

AMAZON BELT IN A BOX PROGRAM

SAY GOODBYE TO LEAD TIMES

Seamless Inventory Access Across Motion Distribution Centers Nationwide

With Motion Conveyance Solutions' Belt in a Box program, Amazon has instant access to an extensive inventory of over 100 stocked lightweight belts and lightweight equipment, all readily available across select Motion DCs nationwide. Amazon can now view inventory and order with ease, thanks to streamlined access and Amazon-specific cataloging.

Extensive Selection

Over 100 lightweight belts are stocked to meet Amazon's specific needs, including live roller belts, thin strip belts and high-grip belts.

No Lead Time

Immediate access to inventory allows for quick replenishment and minimizes downtime.

Tailored Inventory

We offer customized stocking setups for unique demands and specialized belting needed by local Amazon sites.

APN Integration

All belts are cataloged with Amazon's unique APN, allowing Amazon representatives to quickly search, quote and place orders with zero hassle.
