

#3818

2-PLY 100# POLYESTER MONOFILAMENT BLUE PVC COVER X QUAD

FEATURES

This 2-ply blue PVC belt has a smooth cover and a quad impression bottom. Designed to run on a slider bed, the quad bottom primarily serves as a barrier to keep contamination from the carcass. Quite often the belt edges are capped/sealed, making this an excellent choice for cheese plants and produce processing. Profiles, cleats, guides and sidewall can easily be welded to the belt.

APPLICATIONS

- Food
- Bakery
- Confectionery
- Protein

SPECIFICATIONS

Plies	2
Working Strength	100
Color	Blue
Material	PVC
Carcass	Monofilament
Top Cover	Smooth
Bottom Cover	Impression
Thickness	0.071"
Weight PIW	0.03
Min. Pulley Diameter	1"
Max. Elongation	1-2%
Temperature Range	0°F to 180°F
Oil Resistant	No
Antistatic	No
Food Suitability	FDA, USDA, EU

RECOMMENDED SPLICE

Clipper® Hook	UCM36
Alligator® Lacing	1
Ready Set™ Staple	RS62
Plastic Spiral	ASL90
Plastic Rivet	APF-100 W
Endless Splice	Finger, Skive
