## VOLTA PROTECTIVE BARRIER

Clear, food-grade barrier ideal in situations where social distancing is a challenge, and workers are required to be close to each other.

### TRANSPARENT, HYGIENIC MATERIAL

Volta's food-grade, transparent polyurethane product creates a clean, sanitary, effective barrier where operators in offices or factories are required to work in close proximity. Made of material that has received all necessary food safety certificates, these barriers — used as a screen — offer a superior, hygienic surface that is easy to clean.

### EASILY INSTALLED AND CUSTOMIZABLE

Due to its flexible characteristics, this Volta product can easily attach to metal or other frames without difficulty. Holes for bolts, or other shaped requirements, can be made without specialized equipment or worries of cracking during manufacturing. This product will not scratch when stacked or handled, and can be heat welded to other Volta materials to produce more complex forms. Plus, Mi Conveyance Solutions can customize it by length and width to fit your unique application requirements.

### ADVANTAGES

- Easy to clean
- Transparent barrier
- Doesn't scratch when stacked
- Can be heat welded
- Attaches to metal or other frames with ease
- Food safety certifications

### SPECIFICATIONS

Description	FMWC-3
Spec #	2200
Mi Item #	09282032
Material	Volta MWC, Transparent
Hardness	95A / 46D
Temperature Range	-20°F to 140°F / -30°C to 60°C
Standard Size	1/8" / 3 mm
Standard Width	60" / 1,524 mm
Full Rolls	100'
Food Suitability	FDA / USDA / USDA Dairy / EU

# Partners. The Best Part of All.®

**Mi CONVEYANCE SOLUTIONS** focuses on customized, value-added services and capabilities designed to support your OEM and MRO needs anywhere there are moving parts or fluid conveyance.
