JAN ERIKA

Collections

Muraspec's collaboration with renowned abstract artist Jan Erika represents a fusion of innovative design and artistic passion. Jan, celebrated for her unique ability to translate musicality into visual art, brings her dynamic approach to this partnership, creating two distinct collections that capture the essence of nature and modern architecture. The synergy between Jan's vibrant, expressive style and Muraspec's commitment to quality and sustainable practices has resulted in captivating wallcoverings that push creative boundaries, offering a unique and immersive experience for interior spaces. This partnership highlights both brands' dedication to craftsmanship, innovation, and artistic excellence.

The Erno Collection

Inspired by the visionary architect Ernő Goldfinger, the Ernő Collection by Jan Erika and in collaboration with Muraspec wallcoverings, captures the essence of the iconic Trellick Tower in West London. Designed and built in the late 1960s and 70s, Trellick Tower stands as a testament to the strength and boldness of brutalist architecture.

The Ernő Collection embraces the duality and timeless artistry of the bold building structure. Each design within the collection reflects the powerful lines and forms of brutalist design while introducing a softer side with beautiful colours and tonal hues. Our collection features scaled patterns and bold colours, balanced with light, delicate motifs. Each new wallcovering design within the collection has been crafted to embody strength and resilience, yet exudes a calm and soothing presence.

Much like Trellick Tower, the Ernő Collection is built with design and style at its core. We invite you to explore and find the beauty within, appreciating the harmonious blend of strength and elegance that defines our wallcovering collection.
