

NATURAL FINISHES

dnd[®]

FINITURE NATURALI / NATURAL FINISHES

Con le nuove finiture naturali ONT (Ottone Naturale) e ANT (Alluminio Naturale), Dnd riscrive il rapporto tra design e sostenibilità.

Il processo produttivo si semplifica, si fa più efficiente e consapevole, riducendo gli sprechi e valorizzando la materia prima nella sua essenza più autentica. Le superfici, lasciate libere di evolvere nel tempo, esprimono un'estetica viva e mutevole, capace di raccontare il valore del cambiamento.

ONT e ANT non sono solo finiture: sono un manifesto di innovazione, in cui forma e funzione si fondono con una nuova responsabilità ambientale.

With the new natural finishes ONT (Natural Brass) and ANT (Natural Aluminium), Dnd rewrites the relationship between design and sustainability.

The production process becomes simpler, more efficient and conscious, reducing waste and enhancing the raw material in its most authentic essence. The surfaces, left free to evolve over time, express a living and changing aesthetic, capable of telling the value of change.

ONT and ANT are not just finishes: they are a manifesto of innovation, in which form and function merge with a new environmental responsibility.

RESPONSABILITÀ PRODUTTIVA / SUSTAINABLE MANUFACTURING

Ogni scelta produttiva compiuta da Dnd punta a una riduzione concreta dell'impatto ambientale, portando il design verso una necessaria sostenibilità.

Le nuove finiture naturali, unite all'uso crescente di energia rinnovabile e a un ciclo di vita interamente riciclabile, permettono di definire un nuovo standard di produzione sostenibile, senza rinunciare alla qualità e alla bellezza del design.

Every production choice made by Dnd aims at a concrete reduction of environmental impact, leading design towards a sustainability.

The new natural finishes, combined with the increasing use of renewable energy and a fully recyclable life cycle, help define a new standard in sustainable production, without compromising the quality and beauty of design.
