Latex Balloons from Anagram

a
natural +
responsible
product

Made of natural latex, also known as caoutchouc, that is harvested from the rubber tree.

Rubber trees remove CO₂ and therefore help to reduce global warming.

Latex balloons are biodegradable and latex is a renewable resource.

Highest quality and safety standards ensure that all our latex balloons conform to the EN71 (toy safety) and EN71-12 (Nitrosamines and Nitrosatable Amines) testing.

All our facilities conform with all global ethical and safety standards.

Balloons have excellent helium and air retention, reducing gas permeability.

Always weight balloons and dispose of them correctly. This protects the environment and avoids unnecessary litter.
