Maximize earnings with these six advantages.

- 1. Fast setup
- 2. Compact to store and transport
- 3. Eye-catching
- 4. High ROI
- 5. Eco-Smart
- 6. Multi-purpose

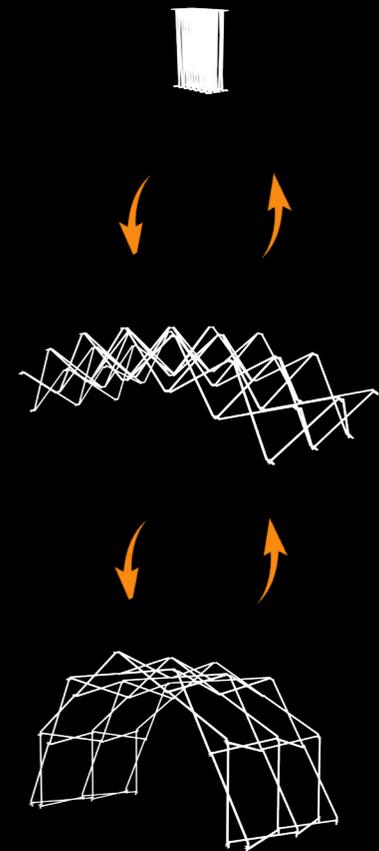

The five unique standard domes and stages.

Branding opportunities.

Your custom-made structure.

Who we are.

Contact.

FAST SETUP

Install in 15 minutes with 2 people, saving on manpower costs and serving multiple customers in a single day.

COMPACT

Efficiently transforming, our domes & stages cut storage and transport expenses.

With an impressive 170x volume expansion, there's no need for large warehouses or trucks.

From compact to deployed in less than 15 minutes

EYE-CATCHING

Unveil unmatched, eye-catching beauty
— a one-of-a-kind experience.

HIGH ROI

Invest once, achieve break-even after 8 uses, and then enjoy continuous profits with each subsequent rental.

ECO-SMART

Built to last, our sustainable structures make an impact. Choose longevity and eco-friendliness with recycled aluminum, modular components, and support for sheltered workshops.

MULTI-PURPOSE

Shape your events with limitless possibilities – our structure, your unique touch •

Turn the structure 90° and obtain a screen or wall

THE MODELS

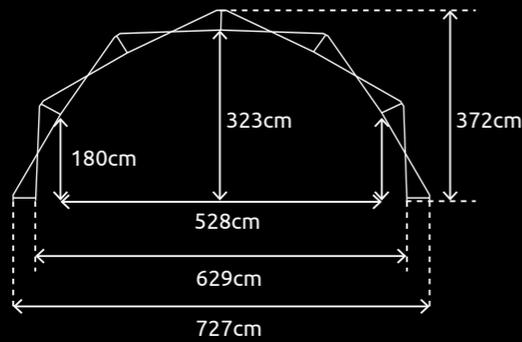

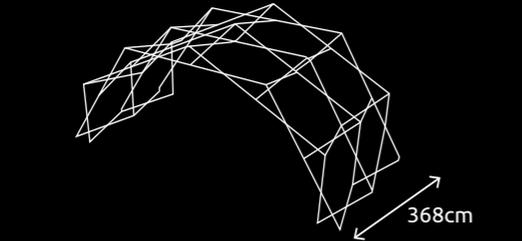

Compact size

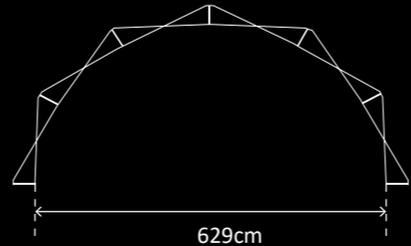

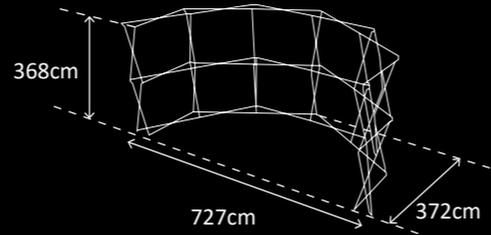

86cm x 39cm x 173cm

Flawlessly interchangeable

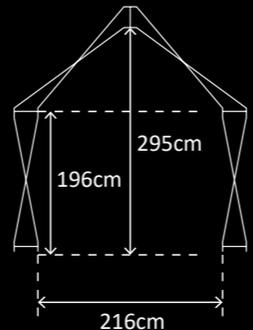

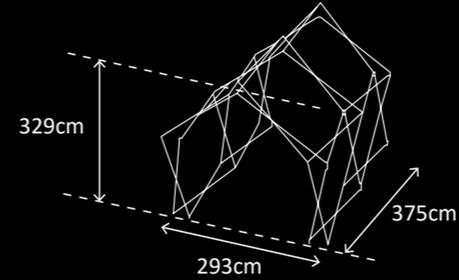

FASTIVAL

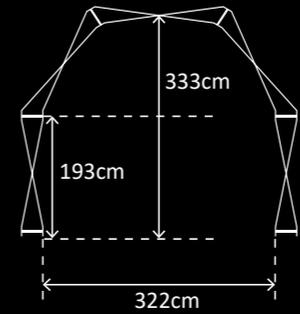

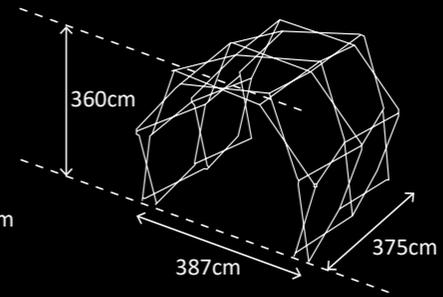

LUNO

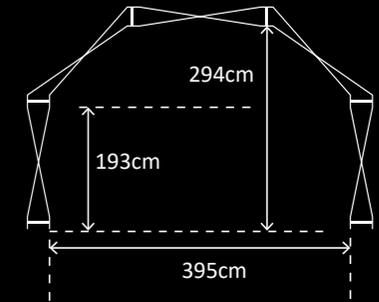

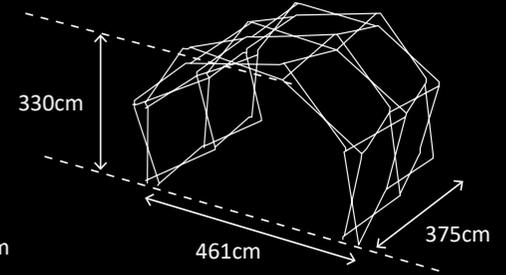

ARKO290

ARKO400

CUSTOM-MADE

Custom-made structure of 6.6m x 6.6m x 6m for Easyfairs

Explore countless other options for your upcoming custom creation, whether it's for yourself or your clients!

WHO WE ARE

The vision: Shaping connection and wonder with playful structures and daring stewardship.

Konligo, a Belgian University spin-off since 2018, leads in merging creative engineering, responsible practices, and sustainable design.

Believing in intelligent design for more with less, we create immersive, eye-catching experiences while reducing resource use, waste, and setup time.

The mission.

Enhancing temporary structures for an efficient, visually appealing, and sustainable future in events.

The style.

Our signature rotating bars, protected by patents and design rights, define the form and strength of Konligo structures.

The operations.

Headquartered in Brussels, we operate in Belgium and have partners/distributors in France, Spain, Morocco, and Japan. We are actively expanding and seeking distributors and partners worldwide.
