

CUSTOM RUBBER SOLUTIONS FOR HYDRO INDUSTRY SEGMENTS

The hydro industry poses unique challenges, from extreme cold and heat to low/high head gates. Each condition can affect a product's performance. That's why we work closely with you to choose the materials and manufacturing process that solve your problems.

- **Water Dams and Navigation Locks**
- **Irrigation and Waterway**
- **Flood Protection**
- **Door Seals**
- **Fish Mitigation**
- **Water Treatment**

Rubber Gate Seals

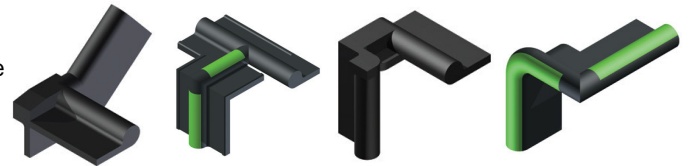

- Bulkhead Gates
- Butterfly Gates
- Cofferdams
- Crest Gates
- Culvert Seals
- Custom Profiles
- Flap Gates
- Floating Caisson Seals
- Flood Gates
- Huntington Brand Seals
- Knife Gates
- Miter Gates
- PTFE and Metal Cladding
- Roller Gates
- Slide Gates
- Sluice Gates
- Stop Logs
- Tainter Gates
- Weir Gates
- Wicket Gates

Tooling (Including the Huntington Brand)

We have the largest tooling inventory in the industry, allowing us to mold and fabricate seals with fully molded corners. With such extensive resources, we can respond quickly and cost-effectively in most applications

- Block & Tail
- Bulb & Tail / J-Bulb / Music Note
- Center Dome
- Corner Mold (Diverse Selection)
- Double Bulb
- Flat and Bullnose
- L-Type

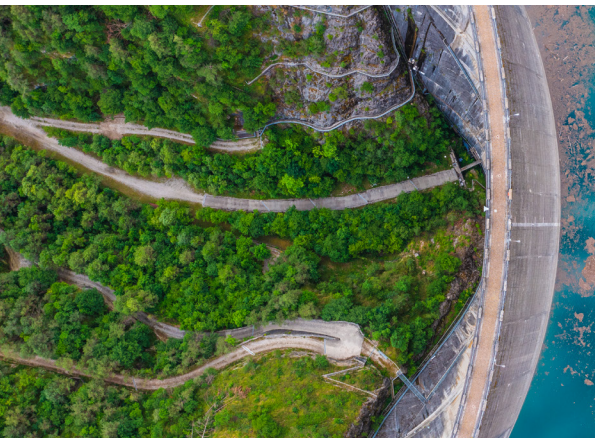

Additional Capabilities

- Rubber-to-Metal Vulcanization
- Rubber-to-PTFE Vulcanization
- Internal and Independent Testing
- R&D
- Experienced Design Assistance
- Waterjet Cutting
- Tooling Design

Compounds

- USACE Spec
- US Bureau of Rec. Spec
- EPDM
- Natural Rubber
- Neoprene
- Custom Compounds
- Nitrile
- NSF 61
- Polyisoprene
- Hypalon®
- Viton®
