MIXING METAL

BREAK THE RULES

Metal accents paired with materials like stone are a stylish statement because the look lives on the edge. Whether you want a touch of shimmer or something bold, you can make waves with these unique products.

STYLE TIP

Use matte black for the largest portion of your design, like the floor, and a more complex design like the metal & marble chevron above in a niche backsplash area for a brilliant pop.

COLOR BACK TO NATURE

**SEA
TONES**

For harmonious and relaxing atmospheres, colors reminiscent of nature set the mood. Sea tones like sky blue and pale green give a space an airy and uplifting feel, while earthier tones like rich browns, deep greens, rust reds and blonds bring a space down to earth.
