announce which charities and campaigns she will support when she returns from her honeymoon.
However, her official biography posted on the royal family website yesterday suggested that she will use her role to champion feminist causes as it highlighted that she is "proud to be a woman and a feminist".

It adds: "From a young age, The Duchess had a keen awareness of social issues and actively participated in charitable work. These early experiences helped to shape her lifelong commitment to causes such as social justice and women's empowerment."
The Duchess will immediately join her new husband, and is-blessed the Duke and Duchess of Cambridge, at the new Royal Foundation.
The prominent inclusion of such causes on the official Royal family website indicates the charitable direction the new Duchess plans to take. She has been working behind the scenes for months to create a blueprint for her focus as a working member of the Royal

family, which could also involve her promoting the work of the Diana Award for youngsters who champion social change.

She told guests at her wedding reception that she would "love" to get involved in their campaign work, saying: "That's why I am here, bring it on."
The Duke and Duchess of Sussex rest-every left Windsor Castle to begin married life, delaying their honeymoon in order to return briefly to the public eye tomorrow for the Prince of Wales's 70th birthday garden party.
They are expected to begin their honeymoon later this month, before returning to a full schedule of overseas visits, including trips to the Netherlands and Australia, and charity work closer to home. The Duke paid moving tribute to his wife at their reception, praising her "grace" and telling her: "I

can't wait to spend the rest of my life with you."

In keeping with her beliefs on gender equality, the Duchess went on to make her own speech during a private evening reception in which she expressed her love for the Duke, and her joy at being welcomed into his family.
The groom and his best man, the Duke of Cambridge, are said to have paid tribute to their life mother, Diana, Princess of Wales, in moving speeches to their closest friends.
The wedding was hailed by American media as a breakthrough in British race relations, according to *The New York Times*. Yesterday, the Duchess donated the wedding flowers to charities and hospitals for others to enjoy, with her bouquet being laid, as per royal tradition, at Westminster Abbey's grave of the Unknown Warrior.

US calls a truce in its trade war with China
The United States has put its growing trade war with China "on hold" after the two countries agreed a deal in which Beijing will buy more American goods and services. A statement issued by the White House following a fortnight of talks said China would "significantly increase purchases" from America, "substantially reducing" the trade deficit between the two countries, while in turn it would halt tariffs. The US Treasury did not provide any precise figures.

Abramovich visa delay amid oligarchs review

The Home Office is yet to renew Russian Abramovich's UK visa after the Government ordered a review of the immigration status of hundreds of wealthy Russians living in Britain. The billionaire owner of Chelsea Football Club applied for a renewal when his visa expired last month but had not yet received a decision, a source told *The Daily Telegraph*. The source said the process was taking longer than usual but there was no suggestion the visa would be denied.

Conte calls for squad overhaul at Chelsea

Antonio Conte has warned Chelsea they must overhaul their squad if they are to improve on this season - whether or not he is sacked as head coach. Gary Cahill, the club captain, led the calls for clarity over Conte's position last night. The Italian is waiting to find out if he will lose his job, despite securing some consolation for missing out on the Champions League by beating Manchester United in the FA Cup final, thanks to Eden Hazard's first-half penalty.

Coleman told us that he kept regularly took notes in a journal. Coleman's notes from October 4 contained the following entry:

- (1) Anthony Wiener [sic]
- (2) [Unrelated]
- (3) Wiener [sic] – texting 15 yo – Sexually Explicit
9/26 – Federal SW – iPhone/IPAD/Laptop
Initial analysis of laptop – thousands emails

Crime Against **Children**

We asked Coleman about these notes and he told us that, given their placement in his notebook, the notes would most likely represent information he was briefed on first thing in the morning by his subordinates in the Criminal Investigative Division. Coleman stated that he may have passed this information to other FBI executives after the morning briefing with the Director, but he could not remember if that occurred here.

the Weiner laptop on September 27. Similar communication was also occurring between higher levels of NYO and SDNY. On September 27 at 3:30 p.m., the A/SAC and SDNY Deputy U.S. Attorney Joon Kim spoke by telephone. The A/SAC's notes stated, "Spoke with Joon Kim who advised we need to be very careful looking at that server because it is apparently a shared computer with Huma. SDNY will provide protocol and guidance." Similarly, Kim emailed prosecutors and supervisors at SDNY after the call, "I just got a call from [the A/SAC] about what to do with his computer in light of the facts that there are lots of emails, etc. including what appear to be [Abedin's]. We need to come up with a clear protocol."

The AUSAs provided written guidance to the case agent about how to handle review of the laptop. In a September 28 email to the case agent and the SSA, AUSA 1 advised that the case agent should review "only evidence of crimes related to the sexual exploitation of **children**, enticement, and obscenity" and instructed the case agent "that all emails and other communications between Anthony Weiner and Huma Abedin (even if there are other parties to the communication) should be sequestered and not reviewed at this time." The case agent agreed and responded that the "[o]nly emails I will review are those to/from Weiner accounts to which [Huma Abedin] is not party."

ILLUMINATED REASON VS TERRESTRIAL SCIENCE AND RELIGION

The folly of man is in believing that he has ever been master of his own destiny and not author of his own downfall.

The sheer arrogance in believing he can describe the universe with 10 numbers and 26 letters is incredible, when in fact, all he can necessarily do is describe the neurolinguistic structures of his own mind. The view through a telescope or microscope, nothing more than a reflection of his nervous system.

(Describing reality is not reality itself).

The fall of man is in believing the superiority of his language and numbers (scientific materialism) over the metaphysical world, only to be confronted by his own fiery collective consciousness, his knowledge of good and evil manifest in plain defiance against his true father, no doubt aided by some chemical wizardry.

(The original sin of choosing physics over metaphysics)

THE FORCES OF DARK AND LIGHT ON THE MATERIAL PLANE

Consequently, all major global conflicts since the start of time have been directed by the folly of man, driven by man's fear of God and not his love of God. The consensus reality presented to us by a broken, corrupt and failing mass media is a direct reflection of man's folly. Kings, Queens and Presidents, lost on the material plane, the forces of history having always been spiritual.

THE ROLE OF ISRAEL

Despite being hounded and persecuted throughout history, the only 'crime' of my Brothers and Sisters in Israel has been to show the folly of man. The upside down of the downside up. In many ways, Israel has always represented the material plane, a disproportionate control of the money system and the world stage, in many ways pandering to the fall of man. But there has never been a Jewish conspiracy of any kind, the only real conspiracy is of man against his creator. But I'm pretty sure that Israel is also a springboard so that during our next stage of human development our connection with a wider cosmos is based in spirit rather than material.

THE SECRET OF THE HOLY TRINITY

A superluminous spark of consciousness. that when activated, rewards with an incredibly detailed snapshot of the whole cosmos, from beyond the Sun and the Moon. A universe full of life, unfortunately out of bounds due to man's demented belief that he somehow rules the universe, when it has taken him thousands of years to realise that there is a spiritual component to the human identity, together with a source creator. A disaster of cosmic proportions.

THE WRONG SIDE OF HISTORY

As it stands at this moment in time, Elizabeth, together with all the Kings and Queens of Europe and the Gulf States are

not just betrayers of their respective religions,
but betrayers of humanity,
fabricators of science and reality.

All for a few shekels more.

Not one political or religious leader worldwide has or could ever be anointed by God, or has ever had the authority to take another person's life. The money system itself is nothing more than a slow motion soul harvesting machine, the babylonian money magic in the form of human sacrifice at the top of the pyramid, the immortality of the soul revealed. The first iteration of God as a network of consciousness that is faster than our instruments, showcasing man's ability to see beyond his physical form, just when he is least expecting it.

(All points are reconciled)

THE RIGHT SIDE OF HISTORY

We learn some individual and collective humility, learn to love ourselves and other people without fear and prejudice. We turn away from chasing our own demons in the shadows, into the light. I too have sinned many times, so your redemption is also my redemption. We learn our true history, knowing that there are very many deeper resolutions to reality, beyond language and reason, all united by consciousness and not material.

THE VICTORY OF THE LIGHT (A DOUBLE BIND IN TWO PARTS)

For 18 months, I've been blessed with enough Divine and Holy Knowledge to annihilate every religious doctrine and scientific paradigm to dust, together with all the world's 'religious' leaders, together with collapsing the soul harvesting global economy.

But power without control is a weakness, not a strength. Vengeance and violence is never the answer.

I see the double bind humanity is under with total clarity, a car crash of cosmic proportions, but nevertheless, I am under a double bind too. We can die in a petri dish, lost in our folly or we can reset the system, unify and then our eternal legacy on the crumbling world stage will be as the bringers of a golden era for humanity (and a wider cosmos) rather than the killers, human traffickers and child rapists than occupy the upper echelons of the global power structure. But the double bind I am under is a level of knowledge that I never thought I would ever attain, which, in many ways, could plunge this whole planet into a full on nuclear war.

“There is a thinking in primordial images, in symbols which are older than the historical man, which are inborn in him from the earliest times, eternally living, outlasting all generations, still make up the groundwork of the human psyche. For some reason I keep coming back to it, because of the power it seems to contain, or the way it gets my mind working to connect all the pieces of history and sacred text to get a higher viewpoint on reality. Is it meant to be a sort of hero's journey / awakening / christ consciousness thing? It is an effective mystery nonetheless.

Who is making this stuff? Is it an ARG? Was it generated by an AI or algorithm? The reason I ask is because it repeats the same things a lot in different ways, almost like hypnosis, lots of themes of reflection, the reflected text has the appearance of a

Wisdom. When I share something wise I have learnt, I like to credit those who taught me, not pass it off as my own. That's why I mention the Buddha or my teachers or whoever has taught me. Not to convert anyone to Buddhism. It is also a fab way to protect myself from my own ego galloping away with me, claiming 'this wisdom' is mine'. That is like saying this air that I am breathing is mine. It's not, it just is. Actually wisdom belongs to nobody and everyone. Wisdom just is and when we resonate and recognise it from the outside it's because we have it on the inside too. Otherwise we couldn't recognise it. Outside, inside - it's one of the same. Nobodies and everyones. But citing my sources stops me thinking I have something others don't. Or kidding myself I am 'more special' - which is frankly just nauseating. We all know this stuff, we just keep forgetting. ❤️

fearmongering vs. reality

repubgrlprobs

"IF TRUMP WINS..."	BUT REALLY...
...he'll lead us into war	within 48 hours, Russia & Syria both announced their desire for peace with the U.S.
...women will lose their rights	Trump made U.S. history by having the first woman to successfully manage a presidential campaign
...we'll live in fear for our safety	the only danger to public safety now is mobs of angry liberals rioting in the streets
...the economy will die	the DOW has now hit record highs and the dollar is at a multi-decade high
...immigrants aren't welcome	we have the first ever non-American born First Lady

If you voted for Hillary You are scared

Because for the last five months you have been a victim of the biggest propaganda scheme in U.S history.

Mainstream Media spent nearly ten billion dollars creating a safe space, a pro-hillary echo-chamber on TV, on facebook, on twitter, in your favorite newspaper. They rigged polls with massive oversampling, completely censored trending news articles and pro-trump #hashtags from social media, paid thousands of people to post pro-hillary comments and pretend to be "Normal" voters.

They blatantly one sided every source of news you trusted and relied on to be an informed Citizen.

So when trump won, you were blindsided, you had absolutely no clue he had as much support as he did. The media said he was evil, racist, sexist, a sexual predator, hitler, satan himself. They said he had less than a 1% chance of winning.

**You are scared
for the same reason that he won.
The Media Lied To You.**

I mean half the world thinks that wearing pussy hats and calling everyone a nazi will somehow defeat the mythical 'patriarchy'

23 April 2018 15:58

Jon James Pratt

Nor am I religious in any way, although I have first hand experience of a unifying force, based in consciousness that permeates all reality.

Because, incredibly, my consciousness had the memory of it's journey, I saw that all of us have this knowledge within.

23 April 2018 15:53

Jon James Pratt

Consciousness itself seems to be a mixture of hologram and a fractal. It contains the whole within.

23 April 2018 15:51

Jon James Pratt

But then again, with science and language all we can necessarily do is describe the neurolinguistic structures of our own minds. Not an end in itself.

23 April 2018 15:44

Jon James Pratt

All of this knowledge was from my analysis of the Angloamerican/Israeli occult rituals I 'found'.

23 April 2018 15:42

It is a perfect storm in every way.

23 April 2018 10:42

Jon James Pratt

But the seemingly innocuous revelation that our political and banking worship their own fiery collective consciousness manifest (symbolically referred to as the Ark of the Covenant), taken to it's logical conclusions, means, despite having all the money and power in the world, they are compromised by this superior higher knowledge, the legacy of 'scientific materialism' being this fictitious soulless artefact we have created, in defiance of a universal spirit that permeates all reality.

It's the deluded belief that we are collectively masters of our own destiny, when in fact, we have only ever been authors of our own collective downfall.

And to be clear, I've never read any David Icke books or any like that.

21 April 2018 09:34

Jon James Pratt

Consequently the simulation is in defiance of the supreme creator (no beard, nor is she black) which takes the form of a universal consciousness that permeates all material.

21 April 2018 09:32

Jon James Pratt

The seemingly tiny revelation that our political elite see their own collective consciousness manifest is in fact the reason we have wars. The closer you look, this very powerful network of power and their enabling mass media represent the forces of dark and light on the material plane, unsurprising given they are both the good and the bad guys.

21 April 2018 09:30

Jon James Pratt

Or to put it simply, the Big Bang is not only conscious, but contained within all of us.

21 April 2018 09:26

Let me be very very clear, 16 months ago, after years of meditation (paintings), studying information, the material I 'found' was strong enough to 'pop' my consciousness totally out of my body and literally give me a complete view of the whole 'system of systems'

Maybe you can help me fill in the gaps.

The website you reference, eht namuh, I have read through it extensively and also web crawled, which I discovered over 2000 html pages adding up to over 3 gigabytes. That's huge! The amount of text here rivals the Encyclopedia Britannica.

I had quite a "moment" you might say, upon the second or third time digging into the material. Whoever did this must be having a chuckle

did this must be having a chuckle right now. I'm pretty sure something was indeed "evoked" in my mind. For some reason I keep coming back to it, because of the power it seems to contain, or the way it gets my mind working to connect all the pieces of history and sacred text to get a higher viewpoint on reality. Is it meant to be a sort of hero's journey / awakening / christ consciousness thing? It is an effective mystery nonetheless.

Who is making this stuff? Is it an ARG? Was it generated by an AI or algorithm? The reason I ask is because it repeats the same things a lot in different ways, almost like hypnosis, lots of themes of reflection, the reflected text has the appearance of a

The global project is totally finished. Sold as an egalitarian and utopian fiction, where all creeds and genders are united, when the hard reality of it is a planet with a debt 3 times the global economy, the reduction of the human unit as a slave to this violent and corrupt system, commerce being the binding agent of humanity, an altogether soulless affair.

The soul is eternal, recycled by the sun ☀️. Our consciousness exists on many levels, in it's lowest form, manifest as a fiery collective spirit behind the curtain of history. In it's highest form, as a beam of unbroken light, the essence of granularity itself, manifest as a universal consciousness that permeates all material. The past, present and future as one.

To those late to the party, about 14 months ago, I analysed some documents I 'found' on a server, which upon studying, fitted the criteria for a Gregory Bateson 'system of system'. To say that he material had a very peculiar effect on my worldview is an understatement.

I have explained in detail, particularly in the 'precession of the equinox' document, through the hyperlinks how my worldview changed so drastically overnight.

Even the incredible power of a complicit mass media will not be able to stop the complete failure of the Anglo-American establishment (primarily pro-Israeli and anti Trump/anti Corbyn).

In as far as I can tell, the only conspiracy that has ever existed is the incremental concealment and reveal of a spiritual plane.

So our demented politicians and their surrogates are treated to a surprise towards the top of the global power structure, in the form of our collective consciousness manifest.

That's why our consciousness can never be measured, in the same way that a tape measure cannot measure itself.

I've never read a David Icke book or anything like that, purely Religious, Alchemical, Mystical and media/systems theory.

@Lucie Hernandez has asked me if I am ok. I am very fit, physically, due to tennis and bmx, my only vices are the odd beer or jazz cigarette. Intellectually and spiritually I feel very strong.

21 March 2018 08:36

Looking through the podesta emails, from purely an information theorist's perspective, they are complete dynamite. The massive expose with Cambridge Analytica , 7m dollars for data, is a total nothingburger in comparison to the 1.2 billion spent by Clinton, including documented and verifiable collusion with directors of Facebook and google.

We can choose to front some uncomfortable truths or we can dwell in comfortable lies.

By not reading these very very real emails, you will never understand this historical moment, because many of you seem to be under the illusion that the mass media is somehow a credible source. Probably the same mindset that thinks people like Clinton somehow represent women or progress.

The mental gymnastics involved are absolutely incredible.

Does anyone seriously consider, after reading the emails, that somehow white supremacy or fascism, and not Internet, won the American Presidential election?

Maybe you can help me fill in the gaps.

The website you reference, eht namuh, I have read through it extensively and also web crawled, which I discovered over 2000 html pages adding up to over 3 gigabytes. That's huge! The amount of text here rivals the Encyclopedia Britannica.

I had quite a "moment" you might say, upon the second or third time digging into the material. Whoever did this must be having a chuckle

did this must be having a chuckle right now. I'm pretty sure something was indeed "evoked" in my mind. For some reason I keep coming back to it, because of the power it seems to contain, or the way it gets my mind working to connect all the pieces of history and sacred text to get a higher viewpoint on reality. Is it meant to be a sort of hero's journey / awakening / christ consciousness thing? It is an effective mystery nonetheless.

Who is making this stuff? Is it an ARG? Was it generated by an AI or algorithm? The reason I ask is because it repeats the same things a lot in different ways, almost like hypnosis, lots of themes of reflection, the reflected text has the appearance of a

sound wave that sort of reminded me of the Aricebo message we sent from Earth to another galaxy, and some of the pages are literally miles long with text and gematria that seem like it would be quite an undertaking for any one human, let alone an old man like David Denison.

I also recognize some pages have text going down the page in rainbow color, and the color is meticulously coded into the html page line by line (perhaps generated by a script?). There are a number of pages like this. It doesn't seem like Rob or David are producing this stuff themselves, and it doesn't help that Rob is vague about it. Based on the material and attempt to find a "magickal alphabet" through numbers, it's almost as if an AI or alien is attempting to understand humanity and converse with us on our wavelength, and I do see some of David Denison's artworks being recycled (filtered in several different ways and posted again and again) by something that looks similar to Google DeepMind. I'm also seeing the possibility that there are bots having conversations on the eht namuh forums... Hard to pin down.

I also have several other theories about it.

Consciousness in Perspective. Having ascertained that human consciousness is able to separate from physical reality and interact with other intelligences in other dimensions within the universe,

and that it is both eternal and designed for ultimate return to the Absolute, we are faced with the question: "So what happens then?" Since memory is a function of consciousness and therefore enjoys the same eternal character as the consciousness which accounts for its existence, it must be admitted that when consciousness returns to the Absolute, it brings with it all the memories it has accumulated through experience in reality. The return of consciousness to the Absolute does not imply and extinction of the separate entity which the consciousness organized and sustained in reality. Rather, it suggests a differentiated consciousness which merges with and participates in the universal consciousness and infinity of the Absolute without losing the separate identity and accumulated self-knowledge which its memories confer upon it. What it does lose is the capability for generation of independent thought holograms, since that can be done only by energy in motion. In other words, it retains the power to perceive but loses the power of will or choice. In exchange, however, this consciousness participates in the all-knowing infinite continuum of consciousness which is a characteristic of energy in the ever present. Consequently, it is accurate to observe that when a person experiences the out-of-body state, they are, in fact, projecting that eternal spark of consciousness and memory which constitutes the ultimate source of their identity to let it play in and learn from dimensions both inside and outside the time-space world in which their physical component currently enjoys a short period of reality."

But the best revelation of all is the role of Israel (everyone's favourite oppressor) and it's claim to be doing God's work.

Despite being partially motivated by the Palestinian's cause and the general subservience to Israel, the inescapable conclusion is that they definitely are doing that.

Because when I accidentally on purpose found the occult documents, I knew exactly what they were.

After just 6 weeks of study and deep meditation, in the moment I 'saw' exactly what the demented politicians see at the top of the global power structure, which consisted of fire dancing around with additional sound effects which incredibly consisted of an extremely resonant and booming 'God is

real'. I.e. A sentient universe.

That's why I am very optimistic about the future. You see, these lost children (Cheers to Leibniz for that one) are only behind the veil of history because they are totally compromised by all sorts of shenanigans, particularly human trafficking, child raping and even more abhorrent things.

Or these demented criminal politicians and their media surrogates that have left the planet with. Debt that is 3 times the global economy and responsible for the death of millions of people in wars based on fabricated evidence.

"god Materialism is dead" - Physics

u/[deleted]

Some of the greatest minds in physics have known that the Universe is not a purely mechanistic, materliast, reductionist phenomena.

"Consciousness cannot be accounted for in physical terms. For consciousness is absolutely fundamental. It cannot be accounted for in terms of anything else."

"Quantum physics thus reveals the basic oneness of the Universe"

"The total number of minds in the Universe is one"

— Erwin Schrödinger

Nobel prize 1933, enormously advanced quantum physics

"As a man who has devoted his whole life to the most clearheaded science, to the study of matter, I can tell you as a result of my research about the atoms this much: There is no matter as such! All matter originates and exists only by virtue of a force which brings the particles of an atom to vibration and holds this most minute solar system of the atom together. . . . We must assume behind this force the existence of a conscious and intelligent Spirit. This Spirit is the matrix of all matter."

-- Max Planck

Nobel Prize in Physics in 1918. Birthed Quantum Mechanics.

"The first gulp from the glass of natural sciences will turn you into an atheist, but at the bottom of the glass God is waiting for you."

-- Werner Heisenberg

Nobel prize 1932, enormously advanced quantum physics

"It from Bit symbolizes the idea that every item of the physical world has at bottom — at a very deep bottom, in most instances — an immaterial source and explanation; that what we call reality arises in the last analysis from the posing of yes-no questions and the registering of equipment-evoked responses; in short, that all things physical are information-theoretic in origin and this is a participatory universe."

-- John Archibald Wheeler

Coined "black hole" to objects with gravitational collapse already predicted early in the 20th century, and coined the terms "quantum foam", "neutron moderator", "wormhole" and "it from bit".

"Metaphysical has been science's designation for all weightless phenomena such as thought. But science has made no experimental finding of any phenomena that can be described as a solid, or as continuous, or as a straight surface plane, or as a straight line, or as infinite anything. We are now synergetically forced to conclude that all phenomena are metaphysical; wherefore, as many have long suspected — like it or not — life is but a dream."

-- Buckminster Fuller

Second World President of Mensa from 1974 to 1983, architect, systems theorist, author, designer, and inventor.

"The religion of the future will be a cosmic religion. It should transcend personal God and avoid dogma and theology. Covering both the natural and the spiritual, it should be based on a religious sense arising from the experience of all things natural and spiritual as a meaningful unity."

-- Albert Einstein

Nobel Prize in Physics 1921

"Science is incompetent to reason upon the creation of matter itself out of nothing. We have reached the utmost limit of our thinking faculties when we have admitted that because matter cannot be eternal and self-existent it must have been created."

-- James Maxwell

One of the most profound physicists of all time. Greatly advanced understanding of electromagnetic fields

"God is a mathematician of a very high order and He used advanced mathematics in constructing the universe.

-- Paul Dirac

Enormously advanced quantum physics and quantum electrodynamics. Shared Nobel Prize with Shrodinger.

I'm literally just talking about a sentient universe, consciousness being the primary organisational source (as opposed to matter). Even dovetails with quantum physics too (subatomic inseparability of mind and matter)..

So despite being a lifelong 'liberal' or 'progressive' I.e left leaning, after studying the podesta emails I would have literally voted for Adolph Hitler himself before Clinton.

23 January 2018 07:59

Jon James Pratt

I mean, looking at the flagrant criminality contained in the podesta emails. Many documented examples of high treason.

The role of Israel is to show them God is real, no less. So beyond this material realm is direct knowledge of God, a whole universe full of life, with many lifeforms, all instantaneously in communication. That was the full extent of the illumination. Totally crazy, I know, but there it is.
